

PARIS RHÔNE PE-AH016

PARIS RHÔNE PE-AH016 Humidifier User Manual

Model: PE-AH016

1. IMPORTANT SAFETY INSTRUCTIONS

Please read and save these safety instructions before using the humidifier. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always place the humidifier on a firm, flat, waterproof surface at least 12 inches (30 cm) away from walls and appliances.
- Do not immerse the humidifier base in water or other liquids.
- Do not operate the humidifier if the cord or plug is damaged, or if the unit malfunctions or has been dropped.
- Keep the humidifier out of reach of children and pets.
- Unplug the humidifier before filling, cleaning, or moving it.
- Do not add essential oils directly into the water tank. Use the designated aroma box.
- Use only clean, cool tap water. Distilled or demineralized water is recommended to prevent white dust.
- Do not block the mist outlet or air intake vents.
- This appliance has an automatic shut-off feature when the water level is low.

2. PRODUCT OVERVIEW

The PARIS RHÔNE PE-AH016 Humidifier is designed to provide comfortable humidity levels in your living space. It features a large capacity, multiple mist settings, and convenient controls.

Image 2.1: The Paris Rhone PE-AH016 Humidifier shown with its remote control. The unit features a digital display and touch controls on the front, and a mist outlet at the top.

Package Contents:

- PARIS RHÔNE PE-AH016 Humidifier
- Remote Control
- User Manual

Component Diagram:

Familiarize yourself with the main parts of your humidifier:

- Mist Outlet
- Water Tank Lid
- Water Tank
- Base Unit
- Control Panel / Display

- Aroma Box (located on the base)
- Power Cord

3. SETUP

1. **Unpack:** Carefully remove all packaging materials and place the humidifier on a flat, stable surface.
2. **Initial Cleaning:** Before first use, clean the water tank and base thoroughly as described in the 'Maintenance' section.
3. **Fill Water Tank:**

Image 3.1: The humidifier's wide-open top allows for easy water refilling directly into the tank without needing to remove the entire water tank from the base. The image also shows the tank detached for thorough cleaning.

- Remove the water tank lid.
 - Pour clean, cool tap water directly into the tank. Do not exceed the maximum water level indicator.
 - Replace the water tank lid securely.
4. **Connect Power:** Plug the power cord into a suitable electrical outlet. The display will illuminate briefly.

4. OPERATING INSTRUCTIONS

The humidifier can be operated via the touch control panel on the unit or the included remote control.

4.1 Power On/Off

- Press the **Power Button** (🔌) to turn the humidifier on or off.
- Upon powering on, the humidifier will start in a default mist level.

4.2 Mist Level Adjustment

- Press the **Mist Level Button** (📶) repeatedly to cycle through 3 mist output levels (Low, Medium, High).
- The current mist level will be indicated on the display.

4.3 Warm Mist / Cool Mist

The humidifier offers both warm and cool mist options for varied preferences and benefits.

Image 4.1: This image illustrates the difference between warm mist and cool mist. Warm mist provides faster humidification and is considered healthier, while cool mist combats dry air and can improve flu symptoms.

- Press the **Warm Mist Button** (🔥) to activate or deactivate the warm mist function.

- Warm mist can help humidify the room more quickly.

4.4 Custom Humidity Setting (Auto Mode)

Set your desired humidity level between 30% and 90% Relative Humidity (RH). The humidifier will automatically adjust mist output to maintain this level.

Image 4.2: The humidifier's display shows a custom humidity setting of 58%. Recommended humidity ranges for pets (40-50%), babies (40-60%), and plants (55-70%) are also illustrated, indicating the versatility of the custom humidity feature.

- Press the **Humidity Setting Button** (H) to enter humidity setting mode.
- Use the same button to adjust the target humidity in 5% increments.
- The humidifier will pause misting once the target humidity is reached and resume when it drops below the set level.

4.5 Sleep Mode

For undisturbed rest, activate Sleep Mode.

Undisturbed Sleep

Functions that care and ensure a quiet and peaceful sleep

Night Light

LED Display Off

Image 4.3: The humidifier operating in a dimly lit bedroom, demonstrating its quiet operation and the option to turn off the LED display for an undisturbed sleep environment. The night light feature is also highlighted.

- Press the **Sleep Mode Button** (🛏️) to activate Sleep Mode.
- In Sleep Mode, the display lights will turn off, and the humidifier will operate at a low, quiet mist level.
- Press any button to exit Sleep Mode.

4.6 Timer Function

Set the humidifier to automatically turn off after a specified period.

- Press the **Timer Button** (🕒) repeatedly to select a timer setting (e.g., 1H, 2H, 4H, 8H).
- The humidifier will automatically shut off once the set time has elapsed.

4.7 LED Night Light

Enhance your room's ambiance with the integrated LED night light.

- Press the **Light Button** (💡) to cycle through 7 different LED light colors or turn the light off.

4.8 Aroma Diffuser

Add essential oils to the aroma box for a pleasant fragrance in your room.

Image 4.4: A woman relaxing in a living room with the humidifier operating on a side table, alongside essential oil bottles. This illustrates the convenient oil diffuser feature, allowing users to fill their room with a pleasant aroma.

- Locate the aroma box on the side of the humidifier base.
- Pull out the aroma box tray.
- Add a few drops of your preferred essential oil onto the aroma pad.
- Slide the tray back into the aroma box.
- Do not add essential oils directly into the water tank.

5. MAINTENANCE

Regular cleaning is essential for optimal performance and to prevent mineral buildup and bacterial growth.

5.1 Daily Maintenance

- Unplug the humidifier.
- Empty any remaining water from the tank and base.
- Rinse the water tank and base with fresh water.
- Wipe all surfaces dry with a clean cloth.
- Refill the tank with fresh water before next use.

5.2 Weekly Cleaning (Descaling)

- Unplug the humidifier and empty all water.
- Pour 1 cup (250ml) of white vinegar into the water tank and base.
- Let it soak for 20-30 minutes to loosen mineral buildup.
- Use a soft brush or cloth to clean the inside of the tank and the nebulizer in the base.
- Rinse thoroughly with clean water until the vinegar smell is gone.
- Wipe all parts dry.

5.3 Aroma Pad Replacement

- Replace the aroma pad in the aroma box every 3-6 months, or when the scent is no longer effectively diffused.
