LG S65Q.DUSALLK

LG S65Q Sound Bar System User Manual

Model: S65Q.DUSALLK

Introduction

This manual provides essential information for the setup, operation, and maintenance of your LG S65Q 3.1 channel High-Res Audio Sound Bar with DTS Virtual:X. Please read this manual thoroughly before using the product.

Setup

Unboxing and Initial Placement

Carefully remove all components from the packaging. Ensure all included items are present: Sound Bar, Wireless Subwoofer, Remote, Batteries, Wall Mount Bracket, and HDMI Cable.

Image: The LG S65Q Sound Bar positioned below a television on a media console, with the wireless subwoofer placed to the left.

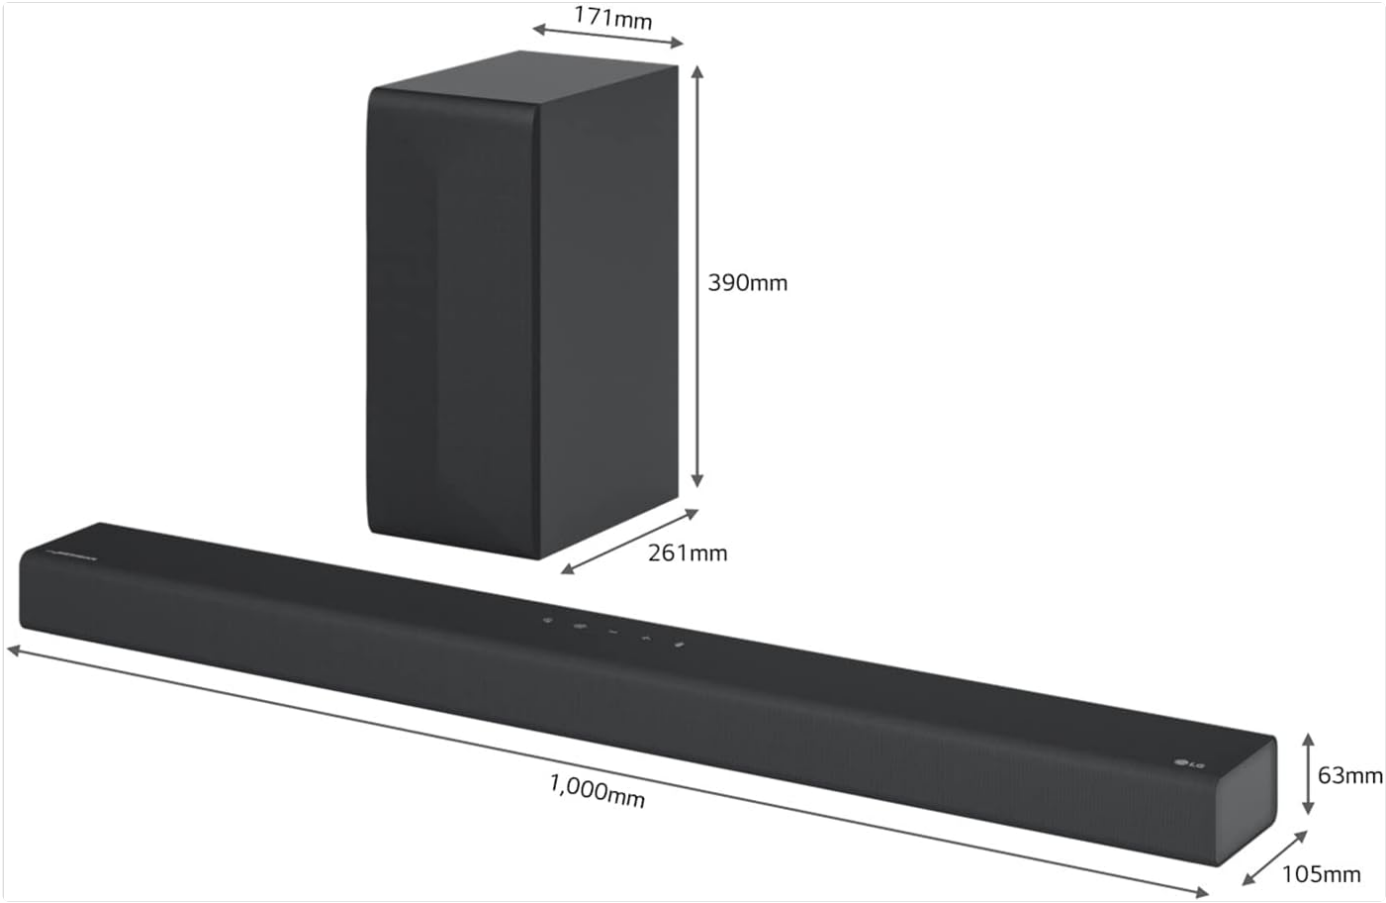

Image: Diagram showing the dimensions of the LG S65Q Sound Bar (1000mm width, 63mm height, 105mm depth) and its wireless subwoofer (171mm width, 390mm height, 261mm depth).

Connecting the Sound Bar

The LG S65Q Sound Bar offers versatile connectivity options:

- **HDMI (ARC):** For optimal audio quality and control with compatible LG TVs, connect the sound bar to your TV's HDMI ARC port using the provided HDMI cable. This allows the TV remote to control the sound bar's basic functions.
- **Bluetooth:** For wireless audio streaming from smartphones or tablets.

The wireless subwoofer automatically pairs with the sound bar upon power-on. Ensure both devices are powered and within range.

Wall Mounting

The sound bar can be wall-mounted using the included wall mount bracket. Refer to the detailed instructions in the full user manual (PDF link provided in Support section) for proper installation.

Operating Instructions

Power On/Off

Press the power button on the sound bar or the remote control to turn the unit on or off.

Volume Control

Use the volume up (+) and volume down (-) buttons on the sound bar or remote to adjust the audio level.

Sound Modes

The LG S65Q features various sound modes to optimize your listening experience. These can be switched via your TV remote (with compatible LG TVs) or the sound bar's remote.

- **DTS Virtual:X:** Provides an immersive, virtualized surround sound experience.
