Amazfit GTS 2 Mini Pink-New Version

Amazfit GTS 2 Mini Smartwatch User Manual

Model: GTS 2 Mini Pink-New Version | Brand: Amazfit

1. INTRODUCTION

Welcome to the user manual for your new Amazfit GTS 2 Mini Smartwatch. This guide provides essential information on setting up, operating, maintaining, and troubleshooting your device. The Amazfit GTS 2 Mini is a versatile fitness tracker and smartwatch featuring a vibrant AMOLED display, integrated GPS, comprehensive health monitoring (heart rate, SpO2, sleep, stress), 68 sport modes, and built-in Alexa for smart assistance. Its ultra-long 14-day battery life ensures continuous tracking and convenience.

2. SETUP

2.1 Initial Charging

Before first use, fully charge your Amazfit GTS 2 Mini. The watch is equipped with a 220 mAh Lithium-polymer battery, providing up to 14 days of typical usage on a single charge. Connect the magnetic charging cable to the charging contacts on the back of the watch and plug the USB end into a power adapter (not included) or a computer's USB port.

2.2 Pairing with Your Smartphone

1. Download the **Zepp App** from your smartphone's app store (available on iOS and Android).
2. Open the Zepp App and create an account or log in.
3. Turn on your Amazfit GTS 2 Mini by pressing and holding the side button.
4. In the Zepp App, navigate to 'Profile' > 'My Devices' > 'Add device' and select 'Watch' > 'Watch with a QR code'.
5. Scan the QR code displayed on your watch screen using the Zepp App.
6. Follow the on-screen prompts in the app and on the watch to complete the pairing process. Ensure Bluetooth is enabled on your smartphone.

3. OPERATING INSTRUCTIONS

3.1 Display and Navigation

The Amazfit GTS 2 Mini features a 1.55-inch AMOLED display with 2.5D curved glass, offering clear visuals and responsive touch control. You can customize your watch face from over 80 options, including uploading your own photos. Swipe across the screen to navigate menus, access quick settings, and view notifications.

3.2 Health Monitoring

The smartwatch provides comprehensive health data to help you understand your physical condition.

- **24-Hour Heart Rate Tracking:** Continuously monitors your heart rate, providing real-time data and alerts for abnormal readings.

- **Smart Notifications:** Receive notifications for calls, messages, and app alerts directly on your wrist.
- **Bluetooth Remote Camera Control:** Use your watch as a remote shutter for your phone's camera.
- **Weather Forecast:** Get real-time weather updates directly on your watch.

3.5 Battery Life

The Amazfit GTS 2 Mini is designed for extended use, offering up to 14 days of battery life under typical usage conditions. This is achieved through a fully optimized battery management system and its 220 mAh Lithium-polymer battery.

4. MAINTENANCE

4.1 Cleaning

If the watch comes into contact with water, wipe it thoroughly with a soft, clean cloth. Avoid using harsh chemicals or abrasive materials for cleaning.

4.2 Water Resistance

The Amazfit GTS 2 Mini has a water resistance rating of 5 ATM, meaning it can withstand pressures equivalent to a depth of 50 meters. It is suitable for swimming in pools and shallow beaches. However, it is **not** suitable for:

- Diving, waterskiing, or other activities involving high-speed water or submersion in non-shallow water.
- Hot baths, saunas, or hot springs, as steam and high temperatures can affect the watch's seals.
- Exposure to sudden temperature fluctuations (e.g., using a hairdryer to blow hot air on the watch).

Do not immerse the watch in water for extended periods, and do not operate the watch buttons underwater.

5. TROUBLESHOOTING

If you encounter issues with your Amazfit GTS 2 Mini, consider the following general troubleshooting steps:

- **Watch Not Turning On:** Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
- **Pairing Issues:** Ensure Bluetooth is enabled on your phone and the watch is within range. Restart both your phone and the watch. Try unpairing and re-pairing the device through the Zepp App.
- **Inaccurate Health Data:** Ensure the watch is worn snugly on your wrist, about one finger's width from your wrist bone. Clean the sensor area on the back of the watch.
- **Notifications Not Received:** Check notification settings in the Zepp App and your phone's system settings to ensure permissions are granted for the Zepp App to access notifications.
- **App Sync Issues:** Ensure your phone has a stable internet connection. Close and reopen the Zepp App, or restart your phone.

For persistent issues, refer to the official Amazfit support website or contact customer service.
