Travel Blue 101

Travel Blue Squares Travel Luggage Tag

MODEL 101 INSTRUCTION MANUAL

Introduction

This manual provides instructions for the proper setup, operation, and maintenance of your Travel Blue Squares Travel Luggage Tag, Model 101. This tag is designed to help identify your luggage quickly and securely, ensuring your personal information remains discreetly stored.

Setup

Follow these steps to prepare your luggage tag for use:

1. **Accessing the Information Card:** The tag features a concealed identification card. To access it, gently remove the flexible loop strap from the tag by pulling it through the top hole.
2. **Removing the Card:** Carefully pull out the blank information card from the slot located on the back of the tag.
3. **Filling Information:** Write your personal contact details (Name, Telephone, Email, Address) clearly on the card. Ensure the writing is legible.
4. **Reinserting the Card:** Slide the filled information card back into the slot on the tag, ensuring it is fully concealed and secure.
5. **Reattaching the Strap:** Reinsert the flexible loop strap through the designated hole at the top of the tag, pulling it through until it forms a secure loop.

Operating

Once the information card is in place, attach the tag to your luggage:

1. **Attaching to Luggage:** Securely attach the luggage tag to the handle or a sturdy loop on your suitcase, backpack, or travel bag using the flexible loop strap. Pass the strap around the handle and then through the loop of the strap itself to fasten it.
2. **Ensuring Security:** Make sure the strap is tightly fastened to prevent accidental detachment during transit. The bright design aids in quick identification on baggage carousels.

Maintenance

Proper care will extend the life of your luggage tag:

- **Cleaning:** Wipe the rubber tag with a damp cloth to remove dirt or smudges. Avoid using harsh chemicals or abrasive cleaners, as these may damage the material or fade the colors.
- **Storage:** Store the tag in a cool, dry place when not in use to prevent material degradation.
- **Inspection:** Periodically check the tag and strap for any signs of wear, tears, or damage. Replace the tag if the strap or body shows significant signs of deterioration to ensure continued security.

Troubleshooting

Here are solutions to common issues you might encounter:

- **Difficulty Inserting/Removing Card:** If the information card is stiff or difficult to slide, gently flex the rubber tag to slightly widen the slot. Ensure the card is aligned correctly before attempting to insert or remove it.
- **Strap Detachment:** Ensure the loop strap is fully inserted and secured through the tag's hole and

around the luggage handle. If the strap appears stretched, cracked, or damaged, it may lose its grip; consider replacing the tag.

Specifications

Model Number	101
Material	High-quality flexible rubber
Color	Multi-colored squares pattern
Dimensions (approx.)	11 cm (Height) x 5.5 cm (Width)
Weight (approx.)	0.4 Grams
