Geeni GN-WP003-199

Geeni 7L Automatic Pet Feeder with Smart Home Pet Camera User Manual

Model: GN-WP003-199 | Brand: Geeni

1. Introduction

The Geeni 7L Automatic Pet Feeder with Smart Home Pet Camera is designed to simplify pet feeding and monitoring. This smart device allows you to schedule meals, control portions, and keep an eye on your pets remotely using a dedicated mobile application. It features a 1080p HD camera, two-way audio, and a dual power supply for reliable operation.

2. Product Components

Before setting up your Geeni Automatic Pet Feeder, ensure all components are present in the packaging:

- 7 Liter Smart Feeder Unit
- Food Bowl
- Secure Lid
- USB Cord
- AC Adapter

Image: A visual representation of all items included in the product packaging, clearly labeled for identification.

3. Setup

3.1 Power Supply

The Geeni Pet Feeder supports dual power options:

- **AC Adapter:** Connect the provided USB cord to the feeder and plug the AC adapter into a standard wall outlet.
- **Battery Backup:** For uninterrupted feeding during power outages, install D-cell batteries (not included) into the battery compartment located at the bottom of the unit.

Image: A close-up view of the battery compartment on the underside of the feeder, illustrating where D-cell batteries are inserted for backup power.

3.2 App Installation & Pairing

1. Download the **Geeni** app from your smartphone's app store (iOS or Android).
2. Register or log in to your Geeni account.
3. Power on the pet feeder. The indicator light should begin to flash, indicating it's ready for pairing.
4. In the Geeni app, tap the '+' icon to add a new device. Select 'Wi-Fi Camera' or 'Pet Feeder' from the device list.
5. Follow the on-screen instructions to connect the feeder to your home Wi-Fi network. This typically involves scanning a QR code displayed on your phone with the feeder's camera.

4. Operation

4.1 Smart Features Overview

The Geeni Pet Feeder offers a range of smart functionalities to manage your pet's feeding routine and monitor their well-being:

Image: An infographic highlighting the key smart features of the pet feeder, including 1080p live video, two-way audio, app control, scheduling, voice control, pre-recorded messages, and portion control.

4.2 Feeding Schedule

Set up customized feeding schedules to ensure your pet receives meals at consistent times throughout the day. You can define multiple feeding times and portion sizes for each.

- Open the Geeni app and select your pet feeder.
- Navigate to the 'Schedule Meals' section.
- Add new schedules, specifying the time, days of the week, and desired portion size.

