Graywind GW01

Graywind Manual Sliding Panel Track Blinds Instruction Manual

Model: GW01

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Graywind Manual Sliding Panel Track Blinds. These blinds are designed to offer light filtering, privacy, and heat reduction for various applications, including patio doors, sliding glass doors, and large windows.

Image 1.1: Graywind Manual Sliding Panel Track Blinds in Linen Beige, providing light filtering for a large window.

2. PRODUCT FEATURES

- **Functional Sliding Panels:** Constructed from 60% blackout linen textured fabric, these panels filter light, reduce heat, and maintain privacy. Panels are removable and replaceable for easy cleaning. A valance made from the same fabric is available as an option.
- **High-Quality Track System:** The track supports widths up to 153 inches, ensuring smooth operation and ease of installation.
- **Wand Control:** Features a cordless design with a wand for manual control, allowing panels to be moved from left, right, or the middle. This design enhances safety for children and pets. The default wand length is calculated as Order Height - 39 inches (minimum wand length is 27.5 inches).
- **Panel Overlap:** Each two panels overlap by 4 3/4 inches to ensure complete coverage.
- **Versatile Applications:** Suitable for window shades, sliding doors, room dividers, and closet covers.

3. SETUP AND INSTALLATION

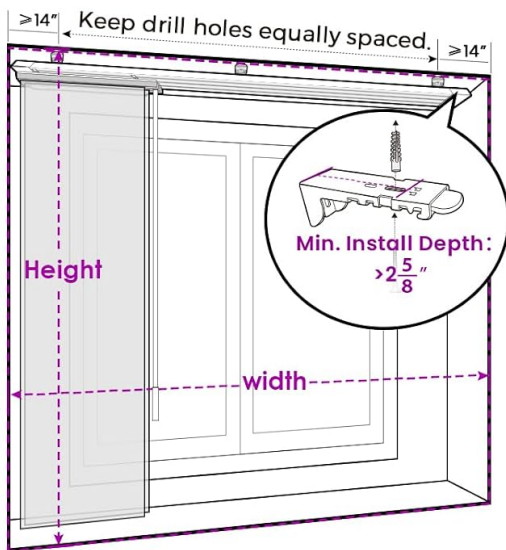

Proper installation is crucial for the optimal performance of your Graywind Panel Track Blinds. Please review all instructions and diagrams before beginning. Mounting accessories are included with your purchase. A video guide is also available for easier self-installation.

3.1. Measurement Guidelines

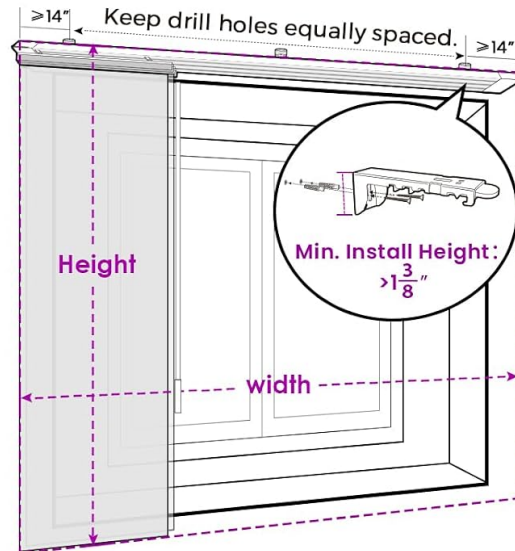

Accurate measurements are essential for a correct fit. Refer to the diagram below for inside and outside mount measurements.

MEASUREMENT ⚠ IMPORTANT

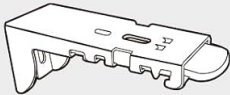

INSIDE MOUNT

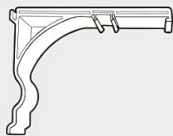

OUTSIDE MOUNT

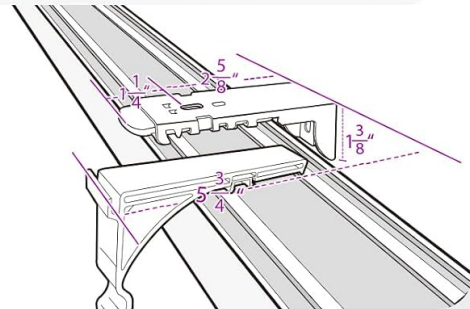

① Mounting Brackets (b)

② Optional Valance Brackets (h)

INSTALL COMBINATION

- ① Inside Mount blinds will have a small deduction automatically by Graywind to ensure proper fit.
- ② Outside Mount blinds will have no deductions. They will be made to your exact measurements.

Image 3.1: Important measurement guidelines for both inside and outside mounting.

- **Inside Mount:** Blinds will have a small deduction automatically applied by Graywind for proper fit. Ensure minimum install depth of $>2 \frac{5}{8}$ inches.
- **Outside Mount:** Blinds will be made to your exact measurements with no deductions. Ensure minimum install height of $>1 \frac{3}{8}$ inches.
- Keep drill holes equally spaced, typically >14 inches apart.

