5. MAINTENANCE

5.1 Cleaning the Device

Use a soft, lint-free cloth to gently wipe the screen and body of the e-reader. Do not use liquid cleaners or abrasive materials, as they may damage the screen or finish.

5.2 Battery Care

To prolong battery life, avoid exposing the device to extreme temperatures. For long-term storage, it is recommended to charge the battery to about 50% before turning off the device.

5.3 Software Updates

Periodically check for software updates in the device's settings menu to ensure optimal performance and access to the latest features. Connect to Wi-Fi before attempting any updates.

6. TROUBLESHOOTING

6.1 Device Not Turning On

Ensure the device is sufficiently charged. Connect it to a power source and wait a few minutes before attempting to power it on again. If the issue persists, try holding the power button for an extended

period (e.g., 10-15 seconds) for a forced restart.

6.2 Screen Display Issues (Ghosting/Pixelation)

E-ink screens may occasionally show faint remnants of previous images (ghosting) or appear pixelated. This is often normal for e-ink technology. The device typically performs a full screen refresh every few pages to clear ghosting. If ghosting is excessive or persistent, ensure your software is up to date. For pixelation, verify that the font settings are appropriate for the screen resolution.

6.3 Wi-Fi Connectivity Problems

Check if other devices can connect to your Wi-Fi network. Restart your router and the e-reader. Ensure you are entering the correct Wi-Fi password. If the problem continues, try forgetting the network on your e-reader and reconnecting.

6.4 Unresponsive Touchscreen

If the touchscreen is unresponsive, try restarting the device. If a restart does not resolve the issue, ensure the screen is clean and free of debris. Avoid using sharp objects on the screen.
