SEB SS-2230002912

SEB SS-2230002912 Power Brush for Rowenta XFORCE FLEX 8.60 Vacuum Cleaner - Instruction Manual

Model: SS-2230002912

1. Introduction

This manual provides essential instructions for the safe and efficient use of your SEB SS-2230002912 Power Brush, an accessory designed for the Rowenta XFORCE FLEX 8.60 vacuum cleaner. Please read this manual thoroughly before installation, operation, or maintenance.

The SS-2230002912 Power Brush is a specialized attachment for carpet and upholstery cleaning, featuring a rotating brush and two wheels for enhanced maneuverability.

2. Safety Instructions

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, or injury.

- Ensure the vacuum cleaner is unplugged before attaching or detaching the power brush.
- Do not immerse the power brush in water or other liquids.
- Keep hair, loose clothing, fingers, and all parts of the body away from openings and moving parts.
- Do not use the power brush to pick up flammable or combustible liquids, such as gasoline, or use in areas where they may be present.
- Do not pick up anything that is burning or smoking, such as cigarettes, matches, or hot ashes.
- Inspect the power brush for damage before each use. Do not use if damaged.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

3. Setup and Installation

Follow these steps to correctly attach the power brush to your Rowenta XFORCE FLEX 8.60 vacuum cleaner.

1. **Ensure Power Off:** Before beginning, ensure your Rowenta XFORCE FLEX 8.60 vacuum cleaner is turned off and unplugged from the power outlet.
2. **Locate Connection Point:** Identify the attachment point at the end of the vacuum cleaner's wand or hose.
3. **Align Power Brush:** Align the connector of the SS-2230002912 Power Brush with the attachment point on the vacuum cleaner.
4. **Secure Attachment:** Push the power brush firmly onto the vacuum cleaner's wand until it clicks securely into place. Ensure there is no wobble and the connection is stable.

4. Operating Instructions

Once the power brush is securely attached, you can begin using it for cleaning.

1. **Power On:** Plug in your Rowenta XFORCE FLEX 8.60 vacuum cleaner and turn it on. The power brush will activate automatically.
2. **Surface Compatibility:** The power brush is designed for carpets and upholstery. Avoid using it on hard floors as it may cause damage or reduce cleaning effectiveness.
3. **Cleaning Technique:** Move the power brush slowly and steadily over the surface to allow the rotating brush to effectively agitate and lift dirt. For heavily soiled areas, multiple passes may be required.
4. **Maneuverability:** The integrated wheels assist in smooth movement across surfaces.
5. **Power Off:** After cleaning, turn off the vacuum cleaner and unplug it from the power outlet.

5. Maintenance and Cleaning

Regular maintenance ensures optimal performance and extends the lifespan of your power brush.

- **Brush Roll Cleaning:** Periodically check the rotating brush for tangled hair, threads, or debris. Use scissors or a brush cleaning tool to carefully remove any obstructions.
- **Wheel Cleaning:** Ensure the two wheels are free from debris to maintain smooth movement.
- **Exterior Cleaning:** Wipe the exterior of the power brush with a damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the power brush in a clean, dry place when not in use.

Image 2: An illustrative view of the power brush's underside, highlighting the rotating brush mechanism. Regular inspection and cleaning of this component are crucial for effective operation.

6. Troubleshooting

Refer to the table below for common issues and their solutions.

Problem	Possible Cause	Solution
Power brush not rotating.	Debris tangled in brush roll. Improper connection to vacuum.	Clean brush roll of any obstructions. Ensure power brush is securely attached to the vacuum cleaner.

Problem	Possible Cause	Solution
Reduced cleaning performance.	Worn brush bristles. Debris in brush roll or wheels.	Inspect brush bristles for wear; consider replacement if severely worn. Clean brush roll and wheels.
Power brush making unusual noise.	Foreign object caught in brush mechanism.	Turn off and unplug vacuum. Carefully inspect and remove any foreign objects from the brush area.
