UPBRIGHT Belkin WIZ016 Boost Charge Por Power

UpBright 15V AC/DC Adapter User Manual

Model: Belkin WIZ016 Boost Charge Por Power

1. INTRODUCTION

This user manual provides essential information for the safe and effective use of your UpBright 15V AC/DC Adapter. Please read this manual thoroughly before operating the device and retain it for future reference.

The UpBright AC/DC Adapter is designed to provide stable power to compatible devices, specifically Belkin Boost Charge Pro wireless charging pads. It features global input voltage compatibility and multiple protection mechanisms to ensure reliable operation.

2. PRODUCT OVERVIEW

The UpBright 15V AC/DC Adapter is a compact and efficient power supply unit. It is specifically engineered to be compatible with various Belkin Boost Charge Pro models, ensuring proper power delivery for optimal charging performance.

Figure 2.1: UpBright 15V AC/DC Adapter and detachable power cord.

This image displays the main adapter unit along with its detachable power cord, ready for connection to a power outlet and a compatible device.

2.1 Key Features

- **Universal Input Voltage:** Supports 100-240VAC, 50/60Hz for worldwide use.
- **Stable Output:** Provides 15VDC, 2.67A, 40W power.
- **Safety Protections:** Equipped with Over Voltage Protection (OVP), Over Current Protection (OCP), and Short Circuit Protection (SCP).
- **Compatibility:** Designed for specific Belkin Boost Charge Pro wireless charging pads.

3. SETUP INSTRUCTIONS

Follow these steps to properly set up your AC/DC adapter:

1. **Unpack:** Carefully remove the AC/DC adapter and its power cord from the packaging.
2. **Connect Power Cord:** Insert the detachable power cord firmly into the AC input port on the adapter unit. Ensure a secure connection.
3. **Connect to Device:** Plug the DC output connector of the adapter into the power input port of your compatible Belkin Boost Charge Pro wireless charging pad.
4. **Plug into Outlet:** Insert the power cord's plug into a standard wall power outlet.

This image shows different power plug configurations (US, EU, UK, AU) that may be supplied with the adapter to ensure compatibility in various regions.

4. OPERATING INSTRUCTIONS

Once the adapter is correctly set up and connected to both the power outlet and your Belkin Boost Charge Pro device, it will begin supplying power automatically. No further user interaction is required for basic operation.

4.1 Safety Precautions

- Use the adapter only with compatible devices as specified.
- Do not expose the adapter to water, moisture, or extreme temperatures.
- Avoid dropping or subjecting the adapter to severe impacts.
- Do not attempt to open or modify the adapter. Refer all servicing to qualified personnel.
- Unplug the adapter from the power outlet when not in use for extended periods.
- Ensure proper ventilation around the adapter during operation to prevent overheating.

5. MAINTENANCE

The UpBright AC/DC Adapter requires minimal maintenance to ensure long-term performance.

- **Cleaning:** Disconnect the adapter from all power sources before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or aerosols.
- **Storage:** Store the adapter in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Cable Care:** Avoid bending or crimping the power cord excessively. Do not place heavy objects on the cord.

6. TROUBLESHOOTING

If you encounter issues with your UpBright AC/DC Adapter, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
No power output from adapter.	Adapter not properly plugged into wall outlet. Wall outlet is not functioning. Loose connection between adapter and device.	Ensure the power cord is fully inserted into the wall outlet and the adapter. Test the wall outlet with another device. Verify the DC connector is securely plugged into the Belkin device.
Device not charging or charging slowly.	Adapter not compatible with device. Device requires more power than adapter provides. Faulty cable or adapter.	Confirm your Belkin device model is listed as compatible. Check the power requirements of your device against the adapter's specifications (15V, 2.67A, 40W). Inspect cables for damage. If issues persist, contact customer support.
Adapter feels excessively hot.	Poor ventilation. Overload. Internal fault.	Ensure the adapter is in an open area with good airflow. Verify the connected device's power draw does not exceed 40W. Immediately unplug the adapter and discontinue use. Contact customer support.

If the problem persists after attempting these solutions, please contact UpBright customer support for further assistance.

7. PRODUCT SPECIFICATIONS

Feature	Detail
Model Number	Belkin WIZ016 Boost Charge Por Power (Compatible)
Input Voltage	100-240VAC, 50/60Hz
Output Voltage	15VDC
Output Current	2.67A
Output Power	40W
Dimensions (L x W x H)	6 x 4 x 2 inches
Item Weight	7.4 ounces
Safety Features	OVP, OCP, SCP Protection
Manufacturer	UpBright

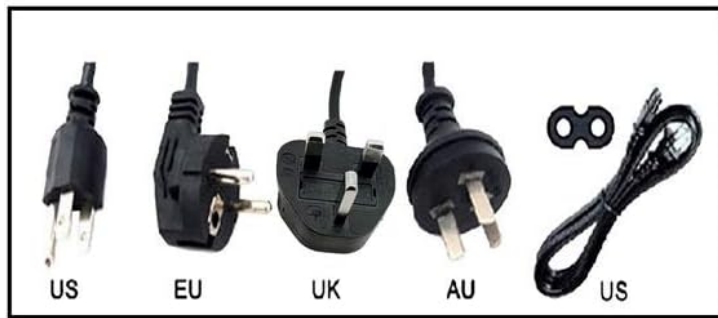

8. WARRANTY AND SUPPORT

8.1 Warranty Information

UpBright products are covered by a warranty to ensure customer satisfaction and product reliability.

- **Refund Policy:** 30 days refund period from the date of purchase.
- **Exchange Policy:** 24 months exchange period for defective units.
