vinamass A63 Kids Wired Headphones Instruction Manual

Model: A63 | Brand: vinamass

1. INTRODUCTION

Welcome to the instruction manual for your new vinamass A63 Kids Wired Headphones. These headphones are specifically designed for children, prioritizing hearing safety, comfort, and durability. With a built-in volume limiter set to 85dB, they ensure a safe listening experience for extended periods. The adjustable and lightweight design provides a comfortable fit for various head sizes, while the 3.5mm jack offers broad compatibility with many devices.

2. PACKAGE CONTENTS

Please check the package to ensure all items are present:

- 1 x vinamass A63 Kids Wired Headphones
- 1 x Integrated 3.5mm Audio Cable

3. KEY FEATURES

3.1 Hearing Protection (85dB Volume Limiter)

The A63 headphones feature a built-in fixed safe sound volume limitation set to 85dB. This level is recommended by the World Health Organization (WHO) to prevent hearing damage, allowing children to listen safely without constant parental supervision. This ensures that audio will not exceed a safe listening level, protecting young ears.

3.2 Material, Lightweight, and Comfortable Design

Crafted with a unique soft silicone and donut macaron design, these headphones offer a stylish and comfortable wearing experience. The flexible PP outer-layer, combined with light and cozy foam sponge ear cushions covered in premium PU leather, ensures maximum comfort for extended listening sessions. The lightweight and ergonomic design minimizes burden on a child's neck, making them suitable for daily use.

Image 3.2: Demonstrates the ultra-comfortable wear provided by the soft touch ear-pads and adjustable headband.

3.3 Perfect Fit & Durability

The headband is adjustable, extending up to 3cm, to ensure a perfect fit for various kid's head sizes. Made from carbon fiber plastic, the headband is flexible and bendable, designed to be highly durable and resistant to breaking, even with active use by children.

Image 3.3: Highlights the compact and durable construction, including the TPE wire designed to prevent tangling and breaking.

3.4 Excellent Sound & Universal Compatibility

These headphones deliver clear and full audio, providing a wonderful listening experience comparable to adult headphones. Equipped with a standard 3.5mm jack, the A63 Kids Headphones are universally compatible with a wide range of devices, including smartphones, Chromebooks, Kindle Fire, Nintendo Switch, iPads, tablets, and more.

Universal Compatibility

Image 3.4: Illustrates the universal compatibility of the 3.5mm jack with various devices such as laptops, tablets, iPads, phones, Macs, and iPods.

4. SETUP

1. **Unpack:** Carefully remove the headphones from their packaging.
2. **Connect:** Insert the 3.5mm audio jack firmly into the headphone port of your desired device (e.g., smartphone, tablet, computer).
3. **Adjust Headband:** Gently slide the earcups up or down along the headband to achieve a comfortable and secure fit on the user's head. Ensure both earcups fully cover the ears for optimal sound and comfort.

5. OPERATING INSTRUCTIONS

1. **Power On/Off Device:** Ensure your audio device is powered on and playing content.
2. **Volume Control:** Adjust the volume directly on your connected device. The headphones have a built-in 85dB volume limiter, so even if the device volume is set to maximum, the output will remain at a safe level for children.
3. **Usage:** Enjoy listening to music, audiobooks, watching videos, or participating in online classes.

6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe the headphones clean. For stubborn dirt, a slightly damp cloth can be used, but ensure no moisture enters the earcup or jack areas. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the headphones in a clean, dry place away from extreme temperatures and direct sunlight. Avoid tangling the cable by coiling it neatly.
- **Handling:** Always pull from the plug, not the cable, when disconnecting from a device. Avoid excessive bending or twisting of the cable to prevent internal damage.

7. TROUBLESHOOTING

No Sound:

- Ensure the 3.5mm jack is fully inserted into the device's audio port.
- Check the volume level on your connected device.
- Test the headphones with another device to rule out a device-specific issue.

Sound is Too Low/High:

- Adjust the volume on your connected device. Remember, the headphones have an 85dB volume limiter for safety, so the maximum volume will be capped.

Audio is Distorted:

- Ensure the 3.5mm jack is clean and free of debris.
- Try a different audio source or device.

8. SPECIFICATIONS

Feature	Detail
Model Name	A63
Connectivity Technology	Wired
Headphones Jack	3.5 mm Jack
Volume Limit	85dB (Built-in)
