NUNET HZB-20YLR

NUNET 3-in-1 Countertop Ice Maker & Water Dispenser

Model: HZB-20YLR

1. IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before operating this appliance. Keep this manual for future reference.

- **DANGER - Risk of Fire or Explosion:** Flammable refrigerant used. Do not use mechanical devices to defrost ice maker. Do not puncture refrigerant tubing.
- **Electrical Safety:** Always ensure the unit is properly grounded. Do not immerse the power cord, plug, or appliance in water or other liquids.
- **Child Safety:** Keep children away from the dispenser during operation, especially when dispensing hot water. Utilize the child safety lock feature.
- **Placement:** Place the appliance on a stable, level surface. Ensure adequate ventilation around the unit.
- **Water Quality:** Use pure water only to prevent mineral buildup and ensure optimal performance.

2. PRODUCT OVERVIEW

The NUNET 3-in-1 Countertop Ice Maker and Water Dispenser provides hot, cold, and ice water from a single compact unit. It is designed for convenience and efficiency in various settings.

Figure 2.1: Front view of the NUNET 3-in-1 Ice Maker and Water Dispenser, showing the main unit and included accessories such as water hoses, connectors, cleaning brush, and ice cleaner.

3-IN-1 WATER DISPENSER WITH ICE MAKER

(Note:use pure water only)

Hot water
temperature $\geq 194^{\circ}\text{F}$

Cold water
temperature $\leq 46.4^{\circ}\text{F}$

Ice block

Figure 2.2: Detailed view of the control panel, illustrating indicators for power, add water, child lock, hot water, ice block, and cold water functions. It also shows the three dispensing spouts for hot water, ice cubes, and cold water.

3. PACKAGE CONTENTS

Verify that all items are present and in good condition upon unpacking:

- NUNET 3-in-1 Ice Maker & Water Dispenser Unit
- 10ft PE Water Inlet Hose (1/2" & 1/4" connectors included)
- Water Pump with 2.62ft Inlet Hose (for 2, 3, or 5-gallon bottles)
- Ice Machine Cleaner (120ml bottle)
- Cleaning Brush
- Magnetic Dry Eraser Marker
- Bonus Water Bottle (for hot coffee, cold drinks, or ice storage)

Figure 3.1: Included ice machine cleaner and long-handled brush for maintenance.

4. SETUP AND INSTALLATION

Proper setup ensures optimal performance and safety.

- **Placement:** Position the unit on a flat, stable countertop. Ensure at least 19 inches of height clearance above the unit for proper ventilation and access.
- **Initial Cleaning:** Before first use, clean the water tank and internal components. Refer to the 'Maintenance and Cleaning' section for detailed steps.
- **Power Connection:** Plug the unit into a grounded electrical outlet.

Please make sure your countertop has at least 19" height clearance if you use it as a countertop water/ice dispenser.

Figure 4.1: Illustration of the unit's dimensions and the recommended 19-inch countertop clearance.

5. OPERATING INSTRUCTIONS

The control panel features touch buttons and indicator lights for easy operation.

- **Power Indicator:** Illuminates when the unit is powered on.
- **Add Water Indicator:** Lights up when the water reservoir needs refilling.
- **Child Lock:** Press the lock button to enable/disable the hot water dispenser for safety.
- **Hot Water:** Press the 'HOT' button to dispense hot water ($\geq 194^{\circ}\text{F}$). The heating indicator light will flash while heating and become solid when ready.
- **Ice:** Press the 'ICE' button to dispense ice cubes. The ice making indicator light will flash while making ice and become solid when the ice tank is full.
- **Cold Water:** Press the 'COLD' button to dispense cold water ($\leq 46^{\circ}\text{F}$). The cooling indicator light will flash while cooling and become solid when ready.

6. WATER SUPPLY OPTIONS

Your NUNET dispenser offers multiple ways to supply water:

- **Manual Fill:** Open the top cover and pour water directly into the reservoir (up to 0.8 gallons).
- **Direct Water Line:** Connect the included 10ft PE water inlet hose to a water filtration system using the 1/2" or 1/4" diameter hose adapters. This provides a continuous water supply.
- **Bottled Water:** Use the provided water pump and 2.62ft inlet hose to draw water from external 2, 3, or 5-gallon bottles.

3 WAYS FOR WATER SUPPLY

Automatic Water Supply/Manually Add Water
(Pure Water Only)

Figure 6.1: Visual representation of the three water supply methods: Auto Water Supply (direct line), Manual Add Water, and Use Water Pump with bottled water.

7. MAINTENANCE AND CLEANING

Regular cleaning is essential for hygiene and appliance longevity.

- **Drip Tray:** The drip tray is removable for easy cleaning. Lift the metal grate and remove the plastic tray underneath to empty any spilled water and clean.
- **Water Tank:** Remove the top cover and use the provided long-handled brush to clean the water tank. Rinse with high-pressure water if possible.
- **Draining Water:** For thorough cleaning or storage, drain residual water from the unit. Locate the drain plugs on the bottom of

the unit (one for cold water, one for hot water) and remove them to empty the tanks.

- **Ice Machine Cleaner:** Use the included ice machine cleaner periodically to prevent mineral buildup and maintain ice quality. Follow the instructions on the cleaner bottle.

8. TROUBLESHOOTING

Refer to this section for common issues and their solutions.

Problem	Possible Cause	Solution
