SAFETY INSTRUCTIONS

- Always place the humidifier on a firm, flat, water-resistant surface away from walls and heat sources.
- Do not immerse the base unit in water or other liquids.
- Unplug the humidifier before filling, cleaning, or moving it.
- Do not add essential oils directly into the water tank unless specified by the manufacturer. This model allows direct addition to the water.
- Keep out of reach of children and pets.
- Do not block air vents.
- Use only clean, cool tap water. Distilled water is recommended to prevent mineral buildup.
- If the unit emits unusual sounds or smells, unplug it immediately.

PACKAGE CONTENTS

Upon unpacking, please ensure all items listed below are present and in good condition:

- Sejoy 4L Warm and Cool Mist Ultrasonic Humidifier Unit
- User Manual
- Power Cord (integrated)

PRODUCT OVERVIEW

Familiarize yourself with the main components and control panel of your humidifier.

Image: Close-up view of the humidifier's LED touch panel, showing icons for Sleep Mode, Timing, Mist Volume, Sterilization/Heating, Constant Humidity, and Real-time Humidity Bar.

Control Panel Features:

- **Power Button:** Turns the unit on/off.
- **Mist Volume Control:** Adjusts mist output level (Low, Medium, High).
- **Warm/Cool Mist Selection:** Toggles between warm and cool mist modes.

- **Humidity Setting:** Allows setting a desired humidity level.
- **Timer Function:** Sets operation duration (up to 12 hours).
- **Sleep Mode:** Dims display and operates quietly.
- **Sterilization/Heating Function:** Activates the sterilization and heating feature.
- **Real-time Humidity Display:** Shows current room humidity.

SETUP

1. **Unpack:** Carefully remove the humidifier from its packaging.
2. **Placement:** Place the unit on a flat, stable surface at least 6 inches (15 cm) away from walls and furniture. Ensure the mist outlet is not directed at any objects.
3. **Fill Water Tank:**

Image: Demonstrates the top-fill design of the humidifier, showing a hand pouring water into the open tank and another image showing essential oil being added.

Open the top cover. Remove the inner water tank. Fill the tank with clean, cool tap water. Do not exceed the MAX

fill line. You may add essential oils directly to the water if desired, as this model supports it. Replace the inner tank and close the top cover securely.

4. **Connect Power:** Plug the power cord into a suitable electrical outlet. The unit will enter standby mode.

OPERATING INSTRUCTIONS

Turning On/Off:

- Press the **Power button** on the LED touch panel to turn the humidifier on.
- Press the **Power button** again to turn it off.

Adjusting Mist Volume:

- Press the **Mist Volume icon** (often represented by mist clouds or arrows) to cycle through low, medium, and high mist output settings.

Warm and Cool Mist Modes:

Image: A split image illustrating the difference between cool mist (left, with snowflake icon) and warm mist (right, with sun icon) output from the humidifier, suitable for different seasons.

- Press the **Warm/Cool Mist icon** to switch between modes.
- The warm mist function provides a more comfortable breathing experience in colder environments.
- The cool mist function provides cool, fresh air, ideal for warmer conditions.

Setting Humidity Level:

- Press the **Humidity Setting icon** to set your desired humidity level. The humidifier will automatically adjust its output to maintain this level.

Timer Function:

- Press the **Timer icon** to set the operating duration. The timer can be set for up to 12 hours. The unit will automatically turn off once the set time expires.

Sleep Mode:

Ultra Quiet Sleep Mode

Advanced 3-layer structure to prevent noise

LED Display Off

<30dB

Waterless Shut Off

Image: The humidifier operating in a bedroom at night, illustrating its ultra-quiet sleep mode with icons for LED display off, less than 30dB noise, and waterless shut-off.

- Press the **Sleep Mode icon** to activate. In this mode, the LED display will turn off, and the humidifier will operate at its lowest, quietest setting (below 30dB) for undisturbed sleep.

Sterilization Function:

- This humidifier includes a sterilization function to help purify the mist. Activate it via the **Sterilization/Heating icon** on the control panel.

MAINTENANCE

Regular cleaning and maintenance are crucial for optimal performance and longevity of your humidifier.

Daily Maintenance:

- Empty and rinse the water tank daily.
- Wipe the mist outlet and base with a clean, damp cloth.

Weekly Cleaning (Descaling):

1. Unplug the humidifier and empty any remaining water.
2. Pour 1 cup of undiluted white vinegar into the water tank and base reservoir.
3. Let it soak for 20-30 minutes to loosen mineral buildup.
4. Use a soft brush or cloth to clean the inside of the tank and the ultrasonic transducer (the small disc in the base).
5. Rinse thoroughly with clean water until the smell of vinegar is gone.
6. Air dry all parts before reassembling or storing.

Note: Do not use harsh chemicals or abrasive cleaners.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No mist or low mist output	Water tank empty	Refill water tank
	Mineral buildup on transducer	Clean transducer with vinegar solution
	Mist outlet blocked	Check and clear mist outlet
	Unit not properly assembled	Ensure all parts are correctly seated
Unusual noise	Unit not on a flat surface	Place on a stable, flat surface
	Water level too low	Refill water tank
	Foreign object in water tank	Empty and inspect water tank
White dust around unit	Hard water used	Use distilled or demineralized water. Clean unit regularly.
Humidifier leaks water	Water tank cap not sealed	Ensure tank cap is tightly closed
	Overfilled tank	Do not overfill past MAX line
	Unit damaged	Contact customer support if damaged
