4. SETUP AND ASSEMBLY

Follow these steps to assemble your Dinosaur Research Station. Refer to the back of the product packaging for a visual guide to component placement.

1. **Unpack Components:** Carefully remove all pieces from the packaging. Verify all items listed in 'What's in the Box' are present.
2. **Assemble the Base:** Connect the main building sections to form the multi-level research station. Ensure all connections are secure.
3. **Attach Fences and Gates:** Secure the 5 fence elements around the designated enclosure areas. Attach the entrance gate to complete the dinosaur containment zone.
4. **Install Ladders:** Place the two ladders in their respective positions on the side of the building for access to upper levels.
5. **Mount Equipment:** Attach the control panel, satellite dish, and surveillance camera to their designated spots on the research station.
6. **Assemble Crane and Tranquilizer Cannon:** Secure the crane with its cable winch and the tranquilizer cannon onto the upper platform.
7. **Place Accessories:** Arrange the smaller accessories such as the mobile telephone, laptop, knife, binoculars, aluminium box, bait, acacia leaves, and hat within the station as desired.
8. **Apply Stickers:** Use the provided sticker sheet to add details to the playset, enhancing its realistic appearance.

5. OPERATING INSTRUCTIONS

Explore the interactive features of your research station:

- **Dinosaur Enclosures:** The playset features multiple enclosures and gates to contain the dinosaur figurines. The main gate can be opened and closed to allow dinosaurs to enter or exit.
- **Feeding Crane:** Use the functional crane with its cable winch to lower the net or bait (meat piece) into the dinosaur enclosure. The crane can be rotated and the winch operated to raise and lower items.
- **Tranquilizer Cannon:** Load the projectiles into the tranquilizer cannon. Aim and press the button to fire the projectiles, simulating tranquilizing a dinosaur. Ensure projectiles are only fired at appropriate targets and not at eyes or face.
- **Secret Trap Door:** The research station includes a hidden trap door on the upper level. This can be opened to allow figurines to drop to the lower level or to surprise dinosaurs.
- **Movable Parts:** The dinosaur figurines feature movable parts, allowing for dynamic posing and interactive play scenarios.

6. MAINTENANCE

To ensure the longevity of your Schleich playset:

- **Cleaning:** Wipe down the playset and figurines with a damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the playset in a cool, dry place away from direct sunlight to prevent material degradation.
- **Inspection:** Periodically check for any loose or damaged parts. Replace any broken components to maintain safety and functionality.

7. TROUBLESHOOTING

If you encounter any issues with your playset, consider the following:

- **Loose Parts:** If small parts like guard rails or plants detach easily, ensure they are correctly inserted into their designated slots. Gentle re-attachment is usually sufficient.

- **Tranquilizer Cannon Not Firing:** Check if the projectile is correctly loaded and the firing mechanism is fully engaged before pressing the button. Ensure no obstructions are present.
- **Crane Malfunction:** Verify that the cable is properly wound around the winch and not tangled. Ensure the crane arm is securely attached to its base.

For persistent issues, please contact Schleich customer support.
