4. Maintenance

4.1 Cleaning

To clean the remote control, use a soft, dry cloth. For stubborn dirt, lightly dampen the cloth with water or a mild, non-abrasive cleaner. Avoid using harsh chemicals or abrasive materials, as these can damage the remote's surface or internal components.

4.2 Battery Care

If the remote control will not be used for an extended period, remove the batteries to prevent leakage, which can damage the device. Replace batteries when the remote's responsiveness decreases.

5. Troubleshooting

If you encounter issues with your remote control, please refer to the following common problems and solutions:

Problem	Solution
Remote is not responding.	Check if the batteries are inserted correctly with the correct polarity. Replace old batteries with new ones. Ensure there are no obstructions between the remote and the TV's IR receiver.
Some buttons are not working.	This could indicate low battery power; try replacing the batteries. Ensure the remote is pointed directly at the TV. If the issue persists, the button may be physically stuck or damaged.
Remote range is reduced.	Replace the batteries. Ensure the remote's IR emitter (at the top) is clean and unobstructed. Reduce the distance between the remote and the TV.
