Maintenance

To ensure the longevity and optimal performance of your remote control, please observe the following maintenance guidelines:

- **Cleaning:** Wipe the remote control with a soft, dry cloth. Avoid using liquid cleaners or abrasive materials, as these can damage the remote's surface or internal components.
- **Battery Replacement:** Replace batteries when the remote's response becomes sluggish or stops working. Always replace both batteries simultaneously with new AAA batteries. Do not mix old and new batteries, or different types of batteries.
- **Storage:** Store the remote in a dry place, away from direct sunlight, extreme temperatures, and high humidity.
- **Disposal:** Dispose of used batteries according to local regulations. Do not dispose of batteries in general household waste.

Troubleshooting

If you encounter issues with your remote control, refer to the following common problems and solutions:

Problem	Possible Cause / Solution
Remote is not responding.	◦ Check if the batteries are correctly inserted with the correct polarity (+/-). ◦ Replace old batteries with new AAA batteries. ◦ Ensure there are no obstructions between the remote and the television's IR receiver. ◦ Verify that the remote is pointed directly at the television.
Some buttons are not working.	◦ Clean the remote control surface, especially around the unresponsive buttons, to remove any dirt or debris. ◦ Ensure the batteries have sufficient power. Replace if necessary.
Remote range is reduced.	◦ Replace the batteries. Low battery power can reduce the effective range. ◦ Ensure there are no strong light sources (e.g., direct sunlight, fluorescent lights) interfering with the IR signal.
