## Yaheetech 48x24x30in Elevated Wooden Horticulture Planter Box

# Yaheetech Raised Garden Bed Instruction Manual

Model: 48x24x30in Elevated Wooden Horticulture Planter Box (Set of 2)

## 1. INTRODUCTION

---

Thank you for choosing the Yaheetech 2pcs Raised Garden Bed. This elevated wooden planter box is designed to provide a convenient and efficient gardening solution for your backyard, patio, or balcony. Its ergonomic height reduces strain, while the durable fir wood construction ensures longevity. Please read this manual carefully before assembly and use to ensure proper setup and maintenance.

## 2. PRODUCT FEATURES

---

- **Durable Construction:** Made from 100% non-paint fir wood for strength and stability.
- **Maximum Capacity:** Supports up to 220.5lb with a maximum soil height of 15in.
- **Set of 2:** Purchase includes 2 raised garden beds for multiple gardening needs.
- **Stable Design:** Rectangular shape with side plates securely locked in place.
- **Easy Assembly:** Comes with an instruction manual for quick and simple assembly.
- **Ergonomic Height:** Standing at 30 inches high, it reduces bending and kneeling, easing strain on your back and knees.
- **Effective Drainage:** Features drainage holes at the bottom to prevent water pooling and ensure proper aeration for plant roots.
- **Pest Protection:** The elevated design helps protect plants from ground-dwelling pests like worms, rodents, and other small animals.

# SAFE HEIGHT

The 33inches height keeps worms, rodents and wildlife from destroying your plants

### 3. PACKAGE CONTENTS

---

Upon opening the package, please verify that all components are present and undamaged:

- Wooden Side Panels (for 2 units)
- Wooden Legs (for 2 units)
- Wooden Bottom Slats (for 2 units)
- Fabric Liners (2 pieces)
- Assembly Hardware (screws, bolts, etc.)
- Assembly Instruction Manual

### 4. SETUP (ASSEMBLY)

---

Assembly of the Yaheetech Raised Garden Bed is designed to be straightforward. Please follow the detailed steps provided in the included assembly instruction manual. A general overview of the process is as follows:

1. Identify and sort all wooden panels, legs, and hardware according to the manual.
2. Assemble the side panels to form the rectangular planter box using the provided hardware.
3. Attach the legs securely to the assembled planter box.
4. Insert the wooden bottom slats into the designated slots at the base of the planter.
5. Place the non-woven fabric liner inside the assembled planter box, ensuring it covers the bottom and sides to retain soil and prevent direct contact with the wood.

For detailed, step-by-step instructions and diagrams, refer to the separate assembly manual included in your package.

## SMOOTH SURFACE

Carefully polished natural wood, smooth surface without burr.

## BOTTOM SUPPORTING BATTENS

3 supporting battens at the bottom to enhance stability.

## USER-FRIENDLY HEIGHT

User-friendly height reduces stress on your back and knees.

## 5. OPERATING (USAGE)

---

Once assembled, your Yaheetech Raised Garden Bed is ready for use:

- **Placement:** Choose a level location with adequate sunlight for your plants.
- **Filling:** Fill the planter with your desired soil mix. Do not exceed a soil height of 15 inches to ensure proper drainage and structural integrity.
- **Planting:** Plant your vegetables, herbs, flowers, or fruits as desired. The elevated height makes planting and tending much more comfortable.
- **Watering:** Water your plants as needed. The integrated drainage holes will prevent waterlogging.

## ERGONOMIC HEIGHT

No bending or leaning over, reduce the strain on your back and knees

Image: Drainage holes prevent water pooling.

## 6. MAINTENANCE

---

To ensure the longevity and optimal performance of your Yaheetech Raised Garden Bed, consider the following maintenance tips:

- **Wood Treatment:** As the garden bed is made of unfinished fir wood, applying a wood sealant or stain is highly recommended to protect it from weathering and extend its lifespan, especially in outdoor environments.
- **Cleaning:** Periodically clean the exterior of the wood with a damp cloth to remove dirt and debris.
- **Liner Inspection:** Check the fabric liner regularly for any tears or damage. Replace if necessary to maintain soil retention and prevent direct wood-soil contact.
- **Drainage:** Ensure drainage holes remain clear of obstructions to allow for proper water flow.

## 7. TROUBLESHOOTING

---

While the Yaheetech Raised Garden Bed is designed for durability and ease of use, here are some common points to consider:

- **Water Pooling:** If water is pooling at the bottom, ensure the drainage holes are not clogged. Gently clear any soil or debris from the holes.
- **Stability Concerns:** Ensure all screws and connections are tightened properly during assembly. The design includes supporting battens for enhanced stability.
- **Assembly Issues:** If you encounter mislabeled parts or have extra screws, refer to the detailed assembly manual. If issues persist, contact customer support.
- **Wood Appearance:** The natural wood may show variations in grain or color. This is normal for fir wood. For enhanced protection and a desired aesthetic, consider applying a wood finish.

## 8. SPECIFICATIONS

---

<b>Material</b>	100% Fir Wood
<b>Color</b>	Natural Wood
<b>Product Dimensions (L x W x H)</b>	47.5" x 23.5" x 30" (per unit)
