

TOPCHARGEUR VM 900 VM 950

TOP CHARGEUR 6V Power Supply for Domyos VM 900 VM 950 - User Manual

1. INTRODUCTION AND OVERVIEW

This TOP CHARGEUR 6V AC-DC power adapter is designed to provide reliable power for Domyos VM 900 and VM 950 exercise equipment. It converts standard AC wall power to the required 6V DC for your device. The adapter features a universal input voltage range (100-240V AC) and multiple built-in safety protections to ensure safe and efficient operation.

The product is CE and ROHS certified, indicating compliance with European safety, health, and environmental protection standards.

2. SAFETY INFORMATION

- Always ensure the power adapter is used with compatible devices, specifically Domyos VM 900 and VM 950 models, to prevent damage.
- Do not expose the adapter to moisture, rain, or extreme temperatures. Use indoors only.
- Unplug the adapter from the wall outlet during electrical storms or when it will be unused for extended periods.
- The adapter includes built-in safety protections: over-voltage protection, over-heating protection, short-circuit protection, and over-charge protection. These features enhance user safety and product longevity.
- Do not attempt to open, modify, or repair the adapter. Refer all servicing to qualified personnel.
- Keep the adapter out of reach of children.

3. SETUP INSTRUCTIONS

1. **Prepare the Device:** Ensure your Domyos VM 900 or VM 950 exercise equipment is turned off before connecting the power adapter.
2. **Locate Power Port:** Identify the power input port on your Domyos equipment.
3. **Connect DC Output:** Connect the DC output plug of the TOP CHARGEUR adapter to the device's power input port. Ensure a firm connection. Note the polarity: the positive (+) terminal is in the center, and the negative (-) terminal is on the side.
4. **Connect AC Input:** Plug the AC input cable of the adapter into a standard 100-240V AC, 50-60Hz wall outlet.
5. **Power On:** Once both connections are secure, you may turn on your Domyos equipment.

4. OPERATING INSTRUCTIONS

Once properly connected as described in the 'Setup Instructions' section, the TOP CHARGEUR 6V power adapter will continuously supply the necessary 6V DC power to your Domyos VM 900 or VM 950 equipment. No further user interaction is required for basic operation.

- Ensure the adapter is placed in a well-ventilated area to prevent excessive heat buildup during prolonged use.
- Avoid covering the adapter with cloths or other materials that could obstruct airflow.

5. MAINTENANCE

- **Cleaning:** Keep the adapter clean and free from dust. Use a soft, dry cloth for cleaning. Do not use liquid cleaners or solvents.
- **Cable Inspection:** Regularly inspect the power cable for any signs of damage, such as cuts, fraying, or kinks. If any damage is observed, discontinue use immediately and replace the adapter.
- **Storage:** When not in use, store the adapter in a cool, dry place, away from direct sunlight and extreme temperatures.
- **No User Serviceable Parts:** The adapter contains no user-serviceable parts. Any attempt to open or modify the unit will void the warranty and may pose a safety risk.

6. TROUBLESHOOTING

No Power to Device

- **Check Connections:** Ensure the adapter is securely plugged into both the wall outlet and the Domyos equipment.
- **Verify Wall Outlet:** Test the wall outlet with another device to confirm it is functional and receiving power.

- **Device Power Switch:** Confirm that the Domyos equipment's power switch is in the 'ON' position.
- **Compatibility:** Double-check that the adapter's specifications (6V DC output) match the power requirements of your Domyos VM 900 or VM 950.

Adapter Overheating

- **Ventilation:** Ensure adequate airflow around the adapter. Remove any obstructions that might be covering it.
- **Discontinue Use:** If the adapter feels excessively hot to the touch, unplug it immediately and allow it to cool down. If overheating persists after ensuring proper ventilation, discontinue use and consider replacing the adapter.

7. SPECIFICATIONS

Brand	TOPCHARGEUR
Model Compatibility	Domyos VM 900, Domyos VM 950
Input Voltage	100-240V AC, 50-60Hz
Output Voltage	6V DC
Polarity	Center Positive (+), Side Negative (-)
Cable Length	Approximately 120 cm
Safety Certifications	CE, ROHS
Safety Features	Over-voltage protection, Over-heating protection, Short-circuit protection, Over-charge protection
Product Weight	0.07 Kilogram

8. WARRANTY AND SUPPORT

Specific warranty details and support contact information are not provided within this manual. For warranty claims, technical assistance, or further inquiries, please refer to the documentation included with your purchase or contact TOPCHARGEUR customer service directly through their official channels.
