WOOX R6113

WOOX R6113 Smart Plug 16A with Energy Meter User Manual

Brand: WOOX

Model: R6113

Product Overview

The WOOX R6113 Smart Plug is a versatile device designed to integrate your traditional home appliances into a smart home ecosystem. It features an integrated energy meter, allowing you to monitor power consumption, and offers remote control, voice control, and scheduling capabilities. This product is TÜV certified, ensuring quality and safety.

Setup Guide

Follow these steps to set up your WOOX R6113 Smart Plug.

1. App Installation

1. Download the **Woox Home** application from your smartphone's app store (Google Play Store for Android or Apple App Store for iOS).
2. Register for a new account or log in if you already have one.

2. Connecting the Smart Plug

- Plug the WOOX R6113 Smart Plug into a standard wall outlet.
- Ensure your Wi-Fi network is **2.4GHz**. The smart plug is not compatible with 5GHz Wi-Fi networks. If you have a dual-band router, ensure the 2.4GHz band is enabled and you are connected to it during setup.
- Open the Woox Home app. Tap the "+" icon to add a new device.
- Select "Electrical" or "Socket" from the device list, then choose the appropriate smart plug model (R6113).
- Follow the on-screen instructions in the app to connect the smart plug to your Wi-Fi network. This typically involves putting the device into pairing mode (often indicated by a rapidly blinking light on the plug) and entering your Wi-Fi credentials.
- Once connected, you can rename the smart plug for easier identification (e.g., "Living Room Lamp").

Operating Instructions

Remote Control via App

Control your connected appliances from anywhere using the Woox Home app.

- Open the Woox Home app and select the R6113 Smart Plug you wish to control.
- Tap the power icon to turn the connected appliance ON or OFF.
- You can also check the current status of the plug (ON/OFF) from the app.

Voice Control (Alexa & Google Assistant)

Integrate your smart plug with Amazon Alexa or Google Assistant for hands-free control.

1. Ensure your smart plug is successfully connected to the Woox Home app.
2. Open the Alexa or Google Home app.

3. Search for and enable the "Woox Home" skill/service.
4. Link your Woox Home account with your Alexa/Google account.
5. Discover devices. Your smart plug should now appear in your Alexa/Google Home device list.
6. Use voice commands such as:
    - "Alexa, turn on [device name]"
    - "Hey Google, turn off [device name]"
    - "Alexa, set [device name] to [percentage/level]" (if applicable, though typically ON/OFF for plugs)

Scheduling and Timer Functions

Automate your appliances by setting schedules, timers, and countdowns.

- In the Woox Home app, select your smart plug.
- Navigate to the "Schedule" or "Timer" section.

- **Schedule:** Set specific times for the plug to turn ON or OFF daily or on selected days of the week. For example, schedule your coffee machine to turn on at 7:00 AM every weekday.
- **Countdown:** Set a countdown timer for the plug to turn OFF after a specified duration. Useful for charging devices or temporary lighting.

