CLIONE PRIME B09SH1JB12

CLIONE PRIME Korean Lash Lift Kit Instruction Manual

Model: B09SH1JB12

1. INTRODUCTION

This manual provides comprehensive instructions for using the CLIONE PRIME Korean Lash Lift Kit. Designed for both home and professional use, this kit helps achieve beautifully lifted and curled eyelashes. Please read all instructions carefully before beginning the application process to ensure safe and effective results.

Wake Up to Curled Lashes

**LONG
LASTING
RESULTS**

UP TO 8 WEEKS 
NO DAILY CURLING REQUIRED

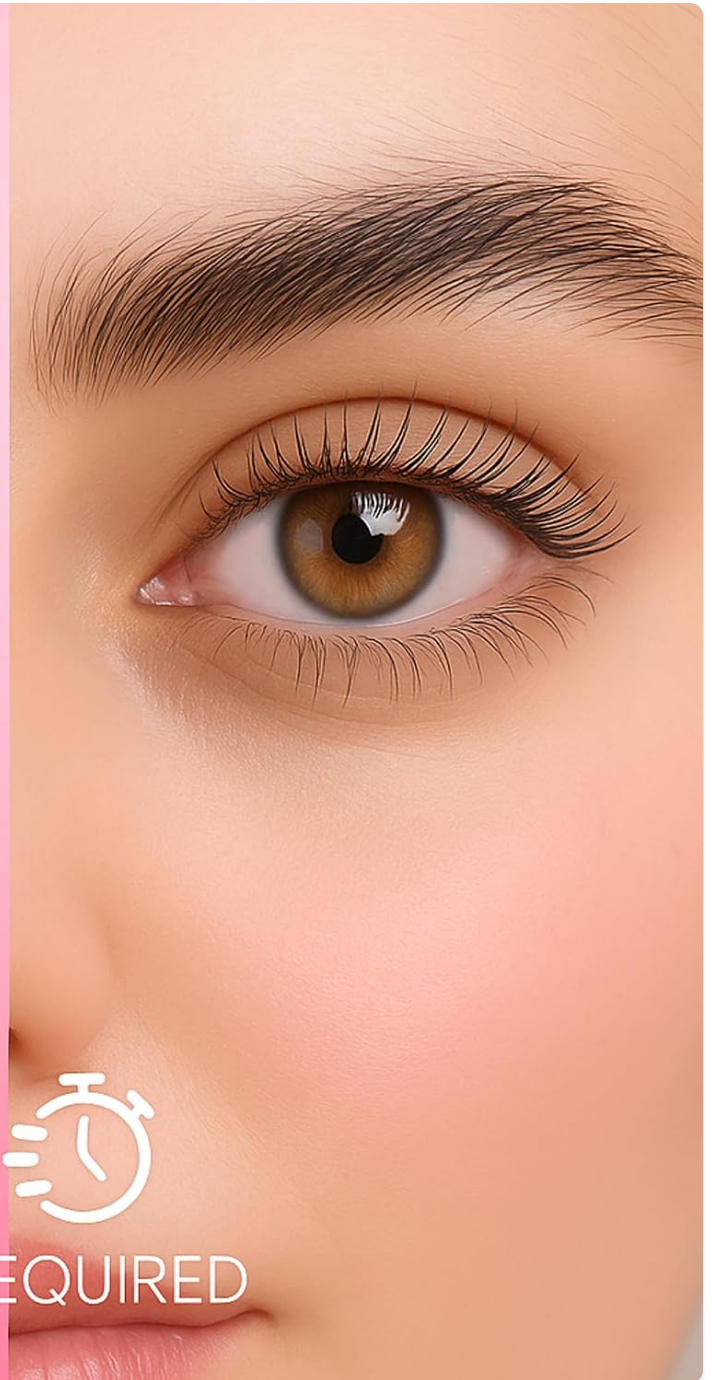

Figure 1: Illustrates the long-lasting curled lash results achievable with the kit.

2. SAFETY INFORMATION

- For external use only.
- Perform a patch test 24-48 hours before full application to check for any allergic reactions. Apply a small amount of each solution to a discreet area of skin, such as behind the ear or on the inner arm.
- Avoid contact with eyes. In case of contact, rinse immediately with plenty of water and seek medical advice if irritation persists.
- Do not use on irritated, damaged, or sensitive skin.
- Keep out of reach of children.
- Store in a cool, dry place away from direct sunlight.

3. PACKAGE CONTENTS

The CLIONE PRIME Lash Lift Kit includes the following components:

Figure 2: All components of the CLIONE PRIME Lash Lift Kit.

- 1. Lash Shampoo:** Cleanses lashes before lifting.
- 2. Lifting Glue:** Secures lashes to the silicone rod.
- 3. Mascara Brush:** For brushing and separating lashes.
- 4. Lash Nourishing Lotion (Step 3):** Moisturizes and strengthens lashes.
- 5. Lash Perm Lotion (Step 1):** Softens lashes to curl.
- 6. Lash Setting Lotion (Step 2):** Locks the lifted shape.
- 7. Lash Brush:** For brushing and separating lashes.
- 8. Lash Cotton Tip:** Cleans excess product.
- 9. Lifting Brush:** Lifts lashes onto the rod.
- 10. Lifting Ring:** Holds glue or lotion.
- 11. Silicone Pads (S, M, L):** Curls the lashes.
- 12. Under Eye Patch:** Protects lower lashes.

