## QUANTUM STORAGE SYSTEMS SL14S

# Quantum Storage SL14S Chrome 14-inch Wire Shelving Side Ledge Instruction Manual

Model: SL14S

## 1. Introduction

---

This manual provides instructions for the proper installation, use, and maintenance of your Quantum Storage SL14S Chrome 14-inch Wire Shelving Side Ledge. This accessory is designed to enhance the functionality of wire shelving units by preventing items from falling off the sides.

## 2. Safety Information

---

Please read all instructions carefully before installation and use. Retain this manual for future reference.

- Ensure the shelving unit is stable and properly assembled before attaching the side ledge.
- Do not overload the shelving unit or rely solely on the side ledge to contain extremely heavy or unstable items.
- Keep small parts away from children during assembly.
- **Proposition 65 Warning:** This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

## 3. Package Contents

---

Verify that all components are present before beginning installation:

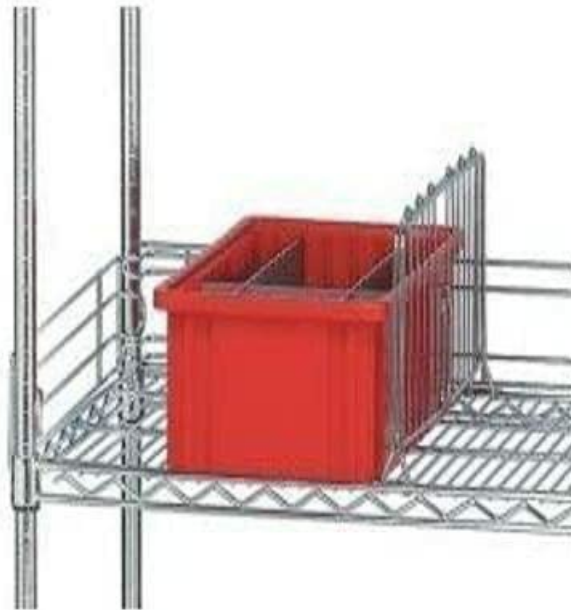

- 1 x Quantum Storage SL14S Chrome 14-inch Wire Shelving Side Ledge
- (No additional hardware typically required for this accessory)

## 4. Setup and Installation

---

The SL14S side ledge is designed for easy attachment to standard wire shelving units. No tools are typically required.

1. **Identify Attachment Points:** Locate the side of your wire shelving unit where you wish to install the ledge. The ledge is designed to hook onto the horizontal wires of the shelf.
2. **Position the Ledge:** Align the hooks or clips on the side ledge with the appropriate wires on the edge of your shelving unit. Ensure the ledge is facing upwards, creating a barrier.
3. **Secure the Ledge:** Gently press down or snap the ledge into place, ensuring all attachment points are firmly secured to the wire shelf. The ledge should sit flush against the side of the shelf and be stable.
4. **Verify Stability:** Once installed, gently tug on the ledge to confirm it is securely attached and does not wobble.

## 5. Operation and Usage

---

The Quantum Storage SL14S Side Ledge serves as a barrier to keep items contained on your wire shelving unit. Once installed, it provides a raised edge along the side of the shelf.

- Place items on the shelf as usual, ensuring they are within the boundaries created by the side ledge.

- The ledge is particularly useful for preventing smaller items, boxes, or containers from sliding off the shelf during movement or when accessing items.

## 6. Maintenance

---

To ensure the longevity and appearance of your chrome side ledge, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the ledge with a soft, damp cloth. For stubborn dirt, a mild soap solution can be used. Avoid abrasive cleaners or scouring pads, as these can damage the chrome finish.
- **Drying:** Dry the ledge thoroughly after cleaning to prevent water spots or corrosion.
- **Inspection:** Periodically check the attachment points to ensure the ledge remains securely fastened to the shelving unit.

## 7. Troubleshooting

---

### LEDGE IS NOT STABLE OR FALLS OFF:

- Ensure the ledge is correctly aligned with the wire shelving and all hooks/clips are fully engaged.
- Verify that the ledge is compatible with your specific wire shelving unit. This model is designed for 14-inch deep wire shelves.
- Inspect the ledge for any damage or bending that might prevent a secure fit.

## 8. Specifications

---

<b>Model Number</b>	SL14S
<b>Product Dimensions</b>	1 x 1 x 1 inches (approximate, refers to packaging/shipping dimensions)
<b>Item Weight</b>	1 Pound
<b>Material</b>	Chrome-plated wire
<b>Compatibility</b>	Designed for 14-inch deep wire shelving units

*Note: Product dimensions provided are often for packaging. The actual ledge dimensions are designed to fit 14-inch deep wire shelves.*
