KAWADA NBC-363

KAWADA nanoblock Brachiosaurus Building Kit (Model NBC-363) Instruction Manual

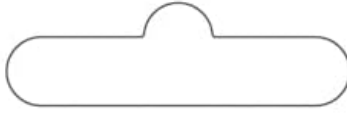

Brand: KAWADA | Model: NBC-363

1. INTRODUCTION

This manual provides comprehensive instructions for assembling and caring for your KAWADA nanoblock Brachiosaurus building kit, model NBC-363. This kit allows you to construct a detailed micro-sized model of a Brachiosaurus, approximately 4.79 inches tall, using 190 nanoblock pieces. The assembly process is designed to be engaging and results in a display-ready model.

What's in the Box:

- Assorted nanoblock pieces required to build one Brachiosaurus model.
- Detailed step-by-step instruction booklet.

2. SAFETY INFORMATION

WARNING: CHOKING HAZARD. This product contains small parts and is not suitable for children under 3 years of age. Keep all small parts away from young children to prevent accidental ingestion.

The manufacturer recommends this product for ages 15 and up due to the small size of the blocks and the intricate assembly process. Adult supervision is recommended for younger builders.

3. ASSEMBLY INSTRUCTIONS

The nanoblock Brachiosaurus kit is designed for a difficulty level of 2 out of 5, indicating an entry-level build. Follow the detailed step-by-step instructions provided in the included booklet for optimal assembly.

- Preparation:** Unpack all nanoblock pieces and the instruction booklet. It is recommended to sort pieces by color and size to facilitate the building process.
- Follow the Booklet:** Refer to the instruction booklet for visual, step-by-step guidance. Each step illustrates which blocks to use and where to place them.
- Precision:** Due to the micro-size of the blocks (as small as 4mm x 4mm x 5mm), precision is key. Use tweezers (not included) if necessary for placing smaller pieces.
- Layer by Layer:** Most nanoblock models are built layer by layer. Ensure each layer is securely connected before proceeding to the next.
- Completion:** Once all steps are followed, your Brachiosaurus model will be complete and ready for display.

Image 3.2: The nanoblock Brachiosaurus model shown in a hand, illustrating its compact, micro-sized scale.

4. DISPLAY AND INTERACTION

Your nanoblock Brachiosaurus model is designed for display and collection. Its intricate details and realistic appearance make it a suitable decorative item for shelves, desks, or display cases.

- **Display:** Place your finished model on a stable, flat surface. Consider displaying it with other nanoblock dinosaur models to create a themed collection.
- **Interaction:** While durable, the model is not intended for rough play. Handle with care to prevent pieces from detaching.

Image 4.2: An angled view of the nanoblock Brachiosaurus model, highlighting its textured block construction and the accompanying miniature foliage.

5. MAINTENANCE

To keep your nanoblock model in excellent condition, follow these simple maintenance guidelines:

- **Cleaning:** Gently dust the model with a soft brush or a can of compressed air. Avoid using water or chemical cleaners, as these may damage the blocks or loosen connections.
- **Storage:** If disassembling or storing the model, keep all pieces in a sealed container to prevent loss and protect them from dust.
- **Handling:** Always handle the model by its base or main body to avoid putting stress on delicate parts.

6. TROUBLESHOOTING

While nanoblock kits are generally straightforward, you might encounter minor issues during assembly or display:

- **Missing Pieces:** Double-check all packaging and work surfaces. If a piece is genuinely missing, contact customer support (see Section 8).
- **Difficulty with Instructions:** The instruction booklet provides visual steps. If a step is unclear, try re-examining the image closely or referring to online nanoblock building communities for visual aids or tips.
- **Loose Connections:** Ensure blocks are firmly pressed together. The small size requires a precise fit.
- **Model Instability:** If the model feels unstable, re-check the connections of the base and legs. Ensure all pieces are fully seated.

7. PRODUCT SPECIFICATIONS

Model Number:	NBC-363
Brand:	KAWADA (nanoblock)
Number of Pieces:	190
Assembled Dimensions:	Approximately 4.32 x 1.26 x 4.79 inches (L x W x H)
Item Weight:	1.3 ounces
Difficulty Level:	2 out of 5 (Entry Level)
Recommended Age:	15 years and up
Manufacturer:	Kawada
