Esgofo EG0770

ESGOFO LED Rechargeable Flashlight User Manual

Model: EG0770

INTRODUCTION

Thank you for choosing the ESGOFO LED Rechargeable Flashlight, Model EG0770. This powerful and versatile flashlight is designed for various applications, including camping, hiking, night walking, work, and emergency situations. Featuring an upgraded PH-L330 LED, it delivers exceptional brightness and long-range illumination. This manual provides detailed instructions for proper setup, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your device.

PACKAGE CONTENTS

Please check the package contents upon receipt to ensure all items are present:

- 1x ESGOFO Powerful Flashlight
- 1x Mini Flashlight
- 1x Rechargeable Battery (for main flashlight)
- 4x AAA Alkaline Batteries (for mini flashlight)
- 1x USB-C Charging Cable
- 1x Gift Box

The complete package includes the main powerful flashlight, a mini flashlight, one rechargeable battery, four AAA alkaline batteries, a USB-C charging cable, and a gift box.

SAFETY INFORMATION

Please read and follow these safety guidelines to prevent injury or damage to the product:

- **Do not look directly into the LED beam.** The high intensity light can cause temporary vision impairment or permanent eye damage.
- Keep out of reach of children.
- Do not disassemble or modify the flashlight. This may cause damage and void the warranty.
- Use only the specified rechargeable battery and charging cable.
- Avoid exposing the flashlight to extreme temperatures or direct sunlight for prolonged periods.
- Ensure the USB port cover is securely closed when not in use to maintain its waterproof rating.

SETUP

Battery Installation (Main Flashlight)

The main flashlight uses a high-capacity rechargeable battery. Ensure it is correctly installed before first use.

1. Unscrew the tail cap of the flashlight.
2. Insert the rechargeable battery with the positive (+) end facing towards the head of the flashlight.
3. Screw the tail cap back on tightly.

Battery Installation (Mini Flashlight)

The mini flashlight uses 4x AAA alkaline batteries.

1. Unscrew the tail cap of the mini flashlight.
2. Insert the 4x AAA batteries according to the polarity indicators inside the battery compartment.
3. Screw the tail cap back on tightly.

Initial Charge

It is recommended to fully charge the main flashlight before its first use to ensure optimal battery performance.

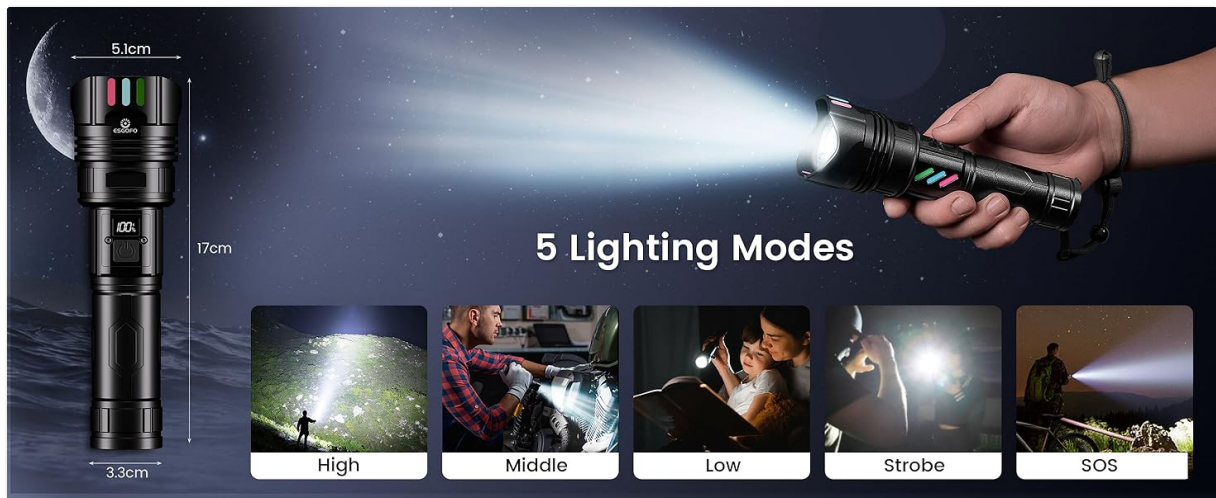

- Connect the provided USB-C cable to the flashlight's USB-C port.
- Connect the other end of the cable to a USB power source (e.g., wall adapter, power bank, laptop).
- The digital display will show the charging progress. Charge until it reaches 100%.

