## TROUBLESHOOTING

---

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Device does not turn on.	Battery is depleted.	Charge the device fully using the provided USB magnetic charging cable.
Short battery life.	Frequent use or aging battery.	Ensure the device is fully charged before each use. Battery life naturally decreases over time.
Cannot connect to Satisfyer Connect app.	Bluetooth is off, device is off, or app issue.	Ensure Bluetooth is enabled on your phone, the device is turned on, and the app is updated to the latest version. Try restarting both the device and the app.
Material feels sticky or degraded.	Exposure to incompatible lubricants or improper storage.	Only use water-based lubricants. Store away from other silicone products and extreme conditions. If degradation is significant, discontinue use.
