## SETUP

Before beginning assembly, ensure you have an appropriate workspace.

1. **Choose a Suitable Surface:** Select a large, flat, and stable surface that will not be disturbed. This surface should be large enough to accommodate the finished puzzle, which measures approximately 19 inches by 27 inches (48.26 cm x 68.58 cm).
2. **Ensure Good Lighting:** Adequate lighting is crucial for distinguishing colors and details on the puzzle pieces.
3. **Prepare the Pieces:** Carefully open the puzzle box and empty all pieces onto your prepared surface.
4. **Reference Image:** Keep the puzzle box lid or any included reference poster visible for guidance during assembly.

## OPERATING INSTRUCTIONS (ASSEMBLY)

Follow these steps to assemble your 1000-piece jigsaw puzzle:

1. **Sort Edge Pieces:** Begin by separating all pieces with at least one flat edge. These pieces form the border of the puzzle.
2. **Assemble the Border:** Connect the edge pieces to form the outer frame of the puzzle. This provides a structural guide for the rest of the assembly.
3. **Sort by Color and Pattern:** Group the remaining interior pieces by color, pattern, or distinct features visible in the reference image. This makes it easier to locate specific pieces.
4. **Work in Sections:** Start assembling smaller sections of the puzzle based on the sorted groups. Connect these sections as they are completed.
5. **Connect Pieces:** Carefully fit pieces together. If a piece does not fit easily, do not force it, as this can damage the piece. Look for alternative connections.

6. **Complete the Puzzle:** Continue assembling sections and connecting them until the entire puzzle is complete.

## MAINTENANCE

Proper care ensures the longevity of your puzzle.

- **Cleaning:** If pieces become dusty, gently wipe them with a dry, soft cloth. Avoid using liquids or abrasive cleaners.
- **Storage:** When not in use, store the puzzle pieces in their original box in a cool, dry place away from direct sunlight and moisture. If the puzzle is assembled, consider disassembling it for storage or framing it.
- **Framing (Optional):** For a permanent display, the completed puzzle can be glued and framed. Use a puzzle glue specifically designed for jigsaw puzzles, following the product's instructions.