4. PREPARATION

1. **Cleanse Lashes:** Use the provided Lash Shampoo or a lash primer/cleanser to thoroughly clean your eyelashes, removing any makeup, oils, or residue. Ensure lashes are completely dry.
2. **Curl Lashes (Optional):** For best results, gently curl your natural lashes with an eyelash curler before applying the kit.
3. **Apply Under Eye Patches:** Place under eye patches on your lower eyelids to protect the skin from lotions.
4. **Select Silicone Pad Size:** Choose the appropriate silicone pad size (S, M, L) based on your desired curl intensity and lash length. Smaller pads create a tighter curl, while larger pads create a softer lift.

5. APPLICATION STEPS (LASH LIFT)

Follow these steps carefully for optimal lash lift results:

HOW TO USE

Figure 3: Detailed visual instructions for the lash lift process.

1. **Apply Lifting Glue to Silicone Pad:** Apply 3 layers of lifting glue to the back of the chosen silicone pad. Gently blow on it for about 40 seconds to allow it to become tacky.

2. **Attach Silicone Pad to Eyelid:** Start by placing the silicone pad at the inner corner of the eye, then adjust it to fit the eye shape. Press and hold both ends firmly for 1 minute to ensure it adheres securely. If it doesn't adhere, apply more glue and reattach.
3. **Apply Lifting Glue to Lashes:** Apply three more layers of lifting glue to the front of the silicone pad. Wait 40 seconds for it to become tacky.
4. **Lift and Secure Lashes:** Use the lifting brush to comb your lashes upward, sticking them evenly onto the silicone pad without overlap. If lashes loosen, apply more glue and comb again.
5. **Apply Perm Lotion (Step 1):** Apply the Perm Lotion (Step 1) to your lashes using a new applicator. Cover with perm paper.
 - For Western lashes: Leave on for 13-14 minutes.
 - For Asian/Thin & Lesser lashes: Leave on for 9-10 minutes.

After the recommended time, remove the perm paper and wipe off the lotion.

6. **Apply Setting Lotion (Step 2):** Apply the Setting Lotion (Step 2) to your lashes using a new applicator. Cover with perm paper. Leave on for 8 minutes. After the recommended time, remove the perm paper and wipe off the lotion.
7. **Apply Nourishing Lotion (Step 3):** Apply the Nourishing Lotion (Step 3) to your lashes. Remove after 1 minute.
8. **Final Steps:** Detach the silicone pads and gently comb the lashes with a mascara brush. Cleanse off any glue residue and pat dry.

6. AFTERCARE

- Avoid wetting your lashes for 24-48 hours after the treatment.
- Do not apply mascara or other eye makeup for 24 hours.
- Avoid rubbing or touching your lashes excessively.
- Use the Nourishing Lotion regularly to keep your lashes hydrated and strong.
- The lash lift results can last up to 8 weeks, depending on your natural lash cycle and aftercare.

7. TROUBLESHOOTING

Problem	Possible Cause / Solution
Lashes not lifting or curling sufficiently.	◦ Ensure lashes were thoroughly cleaned and dry before application. ◦ Verify the silicone pad size is appropriate (smaller for tighter curl). ◦ Ensure lashes are properly adhered to the silicone pad without gaps. ◦ Check processing times for Perm and Setting Lotions; adjust slightly for thicker/stubborn lashes (do not exceed recommended maximums). ◦ Ensure the Perm Lotion was applied close to the lash base.
Lashes appear frizzy or over-processed.	◦ Processing time might have been too long. Reduce time in future applications. ◦ Ensure Nourishing Lotion is applied after the process to rehydrate lashes.
Silicone pads not sticking to eyelids.	◦ Ensure eyelids are clean and dry, free of oils or makeup. ◦ Apply sufficient lifting glue to the back of the pad and allow it to become tacky before placement. ◦ Press and hold firmly for the recommended time.

8. SPECIFICATIONS

- **Brand:** CLIONE PRIME
- **Model:** B09SH1JB12
- **Item Form:** Cream
- **Product Benefits:** Hydrating, Nourishing, Strengthens
- **Skin Tone:** All
- **Package Dimensions:** 5 x 4.72 x 1.69 inches
- **Weight:** 2.82 ounces

- **Certifications:** Cruelty-free ingredients

Clione Prime Lash Lift Solution

The image displays two sachet-style packets for the Clione Prime Lash Lift Solution. The left packet is blue and labeled '1 step Perm Lotion For Single Type Use'. The right packet is pink and labeled '2 step Setting Lotion For Single Type Use'. Both packets indicate they are 'Made In Korea' and contain '0.7g / 0.024 fl.oz'. A dollop of white cream is shown between the two packets. To the right of the packets are three stacked circular callouts: 'Infused with 17 AMINO ACID', 'Suitable for ALL SKIN TYPES', and 'Sachet type EFFECTIVE SOLUTION'. Below the packets, a circular inset shows a close-up of the sachet's seal with the text 'If the package seal is open, Please contact us first for a quick solution.' and 'CLIONE PRIME'.
