Salind GPS MAGNETIC - Battery up to 180 days

SALIND GPS Magnetic Tracker User Manual

Model: MAGNETIC - Battery up to 180 days

Introduction

This manual provides comprehensive instructions for the setup, operation, and maintenance of your SALIND GPS Magnetic Tracker. Designed for vehicles, motorcycles, and trucks, this robust and splash-proof device offers real-time tracking with an extended battery life, ensuring peace of mind for your assets.

What's in the Box

- Salind 20 4G GPS Tracking Device
- User Manual
- USB Cable
- Magnet Mount
- M2M SIM Card (already inserted in the device)

Key Features

- **Long Lasting Battery:** 20,000 mAh battery providing up to 180 days in standby mode or 25 days with daily tracking.
- **Easy Installation with Magnets:** Strong built-in magnets for secure attachment to vehicles.
- **Versatile Applications:** Robust and splash-proof design suitable for cars, caravans, boats, excavators, and containers.
- **Multiple Alarms:** Configurable alerts for strong vibrations, speed limit breaches, low battery, and geofence entry/exit.
- **Subscription Service:** Includes SIM card, lifelong device replacement, and 24/7 multi-language customer support.

Setup Guide

Follow these steps to set up your SALIND GPS Tracker:

1. **Charge the Device:** Before first use, fully charge the GPS tracker using the provided USB cable. The battery status can be viewed online.
2. **Download the App:** Download the official SALIND GPS app from your device's app store.

Operating Instructions

The SALIND GPS tracker operates primarily through its dedicated mobile application, providing real-time data and control.

Real-Time Tracking

Once activated, the device transmits its location data to the app, allowing you to view the current position of your vehicle on a map. The app supports various map modes including outdoor, 3D, and satellite views for detailed navigation.

