### 3. SETUP INSTRUCTIONS

#### 3.1 Connecting the Webcam

- 1. Positioning:** The Setty webcam features an adjustable clip. You can securely attach it to any type of screen (PC monitor, laptop, TV) or place it stably on a desk, monitor stand, TV cabinet, or a circular lamp with a tripod.
- 2. USB Connection:** Connect the webcam directly to your computer using the provided USB cable. The computer will automatically detect the webcam without requiring additional drivers. The 140 cm cable length allows for flexible placement.
- 3. Audio Connection:** If your computer does not automatically detect the microphone or you prefer a separate audio input, connect the audio cable from the webcam to your computer's microphone input.

### 4.2 Integrated Microphone

The webcam includes an integrated microphone for clear and fluid video communications. This allows for natural audio recording, making it suitable for online classes, business meetings, and connecting with family and friends. You can also use the camera with wireless headsets, gaming headsets, or computer speakers.

### 4.3 360-Degree Rotation

The webcam's design allows for 360-degree rotation, enabling you to adjust the angle as needed. The stable clip ensures the camera remains in your desired position without damaging your screen.

#### 4.4 Wide Range of Applications

The Setty Webcam is compatible with various operating systems, including Windows (Win10/Vista/Win7), Mac, and Android TV. It provides excellent video quality for popular communication platforms such as Skype, WhatsApp, Facetime, Zoom, Teams, Facebook, YouTube, and Twitch.

### 5. MAINTENANCE

To ensure optimal performance and longevity of your webcam, follow these maintenance guidelines:

- **Cleaning:** Gently wipe the lens and body of the webcam with a soft, dry, lint-free cloth. Avoid using harsh chemicals or abrasive materials that could scratch the lens or damage the surface.
- **Storage:** When not in use, store the webcam in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid bending or twisting the USB and audio cables excessively to prevent internal damage.

### 6. TROUBLESHOOTING

If you encounter issues with your FOREVER Setty Webcam, try the following solutions:

- **Webcam Not Detected:**
  - Ensure the USB cable is securely connected to both the webcam and your computer.

- Try connecting the webcam to a different USB port on your computer.
- Restart your computer.
- Check your computer's device manager (Windows) or System Information (Mac) to see if the webcam is listed.

- **No Image/Poor Image Quality:**

- Ensure the lens is clean and free from dust or smudges.
- Check the lighting conditions in your environment. Adequate lighting is crucial for good image quality.
- Verify that the correct webcam is selected in your video conferencing application's settings.

- **Microphone Not Working/Poor Audio Quality:**

- Ensure the audio cable (if used) is properly connected.
- Check your computer's sound settings to ensure the webcam's microphone is selected as the input device and its volume is not muted.
- Verify the microphone settings within your video conferencing application.
