LALAHOO Watch Winder Instruction Manual

Model: mt_02_ybq_4+6_2.0
Brand: LALAHOO

Introduction | Safety | Overview | Setup | Operation | Maintenance | Troubleshooting | Specifications | Warranty | Support

1. Introduction

Thank you for choosing the LALAHOO Watch Winder. This device is designed to keep your automatic watches wound and ready to wear, preserving their functionality and extending their lifespan. It features an ultra-quiet motor, capacity for 4 automatic watches, and 6 additional storage spaces, all encased in a stylish carbon fiber finish.

2. Safety Information

- Ensure the watch winder is placed on a stable, flat surface.
- Keep the device away from direct sunlight, extreme temperatures, and high humidity.
- Do not expose the watch winder to water or other liquids.
- Use only the provided power adapter.
- Keep out of reach of children and pets.
- Avoid opening the casing or attempting repairs yourself, as this will void the warranty.

3. Package Contents

Please check the box for the following items:

- LALAHOO Watch Winder Unit
- Power Adapter
- Watch Pillows (4 for winding, 6 for storage)
- Cleaning Cloth
- User Manual

4. Product Overview

The LALAHOO Watch Winder is designed for both functionality and aesthetics, featuring a carbon fiber exterior with red stitching and a clear glass top for display.

Figure 1: Front view of the LALAHOO Watch Winder, showcasing the winding and storage compartments.

Key Components:

- **Winding Rotors:** Two independent rotors, each holding two watches, for a total of four automatic watches.
- **Storage Compartments:** Six additional slots for storing non-automatic watches or other small accessories.
- **Control Panel:** Located at the rear, featuring power switches and rotation mode selectors.
- **LED Illumination:** Blue LED lights illuminate the interior, enhancing the display of your watches.
- **Watch Pillows:** Soft, non-deforming pillows designed to securely hold watches without scratching.

Figure 3: Illustration of the variable soft silicone watch pillow, designed to accommodate various watch sizes.

5. Setup

5.1 Unboxing and Placement

1. Carefully remove the watch winder from its packaging.
2. Place the unit on a flat, stable, and dry surface.
3. Ensure there is adequate ventilation around the winder.

5.2 Power Connection

- Locate the power port on the back of the watch winder.
- Connect the provided power adapter to the port and then plug it into a standard electrical outlet.

5.3 Watch Placement

1. Gently compress the watch pillow and fit your automatic watch around it.
2. Place the watch and pillow securely into one of the winding rotors. Ensure the watch is snug but not overly tight.
3. For watches with smaller bands, the outer sleeve of the pillow can be removed to achieve a better fit.
4. For watches in the storage compartments, simply place them on the provided pillows.

6. Operating Instructions

The LALAHOO Watch Winder features independent controls for each winding rotor and an LED light switch.

6.1 Powering On/Off

- Locate the two toggle switches on the back panel.
- Each switch controls one winding rotor. Flip the switch to the 'ON' position to activate the rotor.
- To turn off a rotor, flip its corresponding switch to the 'OFF' position.

6.2 Rotation Modes

Each rotor has an independent dial to select one of four rotation modes:

1. **Mode 1:** Rotates clockwise for 2 minutes, stops for 6 minutes, then repeats.
2. **Mode 2:** Rotates counter-clockwise for 2 minutes, stops for 6 minutes, then repeats.
3. **Mode 3:** Rotates clockwise for 2 minutes, stops for 6 minutes; then rotates counter-clockwise for 2 minutes, stops for 6 minutes; then repeats.
4. **Mode 4:** Rotates clockwise for 5 minutes, then rotates counter-clockwise for 5 minutes, works for 3 hours, and stops for 9 hours, then repeats.

Select the appropriate mode based on your watch's winding requirements. Consult your watch manufacturer's guidelines if unsure.

6.3 LED Light Control

- The LED light switch is located on the back panel, usually between the rotor switches or as a separate button.
- Toggle this switch to turn the interior blue LED lights on or off.

6.4 Smart Stop Feature

- The watch winder is equipped with a smart stop feature. When the lid is opened, the rotors will automatically stop spinning and the LED lights will turn on (if enabled).
- Closing the lid will resume the selected rotation mode and turn off the LED lights (if enabled).

Video 2: Demonstration of a similar watch winder's operation, including light and quiet motor features.

Video 3: Overview of a similar watch winder's features, including the smart stop function and watch placement.

7. Maintenance

7.1 Cleaning

- Wipe the exterior of the watch winder with a soft, dry cloth. The provided cleaning cloth is ideal for this purpose.
- For the glass top, use a glass cleaner and a soft cloth to avoid streaks.
- Do not use abrasive cleaners or solvents, as they may damage the finish.

7.2 General Care

- Avoid placing heavy objects on top of the watch winder.
- Handle the watch winder with care to prevent drops or impacts.
- Ensure watches are securely placed in the rotors or storage compartments to prevent them from falling during operation.

8. Troubleshooting

Problem	Possible Cause	Solution
Winder not spinning	Not powered on; power adapter loose; lid open (smart stop active).	Check power connection and switches. Close the lid.
LED light not working	Light switch off; lid closed (smart stop active).	Toggle the LED light switch. Open the lid to activate.
Excessive noise	Watch not properly seated; winder on uneven surface.	Ensure watches are securely placed. Move winder to a flat surface.
Watch not winding	Incorrect rotation mode for watch; watch not automatic.	Consult watch manual for correct winding direction/TPD. Confirm watch is automatic.

9. Specifications

- **Model Number:** mt_02_ybq_4+6_2.0
- **Dimensions:** 9.4 x 12.2 x 7.1 inches
- **Weight:** 8.6 Pounds
- **Material:** Carbon Fiber (exterior)
- **Winding Capacity:** 4 automatic watches
- **Storage Capacity:** 6 additional watches
- **Motor:** Ultra-quiet motor (noise as low as 5 dB)
- **Power:** AC Power Adapter (included)
- **Features:** Anti-magnetic film, scratch-resistant glass top, blue LED illumination, smart stop function.