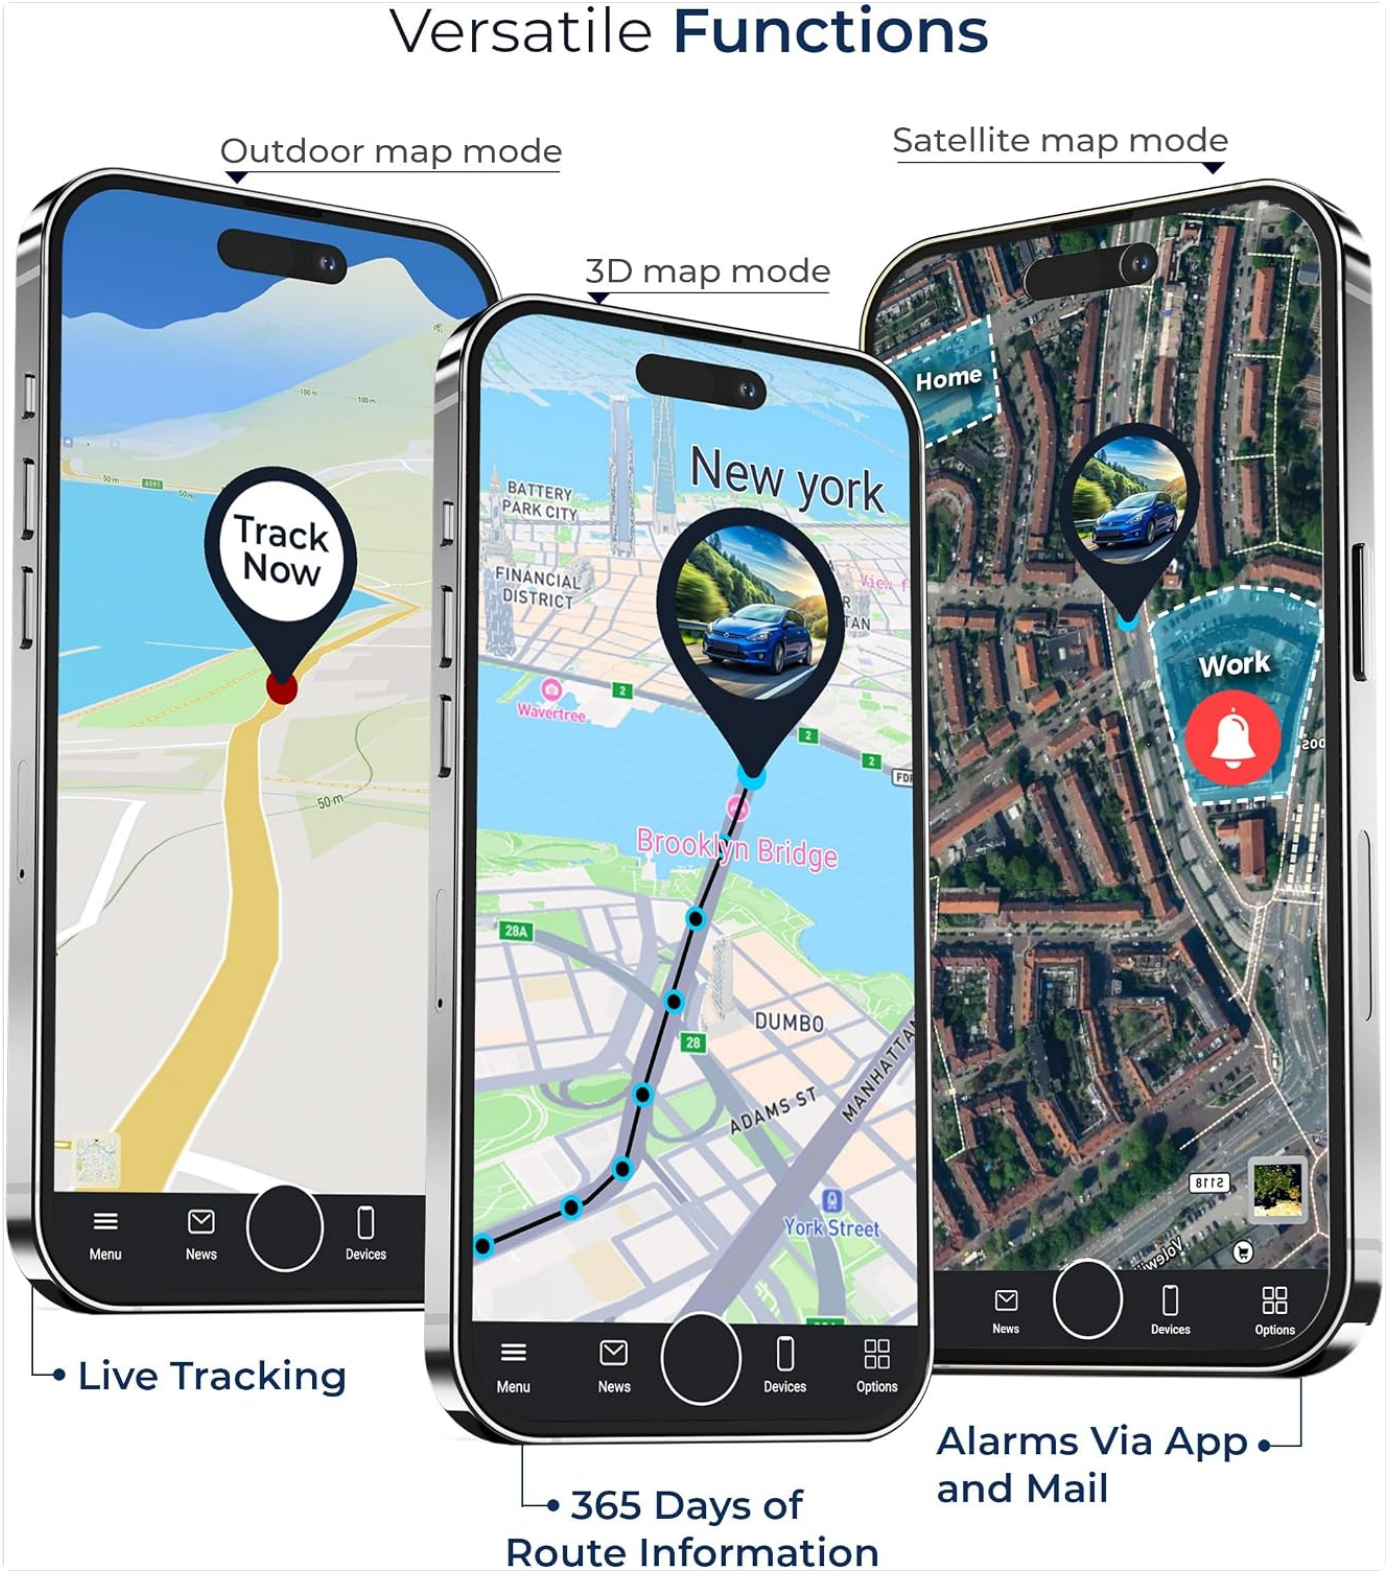

Figure 3: Different map views available within the SALIND GPS application for live tracking.

Location History

The app stores historical route data, allowing you to review past movements of the tracker. Depending on your subscription plan, you can access up to 365 days of track memory.

Setting Up Alarms

Configure various alerts to receive notifications for specific events:

- **Shock Alarm:** Notifies you if strong vibrations are detected, indicating potential tampering or movement while parked.
- **Speed Alarm:** Receive an alert if the vehicle exceeds a predefined speed limit.

- **Geofence Alarm:** Set up virtual boundaries (geofences) and get alerts when the tracker enters or exits these designated areas.
- **Low Battery Alarm:** Informs you when the device's battery level is low, prompting a recharge.
- **Removal Alarm:** Alerts you if the device is removed from its mounted position.

Official Product Video

Your browser does not support the video tag.

Video 1: An official product video from Salind GPS demonstrating the real-time tracking capabilities of the device, including live tracking, virtual fence (geofencing), and location history features. It also shows various applications for the tracker, such as for cars, motorcycles, boats, and trucks.

Maintenance

- **Charging:** Recharge the device when the low battery alarm is triggered or when the battery status indicates a low level in the app.

- **Cleaning:** Wipe the device with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the tracker in a cool, dry place when not in use for extended periods. Ensure it is partially charged before storage to preserve battery health.
