VECELO KHD-LT-T01-PINK

VECELO Twin Size Metal Platform Bed Frame

Model: KHD-LT-T01-PINK

Introduction

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your VECELO Twin Size Metal Platform Bed Frame. Designed for durability and stability, this bed frame features a Victorian-inspired aesthetic and eliminates the need for a box spring. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

Safety Information

- **Weight Limit:** Do not load more than 330 pounds (150 kg) onto the bed frame. Exceeding this limit may compromise the structural integrity and lead to instability or collapse.
- **Assembly:** Follow all assembly instructions carefully. Improper assembly can result in an unstable bed frame and potential injury.
- **Regular Checks:** Periodically inspect all bolts and connections to ensure they remain tight. Loose connections can affect stability.
- **Children:** Keep small parts and packaging materials away from children during assembly to prevent choking hazards.

Package Contents

Before assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, contact VECELO customer support.

- Headboard components
- Footboard components
- Side rails (2)
- Metal slats (set of 13)
- Support legs (6)
- Hardware pack (screws, bolts, Allen wrench)
- Installation manual

Figure 2: All components and hardware for assembly.

Assembly Instructions

Assembly typically requires two adults. All necessary tools are included. Follow these steps for a quick and simple setup.

1. **Unpack and Identify Parts:** Lay out all components on a clean, soft surface (e.g., a rug or blanket) to prevent

scratching. Compare parts with the package contents list and diagrams in the manual.

2. **Assemble Headboard and Footboard:** Attach the vertical posts to the decorative horizontal bars using the provided bolts and Allen wrench. Ensure all connections are secure but do not overtighten initially.
3. **Attach Side Rails:** Connect the two side rails to the assembled headboard and footboard using the designated bolts. Ensure the U-shaped grooves on the side rails are facing inward and upward to receive the slats.

Figure 3: Connecting side rails to the headboard/footboard.

4. **Install Support Legs:** Attach the six support legs to the designated points on the bed frame, typically along the center and corners. These legs provide additional stability.
5. **Insert Metal Slats:** Place each metal slat into the U-shaped grooves on the side rails. The upgraded square steel slats are designed to fit securely and prevent movement. Ensure all slats are evenly spaced and fully seated.

Figure 4: Installing the metal slats.

6. **Final Tightening:** Once all components are in place, systematically tighten all bolts and screws. Do not overtighten to avoid stripping threads.
7. **Apply Anti-Slip Strips:** If included, apply the EVA non-slip strips to the slats where the mattress will rest. This further reduces friction and prevents mattress sliding.

Figure 5: Key features for assembly and stability.

Operating Instructions

The VECELO Twin Size Metal Platform Bed Frame is designed for use with a twin-sized mattress without the need for a box spring.

- **Mattress Placement:** Carefully place your twin-sized mattress directly onto the installed metal slats. The frame's design, including embedded mattress support, helps prevent the mattress from sliding or wobbling.
- **Under-Bed Storage:** The frame provides 12.6 inches of clearance, offering ample space for storage bins, baskets, or drawers. This feature helps in organizing your room and maximizing available space.

Figure 6: Under-bed storage space.

- **Weight Distribution:** Ensure weight is distributed evenly across the bed frame to maintain stability and prevent stress on individual components.

Maintenance

Proper maintenance will extend the life and appearance of your bed frame.

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals, as these can damage the finish.
- **Fastener Checks:** Periodically (e.g., every 3-6 months) check all bolts and screws to ensure they are tight. Retighten as necessary to maintain structural integrity and prevent squeaking.
- **Movement:** When moving the bed frame, lift it rather than dragging it to prevent damage to the legs or floor.

Troubleshooting

Refer to the following common issues and their solutions:

Problem	Possible Cause	Solution
Bed frame squeaks	Loose bolts or friction between metal parts.	Tighten all bolts. Ensure EVA non-slip strips are properly placed on slats. Apply a small amount of lubricant (e.g., silicone spray) to contact points if necessary.
Mattress slides	Lack of friction between mattress and slats.	Ensure the mattress is properly embedded within the steel frame. Verify that EVA non-slip strips are installed on the slats.
Bed frame feels unstable	Improper assembly or loose connections.	Recheck all assembly steps. Ensure all bolts are securely tightened. Verify that all support legs are firmly on the floor.

Specifications

Feature	Detail
Model Number	KHD-LT-T01-PINK
Size	Twin
Product Dimensions (L x W x H)	75" x 39" x 42.9"
Color	Light Pink
Material	Alloy Steel
Weight Capacity	330 lbs (150 kg)
Under-bed Clearance	12.6 inches
Assembly Required	Yes
Box Spring Needed	No
UPC	810094914691
