Pokémon Zekrom TG05/TG30 Brilliant Stars Trainer Gallery Holo Foil Card Instruction Manual

Welcome to the official instruction manual for your Pokémon Zekrom TG05/TG30 Brilliant Stars Trainer Gallery Holo Foil Card. This guide provides important information on how to properly handle, store, and maintain your collectible card to preserve its condition and value. Please read these instructions carefully.

1. INITIAL HANDLING AND SETUP

Upon receiving your Pokémon card, careful handling is crucial to prevent any immediate damage. Collectible cards are delicate and can be easily scratched, bent, or creased.

- **Unboxing:** Gently remove the card from its packaging. Avoid using sharp objects that could accidentally scratch the card.
- **Immediate Protection:** It is highly recommended to immediately place your card into a protective sleeve (penny sleeve) and then into a rigid top-loader or card saver. This provides a physical barrier against dust, moisture, and physical damage.
- **Clean Hands:** Always ensure your hands are clean and dry before touching the card directly. Oils, dirt, or moisture can leave permanent marks.

Image 1.1: An example of a Poké card, such as the Pawmi card shown, placed in a protective sleeve and top-loader for immediate preservation. Note: This image is for illustrative purposes and does not depict the Zekrom TG05/TG30 card specifically.

2. OPERATING AND DISPLAY

Whether you intend to play with your card or display it, proper methods ensure its longevity.

- **Playing:** If using the card for gameplay, keep it in a protective sleeve. Avoid bending, shuffling roughly, or placing it on dirty surfaces.
- **Displaying:** For display, use UV-protective cases or frames to prevent fading from sunlight. Ensure the display area is stable and free from vibrations or potential impacts.
- **Storage:** For long-term storage, consider archival-safe binders with acid-free pages or specialized storage boxes designed for collectible cards. Store in a cool, dry place away from direct sunlight, extreme temperatures, and humidity fluctuations.

3. MAINTENANCE AND CARE

Regular, gentle care can significantly extend the life and maintain the appearance of your card.

- **Cleaning:** If necessary, gently wipe the card surface with a clean, dry, lint-free microfiber cloth. Do not use any cleaning solutions, water, or abrasive materials, as these can damage the card's finish and integrity.

- **Environmental Control:** Maintain a stable environment. High humidity can cause warping, while extreme dryness can make the card brittle. Avoid areas prone to spills, dust, or pests.
- **Inspection:** Periodically inspect your card for any signs of wear, dust accumulation, or environmental damage. Address any issues promptly.

4. TROUBLESHOOTING AND DAMAGE PREVENTION

While prevention is key, understanding potential issues can help mitigate damage.

- **Bends/Creases:** These are often irreversible. Prevent by always handling the card with two hands and storing it in rigid protectors.
- **Scratches/Surface Wear:** Keep the card in sleeves and top-loaders at all times when not being actively viewed. Avoid sliding the card against rough surfaces.
- **Water Damage:** Keep cards away from liquids. Water damage can cause warping, ink bleeding, and permanent staining.
- **Fading:** Direct sunlight or strong artificial light can cause colors to fade over time. Use UV-protective display cases or store cards in dark, cool places.

5. SPECIFICATIONS

Key details regarding your Pokémon Zekrom TG05/TG30 Brilliant Stars Trainer Gallery Holo Foil Card:

Attribute	Detail
Card Name	Zekrom
Set Name	SWSH09: Brilliant Stars
Card Number	TG05/TG30
