Esgofo A100-2

Esgofo LED Flashlights (Model A100-2) Instruction Manual

Model: A100-2

INTRODUCTION

Thank you for choosing Esgofo LED Flashlights. This manual provides essential information for the safe and effective use of your new flashlight. The Esgofo A100-2 LED flashlight is designed for durability and versatility, featuring a bright 1000-lumen output, five light modes, adjustable focus, and a robust aluminum alloy construction that is waterproof and shockproof. It is suitable for various activities including camping, emergencies, and general outdoor use.

SAFETY INFORMATION

- **Do not shine directly into eyes:** The powerful LED beam can cause temporary vision impairment.
- **Battery Safety:** Ensure correct battery polarity during installation. Do not mix old and new batteries, or different types of batteries. Remove batteries if the flashlight will not be used for an extended period.
- **Children:** Keep out of reach of small children to prevent accidental ingestion of small parts or batteries.
- **Heat:** The flashlight head may become warm during prolonged use on high settings. Handle with care.

SETUP

Battery Installation

Your Esgofo LED Flashlight can be powered by either three AAA alkaline batteries (included) or one 18650 rechargeable battery (not included).

1. Unscrew the tail cap of the flashlight.
2. **For AAA Batteries:** Insert three AAA batteries into the provided AAA battery holder, ensuring correct polarity (+/-). Then, insert the battery holder into the flashlight body with the positive end facing towards the flashlight head.
3. **For 18650 Battery:** Place the 18650 battery into the larger battery tube (if using a smaller diameter 18650 battery for a snug fit), ensuring the positive end faces towards the flashlight head.
4. Screw the tail cap back on securely.

OPERATING INSTRUCTIONS

Power On/Off and Mode Selection

The flashlight features a tactical tail switch for easy operation.

- **To Turn On/Off:** Press the tail switch firmly until it clicks.
- **To Change Modes:** With the flashlight on, lightly press the tail switch (without a full click) to cycle through the five modes: High → Medium → Low → Strobe → SOS.

Image: Close-up of the flashlight's tactical tail switch, indicating how to press for power and lightly tap to change modes.

Adjusting Focus (Zoom)

The flashlight features an adjustable head to change the beam from a wide floodlight to a narrow spotlight.

- **To Zoom In (Spotlight):** Push the head of the flashlight forward. This concentrates the beam for long-distance illumination.
- **To Zoom Out (Floodlight):** Pull the head of the flashlight backward. This widens the beam for illuminating a larger area up close.

MAINTENANCE

Cleaning

Wipe the flashlight body with a soft, damp cloth. Do not use abrasive cleaners or solvents. Keep the lens clean for optimal light output.

Storage

If the flashlight will not be used for an extended period, remove the batteries to prevent leakage and damage. Store in a cool, dry place.

Durability Features

The Esgofo A100-2 is constructed from durable aluminum alloy, making it shockproof and IP65 waterproof. This design allows it to withstand drops and temporary submersion in water, making it reliable in various weather conditions.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Flashlight does not turn on	1. Batteries inserted incorrectly. 2. Batteries are depleted. 3. Tail cap is loose.	1. Check battery polarity and reinsert correctly. 2. Replace with new batteries. 3. Tighten the tail cap securely.
Light is dim or flickers	1. Low battery power. 2. Loose battery connection. 3. Dirty contacts.	1. Replace batteries. 2. Ensure batteries are seated firmly and tail cap is tight. 3. Clean battery contacts and flashlight terminals with a clean cloth.
Beam does not adjust	Head mechanism is stuck.	Gently twist and pull/push the head to free it. Avoid excessive force.
