## veicomtech 2022

# veicomtech Dual Ionic Foot Bath Detox Spa - Model 2022 Instruction Manual

Your guide to setting up, operating, and maintaining your veicomtech Dual Ionic Foot Bath Detox Spa.

## IMPORTANT SAFETY INFORMATION

Please read all safety instructions carefully before operating the device. Failure to follow these instructions may result in injury or damage to the product.

- Consult a healthcare professional before use if you have pre-existing medical conditions, are pregnant, have electronic implants (e.g., pacemaker), or are undergoing medical treatment.
- Do not immerse the main control unit in water or expose it to excessive moisture.
- Keep the device out of reach of children and pets.
- Use only the power adapter supplied with the unit.
- Ensure the wrist strap is worn during operation to complete the circuit.
- Discontinue use immediately if you experience any discomfort, pain, or unusual reactions.
- Do not use the device on open wounds, irritated skin, or areas with skin conditions.
- This device is intended for personal use and is not a medical device. Statements regarding this product have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition.

## PACKAGE CONTENTS

Verify that all components are present in your package:

- 1 x Main Control Unit
- 2 x Ionic Arrays
- 2 x Wrist Straps
- 2 x Waist Belts

- 1 x Power Cord
- 1 x User Manual
- 1 x Aluminum Carrying Case

## PRODUCT OVERVIEW

The veicomtech Dual Ionic Foot Bath Detox Spa is designed to facilitate an ionic foot bath experience for one or two users simultaneously. It features a digital LCD display for easy monitoring and control, along with various operating modes and accessories for a customizable session.

### Key Features:

- **Dual-User Capability:** Allows two individuals to use the system concurrently.
- **Digital LCD Display:** Provides clear visual feedback on selected modes, time, and intensity.
- **Multiple Foot Bath Modes:** Offers 8 distinct modes with adjustable session times.

- **Adjustable Heating Belts:** Includes 2 waist belts with 3 temperature settings.
- **Portable Design:** Comes with an aluminum carrying case for convenient storage and transport.

## SETUP INSTRUCTIONS

Follow these steps to set up your veicomtech Dual Ionic Foot Bath Detox Spa:

1. **Unpack the Unit:** Carefully remove all components from the aluminum carrying case.
2. **Placement:** Place the main control unit on a flat, stable, and dry surface, away from any water sources.
3. **Connect Power:** Insert the power cord into the power interface located on the back of the main unit. Then, plug the power cord into a standard electrical outlet.
4. **Prepare Foot Basins:** Fill two non-metallic foot basins with warm tap water. Ensure the water level is sufficient to cover the ionic arrays and your feet. Do not overfill.
5. **Insert Ionic Arrays:** Place one ionic array into each foot basin. Ensure the array is fully submerged

in the water.

6. **Connect Arrays:** Connect the cables from the ionic arrays to the 'ARRAY' ports on the front of the main unit.
7. **Attach Wrist Straps:** Securely attach a wrist strap to each user's wrist. Connect the wrist strap cables to the 'WRIST STRAP' ports on the main unit. Ensure good skin contact for proper operation.
8. **Optional: Connect Waist Belts:** If desired, connect the waist belts to the 'WAIST BELT' interfaces on the back of the main unit.

# PROCESS OF IONIC DETOXIFICATION

Two individuals using the veicomtech Dual Ionic Foot Bath Detox Spa, demonstrating the dual-user setup with feet in separate basins and wrist straps connected.

## OPERATING INSTRUCTIONS

Once the unit is set up, follow these steps to begin your ionic foot bath session:

1. **Power On:** Press the power button on the main unit to turn it on. The LCD display will illuminate.
2. **Select Mode:** Use the 'MODE' buttons (A Mode / B Mode for each user) to select the desired foot bath program. The unit offers 8 different modes. Refer to the specific mode descriptions in the full manual for details.
3. **Adjust Time:** Use the 'DETOX TIME' buttons to set the duration of your session. Typical sessions range from 20 to 30 minutes.
4. **Adjust Grade (Intensity):** Use the 'GRADE' buttons to adjust the intensity level of the ionic process. It is recommended to start with a lower setting and gradually increase if comfortable.
5. **Start Session:** Press the 'DETOX ON/OFF' button to begin the foot bath session.
6. **Using Waist Belts (Optional):** If connected, use the 'BELT' buttons to activate and adjust the

temperature of the heating waist belts. There are 3 temperature modes available.

7. **Monitor Display:** The LCD display will show the selected mode, time remaining, and current intensity level for each user.
8. **Session Completion:** The unit will automatically shut off when the set time expires. A beep may sound to indicate completion.
9. **Power Off:** After the session, press the power button to turn off the unit and unplug it from the power outlet.

## FEW STEPS TO ENJOY FOOT SPA

A sequence of images demonstrating the visual changes in water during an ionic foot bath session, from clear water to progressively darker water, indicating the process.

## SUITABLE FOR ALL KIND OF BASIN

Close-up image of an ionic array submerged in water, with visual representations of positive and negative ions being generated.

## MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your device:

- **Cleaning the Arrays:** After each use, rinse the ionic arrays thoroughly with clean water. For stubborn residue, soak them in a mixture of 50% white vinegar and 50% water for 10-15 minutes, then scrub gently with a non-abrasive brush. Rinse completely before storage.
- **Cleaning the Main Unit:** Wipe the main unit with a soft, damp cloth. Do not use abrasive cleaners, solvents, or immerse the unit in water.
- **Storage:** Store the unit and all accessories in the provided aluminum carrying case in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Array Lifespan:** Ionic arrays have a limited lifespan and will need to be replaced periodically depending on usage frequency and water quality. Replace arrays when their performance diminishes or they show significant wear.

## TROUBLESHOOTING

If you encounter any issues with your device, refer to the table below for common problems and solutions:

Problem	Possible Cause	Solution
Unit does not power on.	Power cord not securely connected; power outlet not active.	Ensure the power cord is firmly plugged into both the unit and a working electrical outlet. Test the outlet with another device.
No ionic activity (no water color change or very little).	Ionic array not connected or faulty; insufficient salt in water; wrist strap not connected or making poor contact.	Check that the array and wrist strap cables are securely connected. Ensure the wrist strap makes good skin contact. Add a small pinch of non-iodized salt to the water to improve conductivity (do not over-salt). Replace the array if it is worn out.
Display shows error message or beeps continuously.	Excessive salt concentration in water; array malfunction; internal error.	If using salt, reduce the salt concentration in the water. Clean or replace the ionic arrays. If the problem persists, power off the unit, unplug it, wait a few minutes, and then restart. If the error continues, contact customer support.
Waist belt not heating.	Waist belt not connected properly; heating function not activated.	Ensure the waist belt is securely connected to the unit's 'WAIST BELT' interface. Activate the heating function using the 'BELT' buttons on the control panel.

## SPECIFICATIONS

- **Model Number:** 2022
- **Brand:** veicomtech
- **Power Source:** Corded Electric
- **Main Unit Material:** Plastic (Aluminum for carrying case)
- **Package Weight:** Approximately 16.64 Pounds
- **Package Dimensions:** 17.09 x 13.5 x 7.44 inches
- **User Capacity:** Dual (1 to 2 people)
- **Foot Bath Modes:** 8
- **Heating Belt Modes:** 3 temperature settings