3.2. Mounting Brackets and Valance

The mounting brackets (b) and optional valance brackets (h) are key components for securing the track.

Image 3.2: Installation diagram for mounting brackets and valance.

Important Note: Some users have reported that the included drywall anchors may not be sufficient for all installations. Consider using appropriate anchors for your wall type, especially if mounting into drywall without studs. A 2.5 mm Allen key (not included) may be required for assembly.

VALANCE

Image 3.3: Valance design with fabric-wrapped bar and weighted bar.

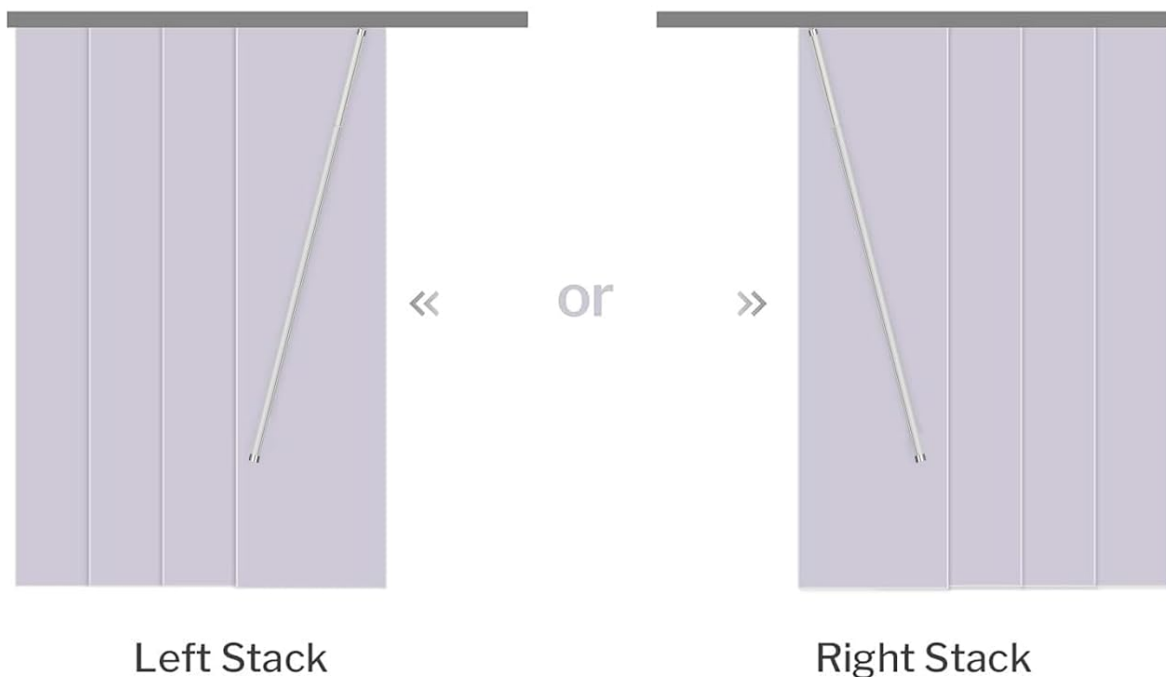

4. OPERATING INSTRUCTIONS

Your Graywind Panel Track Blinds are operated manually using a control wand.

4.1. Panel Movement

Gently push or pull the control wand to slide the panels across the track. The panels can stack to the left, right, or split from the middle, depending on your chosen configuration.

VANE STACK LOCATION

VERSATILE USES

Image 4.2: Demonstrating manual operation using the wand control.

5. MAINTENANCE

To maintain the appearance and functionality of your Graywind Panel Track Blinds, follow these care instructions:

- **Cleaning:** Spot clean only. Use a soft, damp cloth with mild soap for any stains. Avoid harsh chemicals or abrasive cleaners.
- **Panel Replacement:** Panels are designed to be removable and replaceable for easier cleaning or if damage occurs.

6. TROUBLESHOOTING

If you encounter issues with your panel track blinds, consider the following:

- **Panels Not Sliding Smoothly:**
 - Check the track for any obstructions or debris.
 - Ensure the track is level and securely mounted.
 - Verify that all panel carriers are properly engaged with the track mechanism.
- **Light Leakage:**
 - Confirm that panels are fully closed and overlapping correctly (4 3/4 inch overlap).
 - For outside mounts, ensure sufficient overlap beyond the window frame to minimize side light gaps.
- **Installation Difficulties:**
 - Refer to the installation video guide provided by Graywind.
 - Ensure appropriate wall anchors are used for your specific wall material.
 - If using a joined track for wider installations, ensure the joining plate is securely fastened and aligned to prevent bumps during panel movement.

7. SPECIFICATIONS

Model Number	GW01
Brand	Graywind
Material	Polyester Blend
Color (as reviewed)	Dimout Linen Beige
Opacity	Light Filtering (60% Blackout)
Operation Mode	Manual (Wand Control)
Mounting Type	Ceiling Mounted, Side Wall Mounted
