Troubleshooting

Most issues with plush toys are related to cleaning or minor wear. Here are some common concerns:

- **Loss of Fluffiness:** If the toy appears flattened after washing or prolonged use, gently pat and fluff it by hand to redistribute the filling.
- **Stains:** Follow the spot cleaning instructions in the 'Care and Maintenance' section for localized stains. For stubborn stains, a full machine wash may be necessary.
- **Loose Threads:** Occasionally, loose threads may appear. Carefully trim them with scissors; do not pull them.

If you encounter any other issues, please refer to the 'Support Information' section.