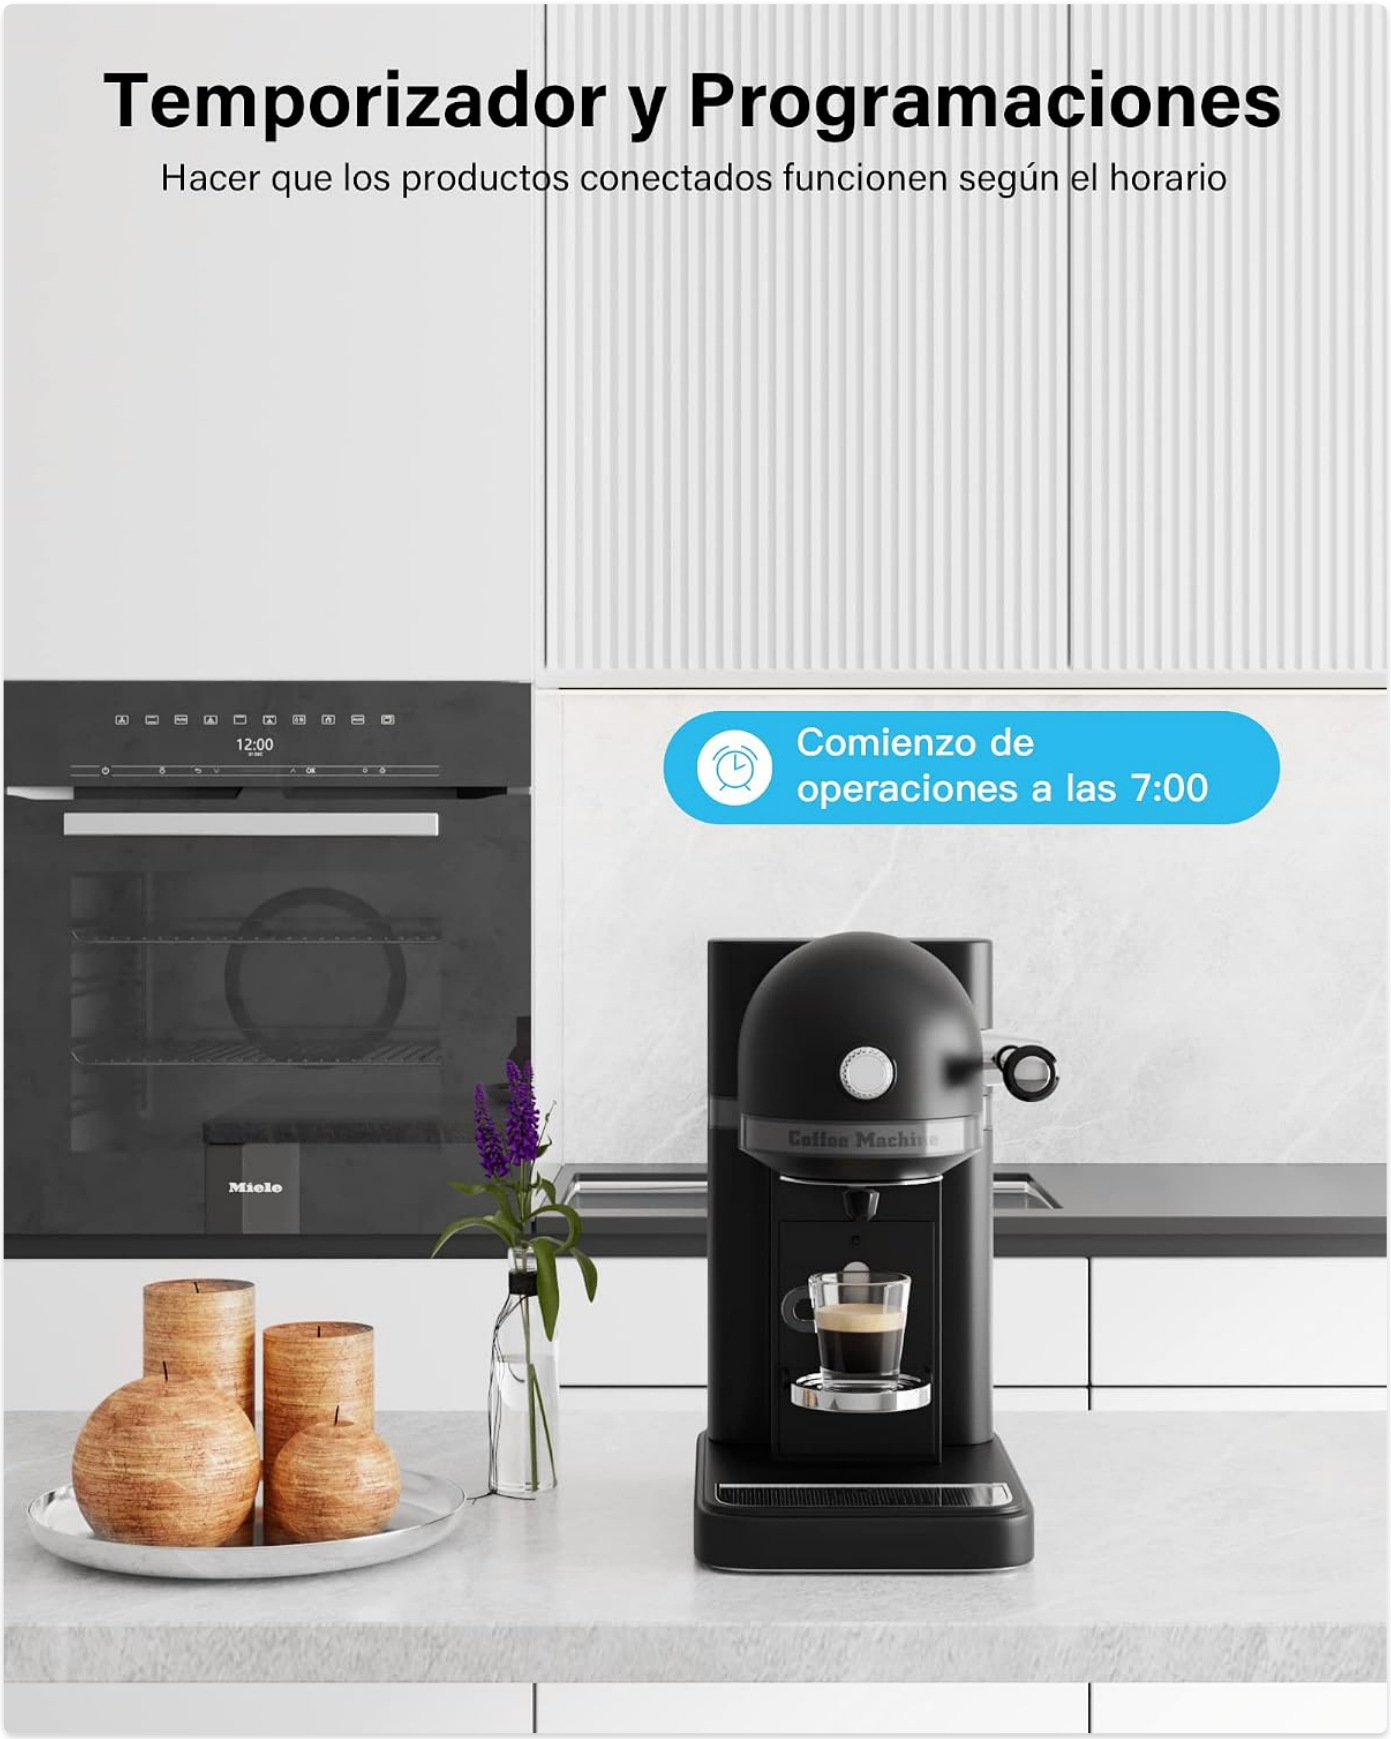

Image: A coffee machine automatically turning on at 7:00 AM, illustrating the timer and scheduling capabilities of the smart plug for daily routines.

Energy Monitoring

The R6113 Smart Plug features an integrated energy meter to track power consumption.

- In the Woox Home app, select your smart plug.
- Look for the "Energy" or "Statistics" section.
- View real-time power consumption, as well as daily, monthly, and yearly consumption data. This helps in understanding and optimizing your energy usage.

Image: A graph displaying daily energy consumption data (in kWh) tracked by the smart plug, providing insights into appliance usage and potential savings.

Smart Scenarios and Group Control

Create automated scenarios and control multiple devices simultaneously.

- **Smart Scenarios:** Set up rules based on conditions (e.g., time of day, weather, or other smart device statuses) to trigger actions. For example, turn off all smart plugs when you leave home.
- **Group Control:** Group multiple smart plugs or other Woox devices together to control them with a single command. For instance, create a "Living Room" group to turn all lights on/off at once.
- **Device Sharing:** Share control of your smart plugs with family members through the Woox Home app.

Aplicación más+

Image: A collage showing various applications for the smart plug, including controlling a lamp, an oven, a pool pump, and a water heater, highlighting its versatility in different home environments.

Maintenance

To ensure optimal performance and longevity of your WOOX R6113 Smart Plug, follow these simple maintenance guidelines:

- **Cleaning:** Disconnect the smart plug from the power outlet before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or abrasive materials.
- **Environment:** Keep the smart plug in a dry environment, away from direct sunlight, excessive heat, and moisture. It is designed for indoor use only.
- **Storage:** If storing the smart plug for an extended period, keep it in a cool, dry place.

Troubleshooting

If you encounter issues with your WOOX R6113 Smart Plug, refer to the following common solutions:

Problem	Possible Cause / Solution
