Hot Wheels HJP78

Hot Wheels RC Tesla Roadster 1:64 Scale Remote-Control Vehicle Instruction Manual

Model: HJP78

PRODUCT OVERVIEW

The Hot Wheels R/C Tesla Roadster is a 1:64 scale remote-controlled vehicle designed for both on-track and off-track play. It features authentic details and a cutting-edge design, replicating an actual Tesla. The vehicle operates on a 2.4 GHz frequency, allowing multiple R/C cars to be used simultaneously without interference. A turbo boost button on the remote provides additional speed for enhanced performance.

SETUP INSTRUCTIONS

1. Charging the Vehicle

1. Locate the charging port on the Hot Wheels R/C Tesla Roadster.
2. Connect the included USB cable to the vehicle's charging port.
3. Plug the other end of the USB cable into a compatible USB power source (e.g., computer, USB wall adapter).
4. Allow approximately 20 minutes for a full charge, which provides up to 20 minutes of play time.

2. Installing Controller Batteries

- The remote controller requires two AAA batteries (not included).
- Open the battery compartment on the back of the controller.
- Insert the batteries, ensuring correct polarity (+/-).
- Close the battery compartment securely.

OPERATING INSTRUCTIONS

1. Power On/Off

- Turn on the vehicle using the power switch located on its underside.
- Turn on the remote controller using its power switch. The indicator light on the controller will illuminate.

2. Pairing

- The vehicle and controller should automatically pair. If not, turn both off and then on again.

3. Driving the Vehicle

- Use the left joystick to control forward and backward movement.
- Use the right joystick to control left and right steering.
- Press the turbo boost button for an extra burst of speed, allowing the vehicle to reach top speeds of 6.8 mph.

4. On-Track and Off-Track Play

- The 1:64 scale car is compatible with iconic Hot Wheels orange tracks (sold separately).
- Use the included track adapter to seamlessly transition the vehicle between track and off-track surfaces.

MAINTENANCE

- **Cleaning:** Wipe the vehicle and controller with a dry, soft cloth. Avoid using water or cleaning solutions.
- **Storage:** Store the vehicle and controller in a cool, dry place away from direct sunlight when not in use.
- **Battery Care:** Remove batteries from the controller if storing for extended periods. Ensure the vehicle is fully charged before long-term storage.
- **Surface Considerations:** Avoid operating the vehicle on surfaces with excessive dust, dirt, or pet hair, as this can interfere with the gears and performance.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Vehicle does not respond to controller.	Low battery in vehicle or controller; not paired; interference.	Charge vehicle battery; replace controller batteries; turn both devices off and on to re-pair; move away from other 2.4 GHz devices.
Vehicle moves erratically or not straight.	Wheel alignment issue; debris in gears; uneven surface.	Check for debris in wheels/gears and clean if necessary; operate on a smooth, flat surface.
Short play time.	Incomplete charge; old battery.	Ensure vehicle is fully charged (20 minutes for 20 minutes play); consider battery replacement if performance degrades significantly over time.

SPECIFICATIONS

- Product Dimensions:** 3.94 x 3.94 x 3.94 inches
- Item Weight:** 4.6 ounces
- Item Model Number:** HJP78
- Manufacturer Recommended Age:** 5 years and up
- Vehicle Batteries:** 1 Lithium Polymer battery (included, rechargeable via USB)
- Controller Batteries:** 2 AAA batteries (not included)
- Frequency:** 2.4 GHz
- Top Speed:** Up to 6.8 mph
- Manufacturer:** Mattel
- Release Date:** November 1, 2022

WARRANTY AND SUPPORT

For warranty information, technical support, or replacement parts, please contact Mattel customer service directly. Refer to the product packaging for specific contact details or visit the official Hot Wheels website.

Keep this instruction manual for future reference.
