Power Nap Feature

To conserve battery, the Power Nap feature automatically switches off the headset if it is disconnected from a device for a full hour. To reactivate, simply power the headset on again.

MAINTENANCE

General Care

- Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- Avoid exposing the headset to liquids or moisture. The headset is not water resistant.
- Do not attempt to disassemble or modify the headset, as this will void the warranty.

Cleaning

Gently wipe the headset with a soft, dry, lint-free cloth. For the EarGels, you may remove them and clean with a damp cloth and mild soap, then rinse and dry thoroughly before reattaching.

TROUBLESHOOTING

Problem	Solution
No sound from headset	Ensure the headset is powered on and paired correctly. Check the volume levels on both the headset and your connected device. Ensure the headset is selected as the audio output device on your phone.
Cannot pair headset with device	Ensure the headset is in pairing mode. Turn off and on your device's Bluetooth. Try deleting previous pairings on your device and re-pairing. Ensure the headset is within 10 meters (33 feet) of your device.
Low volume during calls	Increase the volume on both the headset and your connected device. Ensure the EarGel is properly seated in your ear.
Headset keeps disconnecting	Ensure the headset is within range of your device and there are no significant obstructions. Check for interference from other wireless devices. Recharge the headset if the battery is low.
