### SHA CERLIN AK-JHH005

# SHA CERLIN 14 Inch Queen Size Metal Platform Bed Frame User Manual

Model: AK-JHH005

## INTRODUCTION

---

This manual provides comprehensive instructions for the assembly, operation, maintenance, and troubleshooting of your SHA CERLIN 14 Inch Queen Size Metal Platform Bed Frame. Designed for durability and comfort, this bed frame features a sturdy metal structure, a wooden headboard and footboard, and ample under-bed storage. Please read this manual thoroughly before assembly and use to ensure proper setup and longevity of your product.

## IMPORTANT SAFETY INFORMATION

---

- Do not exceed a load of 800 pounds on the bed frame. Overloading can compromise structural integrity and lead to injury.
- Exercise caution around sharp edges during assembly and handling of components to prevent cuts or scrapes.
- Always follow the assembly instructions carefully and completely to ensure the bed frame is stable and secure before use.
- Keep all small parts and packaging materials away from children and pets to prevent choking hazards.
- Periodically check all bolts and connections to ensure they remain tight. Loose connections can lead to instability and noise.

## PACKAGE CONTENTS

---

Before beginning assembly, verify that all components listed below are present and undamaged. If any parts are missing

or damaged, please contact customer support.

- Bed Frame Components
- Headboard
- Footboard
- Slats
- Hardware Pack (includes all necessary bolts, screws, and tools for assembly)

## SETUP AND ASSEMBLY

---

Assembly of the SHA CERLIN bed frame is designed to be straightforward and typically takes about 30 minutes for an adult. No additional tools are required beyond what is provided in the hardware pack. It is recommended to assemble the bed frame in the room where it will be used.

### Step-by-Step Assembly Guide

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out on a clean, soft surface to prevent scratches. Identify each part using the provided parts list in your physical manual.
2. **Assemble Headboard and Footboard:** Attach the wooden headboard and footboard panels to their respective metal frames using the designated hardware. Ensure all connections are secure but do not fully tighten bolts until the entire frame is assembled.
3. **Connect Side Rails:** Attach the metal side rails to the assembled headboard and footboard. Align the holes and insert the bolts, hand-tightening them initially.
4. **Install Center Support Legs:** Securely attach any central support legs to the main frame as indicated in the instructions. These are crucial for stability and weight distribution.
5. **Place Slats:** Lay the metal slats across the bed frame. The non-slip strips on the slats help keep them in place and reduce noise. Ensure they are evenly spaced and securely seated.
6. **Final Tightening:** Once all components are in place and aligned, systematically tighten all bolts using the provided tool. Ensure all connections are firm and stable.
7. **Attach Protective Pads:** Apply the plastic foot plugs to the bottom of each bed leg. These pads protect your floor from scratches and further reduce noise.

## OPERATING AND USAGE

Your SHA CERLIN bed frame is designed for optimal support and comfort without the need for a box spring. Its robust construction ensures stability and a noise-free sleeping environment.

- **Mattress Compatibility:** This frame is compatible with Queen size mattresses (60 x 80 inches). A mattress height of 10 to 14 inches is recommended for optimal aesthetic and functional integration with the frame's embedded design.
- **Noise-Free Operation:** The integrated non-slip strips on the slats and plastic foot plugs are engineered to minimize noise, ensuring a quiet and undisturbed sleep.
- **Under-Bed Storage:** The 14-inch platform provides approximately 12 inches of clearance underneath, offering

significant space for storage bins, luggage, or other items, helping to keep your room tidy.

## UNDER-BED STORAGE

### PERFECT SPACE FOR STORING

Image: A visual representation of the 12-inch under-bed clearance, demonstrating the ample space available for storage solutions like baskets.

## MAINTENANCE

To ensure the longevity and appearance of your SHA CERLIN bed frame, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the metal frame and wooden components with a dry, soft cloth. Avoid using harsh chemicals or abrasive cleaners, which can damage the finish.
- **Regular Checks:** Periodically inspect all bolts and connections (every 3-6 months) to ensure they are tight. Retighten if necessary to maintain stability and prevent squeaking.
- **Avoid Excessive Moisture:** While the headboard is waterproof and scratchproof, prolonged exposure to excessive moisture should be avoided to preserve the wood finish.

## TROUBLESHOOTING

This section addresses common issues you might encounter with your bed frame.

Problem	Possible Cause	Solution
Bed frame is squeaking or making noise.	Loose bolts or connections; friction between metal parts or slats.	Ensure all assembly bolts are fully tightened. Check that the non-slip strips on the slats are intact. If squeaking persists, apply a small amount of silicone lubricant to metal-on-metal contact points.
Mattress slides on the frame.	Mattress not properly seated; lack of friction.	Ensure the mattress is centered and fully within the embedded design of the frame. The frame's design is intended to prevent sliding. If necessary, place non-slip mattress pads or strips between the mattress and the slats.
Bed frame feels unstable or wobbly.	Incomplete or incorrect assembly; loose connections.	Review the assembly instructions carefully to ensure all steps were followed correctly. Re-tighten all bolts. Verify that all support legs are making firm contact with the floor.

## SPECIFICATIONS

Feature	Detail
Size	Queen
Product Dimensions (L x W x H)	84"L x 63"W x 12"H (Frame height)
Color	Mahogany (Wood), Black (Metal)
Finish Type	Powder Coated (Metal)
Included Components	Bed Frame, Footboard, Hardware Pack, Headboard, Slats
Compatible Mattress Size	Queen (60" x 80")
Brand	SHA CERLIN
Furniture Finish	Metallic (Frame), Wood Grain (Headboard/Footboard)
Product Care Instructions	Wipe with Dry Cloth
Assembly Required	Yes
Ground To Item Distance (Under-bed Clearance)	12 Inches
Item Weight	73.8 pounds
Weight Capacity	Up to 800 pounds
Special Features	Fade Resistant, Heavy Duty Metal Slat Support, No Box Spring Needed, Spacious Underbed Storage, Squeak Resistant
