2. PRODUCT FEATURES

- **Bluetooth Connectivity:** Utilizes Bluetooth Low Energy (BLE 5.0) for connection to your smartphone.
- **Item Finding:** Ring your tracker card from the app to locate it.
- **Phone Finding:** Double-click the button on the tracker card to make your phone ring, even on silent mode.
- **Separation Alerts:** Receive instant notifications on your phone if you leave your valuables behind.
- **Last Seen Location:** View the last known location of your tracker on a map within the app.
- **Community Search:** Leverage the network of other Dolphin users to help locate lost items (with privacy protection).
- **Slim Design:** Credit card-sized for easy placement in wallets, bags, or passport holders.
- **Long Battery Life:** Equipped with a battery designed to last up to 36 months.
- **Waterproof:** IP67 rated for water resistance.
- **Selfie Remote Function:** Use the tracker button as a remote shutter for your phone camera.

3.2. Pairing Your Tracker Card

1. Open the Dolphin Tracker App on your smartphone.
2. Follow the on-screen instructions to create an account or log in.
3. Ensure your phone's Bluetooth is enabled.
4. Place your tag8 Dolphin Smart Sleek Wallet Tracker Card near your phone.
5. In the app, select the option to "Add Device" or "Scan for Devices."
6. The app will detect your tracker card. Select it to initiate the pairing process.
7. Confirm the pairing when prompted. Once paired, the app will show the tracker as connected.

SIMPLE AND EASY TO USE

1

PAIR

Download the **Dolphin Tracker App** to pair your Dolphin Smart Card tracker with your smartphone

2

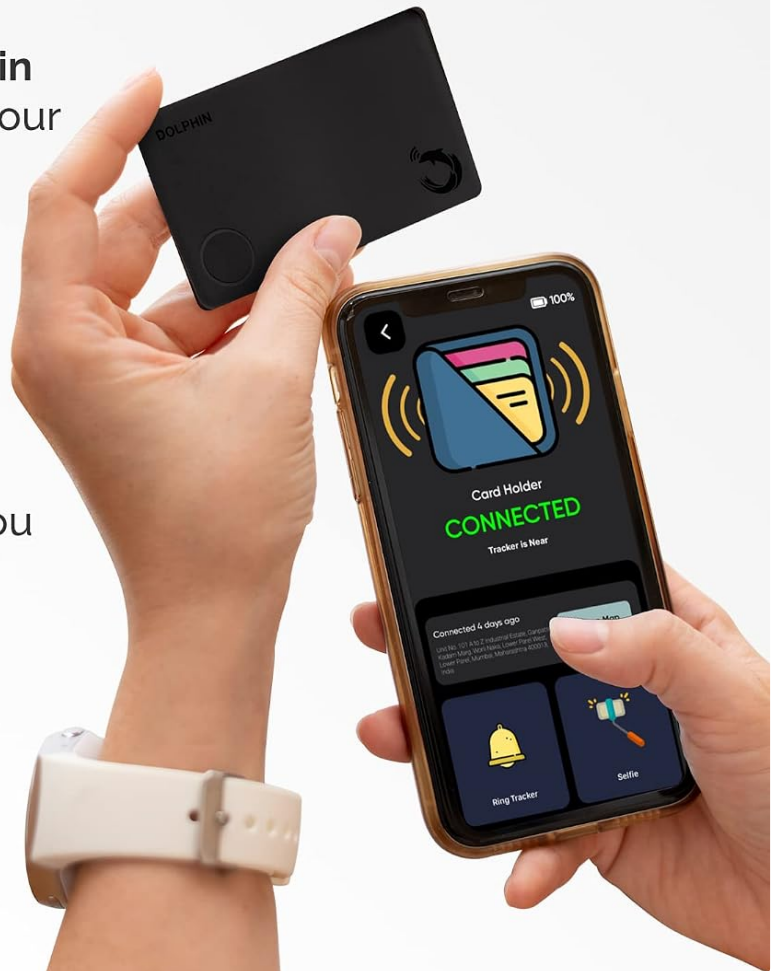

TAG

Insert the dolphin tracker to the item you want to track

3

TRACK

Track your valuables through your phone

- Open your phone's camera app.
- Press the button on your tag8 Dolphin Smart Sleek Wallet Tracker Card to remotely capture a photo.

Your browser does not support the video tag.

5. MAINTENANCE

5.1. Battery Life

The tag8 Dolphin Smart Sleek Wallet Tracker Card comes with a pre-installed Lithium Metal battery designed for long-term use, up to 36 months. Battery replacement instructions are typically provided with the product packaging or on the manufacturer's website.

5.2. Water Resistance

The tracker card is IP67 rated, meaning it is protected from dust and can withstand immersion in water up to 1 meter for

up to 30 minutes. While water-resistant, it is recommended to avoid prolonged exposure to water or submersion to ensure optimal performance and longevity.

Image 5.1: Key specifications including water resistance and range.

6. TROUBLESHOOTING

- **Tracker not connecting:** Ensure Bluetooth is enabled on your phone and the tracker is within range. Restart both the app and your phone if necessary.
- **Alarm not loud enough:** The tracker emits a 98dB alarm. Ensure there are no obstructions muffling the sound. The effective range for hearing the alarm may vary based on environment.
- **Phone not ringing when tracker button is pressed:** Verify that the tracker is paired correctly and that the app has the necessary permissions to make your phone ring, even on silent.
- **Inaccurate last seen location:** The last seen location is recorded when the tracker disconnects from your phone. Ensure your phone's location services are enabled for the Dolphin Tracker App.
- **Short range:** Bluetooth range can be affected by physical obstructions (walls, metal objects) and interference.

Optimal range is achieved in open spaces.