Smart Plug cannot connect to Wi-Fi.	• Ensure your Wi-Fi network is **2.4GHz**. The R6113 does not support 5GHz Wi-Fi. • Check if your Wi-Fi signal is strong enough at the plug's location. • Make sure the smart plug is in pairing mode (usually indicated by a rapidly blinking light). • Restart your Wi-Fi router and try connecting again. • Ensure you have entered the correct Wi-Fi password.
Smart Plug frequently goes offline.	• Poor Wi-Fi signal strength. Try moving the plug closer to your router or using a Wi-Fi extender. • Network congestion. Reduce the number of devices connected to your Wi-Fi network. • Router settings. Ensure your router is not blocking new connections or has MAC address filtering enabled.
Voice control not working.	• Ensure the "Woox Home" skill/service is enabled and linked in your Alexa or Google Home app. • Verify the device name used in your voice command matches the name in the Alexa/Google Home app. • Check your internet connection and the status of your voice assistant device.
Appliance connected to smart plug trips circuit breaker.	• The connected appliance may exceed the smart plug's maximum load capacity (16A / 3680W). Disconnect high-power appliances. • There might be a short circuit in the appliance or the smart plug itself. Discontinue use and contact support if the issue persists.

Specifications

Feature	Detail
Model Number	R6113
Product Dimensions (L x W x H)	5.5 x 5.5 x 8.5 cm
Weight	290 g (for the 3-pack)

Feature	Detail
Current Rating	16 Ampere
Operating Voltage	220 Volt AC (VAC)
Max Power Load	3680 W
Connectivity	2.4GHz Wi-Fi
Control Mode	ON-OFF (via App, Voice, Button)
Material	Plastic
Certifications	TÜV Certified

Warranty and Support

WOOX is committed to providing high-quality products and excellent customer service.

- **Quality Assurance:** This product has been certified and inspected by TÜV, a globally recognized independent testing organization, ensuring it meets high quality and safety standards.
- **Customer Support:** WOOX offers 24-hour telephone customer service for any issues or questions you may have regarding your smart plug. Please refer to the product packaging or the Woox Home app for specific contact details.
- **Returns:** The standard return policy allows for returns within 30 days for refund or replacement.