- **Meridian Audio Technology:** Enhances clarity and precision, upmixing two-channel stereo for a wider soundstage.
- **High-Res Audio:** Delivers accurate and enjoyable listening for high-fidelity content.
- **TV Sound Mode Share:** Utilizes your LG TV's sound engine to automatically optimize sound quality when paired with compatible LG TVs.

Bluetooth Pairing

To pair a new Bluetooth device:

1. Ensure the sound bar is in Bluetooth pairing mode (refer to the sound bar's display or indicator light).
2. On your device (smartphone, tablet), enable Bluetooth and search for available devices.
3. Select "LG S65Q" from the list to connect.

Maintenance

To ensure optimal performance and longevity of your LG S65Q Sound Bar system, regular maintenance is recommended.

- **Cleaning:** Gently wipe the surfaces of the sound bar and subwoofer with a soft, dry cloth. Avoid using abrasive cleaners or solvents. Some users have noted that the sound bar's surface can collect dust easily, so frequent cleaning may be beneficial.
- **Ventilation:** Ensure proper ventilation around both the sound bar and the subwoofer to prevent overheating. Do not block any ventilation openings.

Troubleshooting

If you encounter issues with your LG S65Q Sound Bar, refer to the following common troubleshooting tips:

No Sound or Low Volume

- Check all cable connections (HDMI, power).
- Ensure the sound bar and TV are powered on and the correct input source is selected on the TV.
- Verify that the sound bar's volume is not muted or set too low.
- If using HDMI ARC, ensure ARC is enabled on your TV's settings.

Subwoofer Not Connecting

- Ensure the wireless subwoofer is powered on and its indicator light is active.
- Move the subwoofer closer to the sound bar to improve wireless connection.
- If issues persist, try re-pairing the subwoofer manually (refer to the full user manual for specific steps).

Sound Quality Issues

- Adjust the sound modes (DTS Virtual:X, Meridian, etc.) to find the optimal setting for your content and room.
- Check your TV's audio output settings to ensure it's sending the correct audio format to the sound bar.