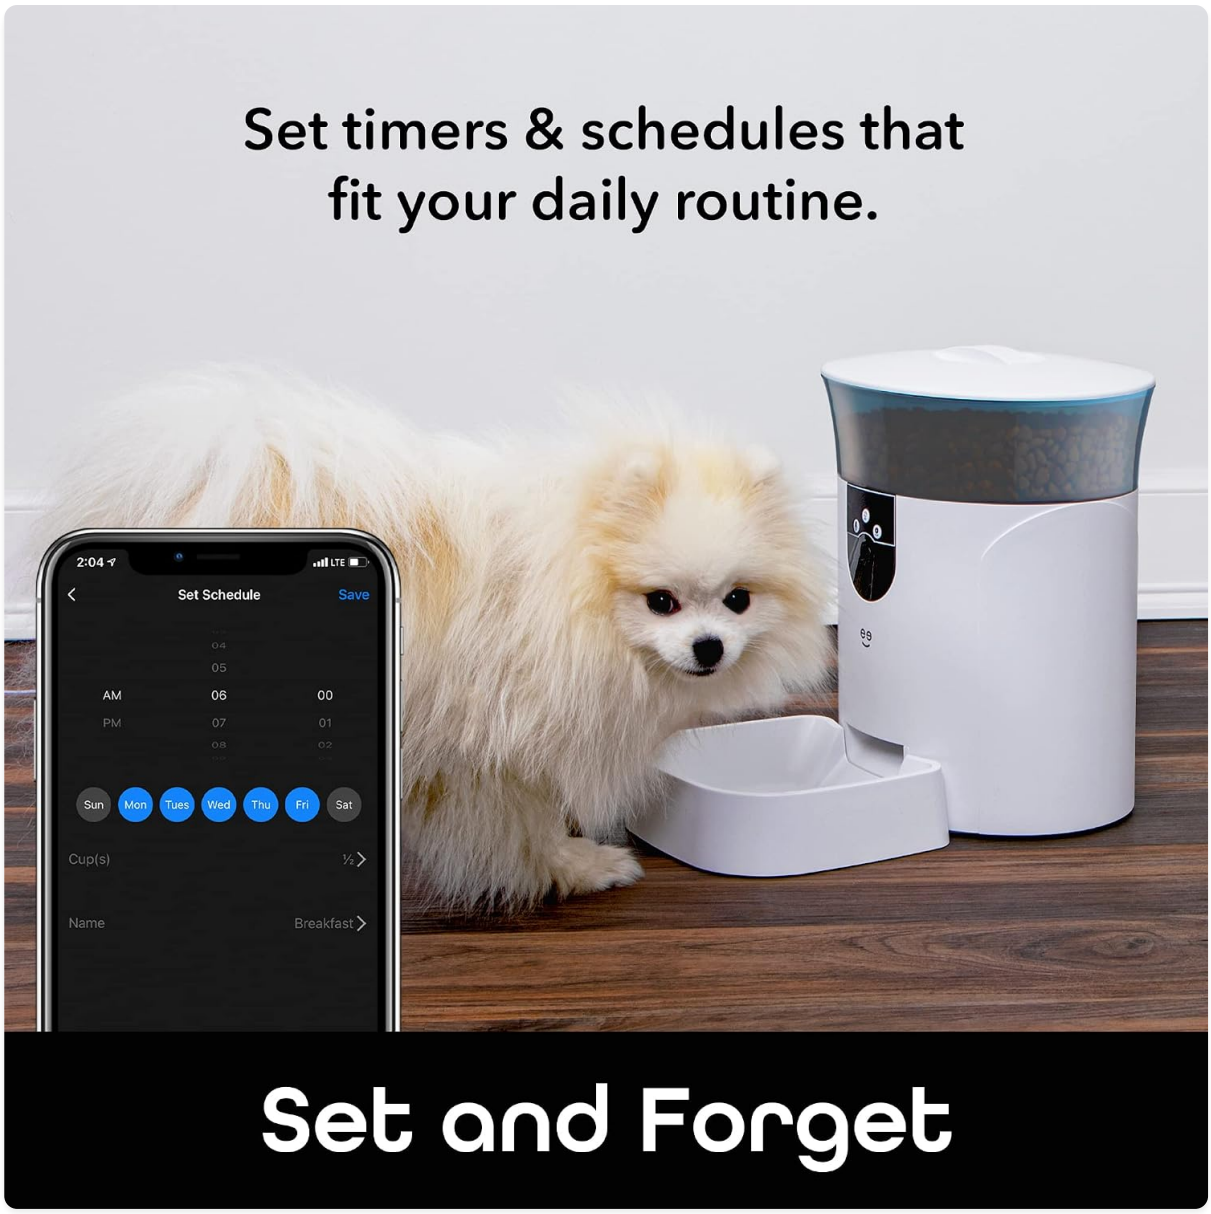

Image: A smartphone displaying the Geeni app's scheduling screen, where users can set meal times and portion sizes for their pet.

4.3 Manual Feeding

Dispense food instantly at any time using the 'Feed Now' option in the app. This is useful for extra treats or if your pet needs an unscheduled meal.

4.4 Voice Messages & Two-Way Audio

Record a personalized voice message that plays when food is dispensed, or use the two-way audio feature to speak to your pet directly through the feeder's built-in speaker and microphone.

4.5 Camera Monitoring

The integrated 1080p HD camera allows you to monitor your pet from anywhere. You can view live video, capture screenshots, and record video clips. The camera also supports motion detection, sending alerts to your phone when activity is detected.

4.6 Portion Control

Precisely control the amount of food dispensed for each meal. The app allows you to select portion sizes, ensuring your pet receives the correct dietary intake.

4.7 Control by App & Voice Assistants

Manage all feeder functions directly from the Geeni app. The feeder is also compatible with Google Assistant and Amazon Alexa, allowing for convenient voice control commands.

5. Maintenance

5.1 Cleaning

Regular cleaning ensures optimal performance and hygiene for your pet. The food bowl is removable and can be hand washed. Ensure the main unit is wiped clean with a damp cloth and is completely dry before refilling.

5.2 Kibble Size Recommendation

For proper dispensing, use dry pet food with a kibble size between 2mm and 10mm. Larger pellets (12mm or more) may cause jamming and prevent the feeder from dispensing correctly.

Image: A visual guide showing acceptable and unacceptable kibble sizes for the feeder, with a reminder that only kibble 10mm or smaller will flow properly.

5.3 Desiccant Packet

A desiccant packet is included to help keep the dry food fresh and prevent moisture buildup within the food storage compartment. Replace the desiccant packet periodically as needed.

6. Troubleshooting

If you encounter issues with your Geeni Automatic Pet Feeder, consider the following common solutions:

- **No Power:** Ensure the AC adapter is securely plugged in and that the outlet is functional. If using battery backup, check battery levels and ensure they are correctly installed.
- **Offline in App:** Verify your Wi-Fi network is active and the feeder is within range. Try restarting the feeder and your Wi-Fi router. Re-pairing the device in the app may be necessary.
- **Food Not Dispensing:** Check the food hopper for sufficient kibble. Ensure the kibble size adheres to the recommended range (2-10mm) to prevent jams. Clear any obstructions in the dispensing mechanism.
- **Camera Issues:** If the camera feed is unclear or unavailable, check your Wi-Fi signal strength. Ensure the camera lens is clean and free from obstructions.
- **App Connectivity:** Ensure your Geeni app is updated to the latest version.

For persistent issues, refer to the Geeni support website or contact customer service.

7. Specifications

Feature	Detail
Brand	Geeni
Model Name	Smart Home
Item Model Number	GN-WP003-199
Size	7L + Camera
Material	Plastic
Color	White
Item Weight	6.64 pounds
Item Package Dimensions L x W x H	17 x 13 x 10 inches
Target Species	Dog
Recommended Uses For Product	Multiple Pets, Dry Food
Special Feature	Feeding Schedule
Included Components	Power Adapter
Care Instructions	Hand Wash Only