OPERATING INSTRUCTIONS

Power On/Off and Mode Selection

The flashlight features five lighting modes: High, Medium, Low, Strobe, and SOS.

- **To Turn On:** Press the power button once. The flashlight will turn on in the last used mode.
- **To Change Modes:** Press the power button repeatedly to cycle through High → Medium → Low → Strobe → SOS.
- **To Turn Off:** Press and hold the power button for 2 seconds in any mode.

The flashlight offers five versatile lighting modes: High, Medium, Low, Strobe, and SOS, suitable for diverse situations from outdoor activities to emergency signaling.

Adjustable Focus (Zoom Function)

The flashlight features a zoomable design, allowing you to adjust the beam from a wide floodlight to a narrow spotlight.

- **To Adjust Focus:** Gently pull the head of the flashlight outwards for a narrow, long-range beam, or push it inwards for a wide beam that illuminates a larger area.

The flashlight features an adjustable focus, allowing you to switch between a wide beam for illuminating large areas and a

narrow, concentrated beam for long-distance visibility up to 1 kilometer.

Digital Power Display

The integrated LCD screen displays the remaining battery power as a percentage, allowing you to monitor battery status and recharge in time.

Mini Flashlight Operation

The included mini flashlight operates independently. Press the button to turn it on/off and cycle through its modes (if applicable).

The package includes a versatile mini flashlight, suitable for various uses such as hands-free lighting when clipped to a hat, or for easy carrying in a pocket or on a belt.

CHARGING AND POWER BANK FUNCTION

Charging the Main Flashlight

The main flashlight is equipped with a USB-C charging port for fast and safe recharging.

- Open the protective cover of the USB-C port.

- Connect the provided USB-C cable to the flashlight and a compatible USB power source.
- The digital display will show the charging status. A full charge typically takes 3-5 hours.
- Once fully charged, disconnect the cable and securely close the USB port cover.

Power Bank Function (USB Discharge)

The flashlight can also serve as a power bank to charge other devices in emergencies.

- Open the protective cover of the USB-A discharge port.
- Connect your device's charging cable to the flashlight's USB-A port.
- The flashlight will begin charging your device.
- Remember to close the USB port cover after use.

The flashlight features both USB-C input for charging its internal battery and a USB-A output, allowing it to function as a portable power bank for other devices.

MAINTENANCE

Proper maintenance ensures the longevity and performance of your flashlight.

- **Cleaning:** Wipe the flashlight body with a soft, damp cloth. Do not use abrasive cleaners or solvents. Keep the lens clean for optimal light output.
- **Battery Care:** For best battery life, avoid fully discharging the battery frequently. Recharge the battery regularly, even if the flashlight is not used for extended periods (e.g., every 3-6 months).
- **Storage:** Store the flashlight in a cool, dry place away from direct sunlight and extreme temperatures. If storing for a long time, consider removing the rechargeable battery.
- **Waterproof Seal:** Ensure all caps and port covers are tightly sealed to maintain the flashlight's waterproof integrity.

Built to withstand challenging conditions, the flashlight is waterproof and provides a long-lasting battery life of 5-10 hours, with a clear digital display for remaining power.

TROUBLESHOOTING

If you encounter any issues with your ESGOFO flashlight, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Flashlight does not turn on.	Battery is dead or incorrectly installed.	Charge the battery. Ensure the battery is inserted with correct polarity and the tail cap is tightened.
Light output is dim.	Low battery level.	Recharge the battery fully.
Flashlight does not charge.	Faulty cable or power source; USB-C port obstruction.	Try a different USB-C cable and power source. Check the USB-C port for debris.
Power bank function not working.	Flashlight battery too low; device not compatible; faulty cable.	Ensure flashlight battery is sufficiently charged. Try a different USB-A cable or device.
Zoom function is stiff.	Dirt or debris in the mechanism.	Clean the exterior of the flashlight. Do not force the mechanism.

If the problem persists after trying these solutions, please contact customer support.

SPECIFICATIONS