- **Water Resistance:** The device is splash-proof, but not fully waterproof. Avoid submerging it in water or exposing it to heavy rain for prolonged periods.

Troubleshooting

- **No GPS Signal:** Ensure the device is placed in a location with a clear view of the sky. Avoid placing it under heavy metal objects or inside enclosed spaces that can block satellite signals.
- **Inaccurate Location:** Verify that the device has a strong GPS signal. If the issue persists, try moving the device to a different location or restarting it.
- **Device Not Connecting to App:** Check your internet connection. Ensure the SIM card is properly inserted and active. Restart both the device and the app.
- **Battery Draining Quickly:** Frequent real-time tracking or high alert activity can consume more battery. Adjust tracking intervals or alert settings if extended battery life is desired. Ensure the device is fully charged.
- **Alarms Not Triggering:** Double-check alarm settings within the app. Ensure geofences are correctly defined and the device is within an area with network coverage.

If you encounter issues not covered here, please refer to thefull User Manual (PDF) or contact customer support.

Specifications

Feature	Detail
Item Weight	1.01 pounds
Product Dimensions	4.72 x 2.36 x 1.97 inches
Item Model Number	MAGNETIC - Battery up to 180 days
Batteries	1 Lithium Ion batteries required (included)
Battery Life	Up to 180 days (standby)
Warranty	2 year warranty
Connectivity Technology	Cellular
Supported Application	Alarm, GPS
Special Feature	Magnetic, Alert Notification, Location History, Geo-Fence, Real Time Tracking
Specific Uses For Product	Anti-theft GPS tracker, Vehicle & Long-term asset tracking, Real-time fleet tracking
