Setup

Package Contents

Upon opening your TracFone Nokia 2760 Flip package, you should find the following items:

- Phone
- Charger

- Activation Guide
- Cable

Initial Activation

To activate your phone, refer to the included Activation Guide. You can typically activate your phone online at Tracfone.com or by calling 1-800-867-7183. For information on adding an auto refill option, visit Tracfone.com.

Operating Instructions

Basic Phone Functions

The Nokia 2760 Flip features a traditional physical keypad for dialing and navigation. The large buttons are designed for ease of use. The phone supports standard call and text messaging functions.

Display and Navigation

The Nokia 2760 Flip features a 2.8-inch main display and an external display for notifications. Navigation is primarily done using the physical keypad and directional buttons.

Camera Usage

Equipped with a 5MP rear camera and built-in flash, the Nokia 2760 Flip allows you to capture moments. The camera interface is straightforward for taking photos and videos.

Connectivity

The phone supports 4G connectivity, allowing for faster web browsing and email access. It also includes Wi-Fi and Bluetooth capabilities for broader connectivity options.

Preloaded Applications

The Nokia 2760 Flip comes with preloaded applications such as a web browser and email client. It runs on KaiOS 3.0, offering a simplified smartphone-like experience.

Your browser does not support the video tag.

Maintenance

Battery Life and Charging

The phone is powered by a 1500 mAh Lithium Polymer battery. It offers approximately 3.8 hours of talk time and up to 21.4 days of standby time. Use the provided charger and cable for optimal charging.

Storage

The Nokia 2760 Flip has 4GB of built-in memory. For additional storage, the phone supports expandable memory via a MicroSD card (not included).

Troubleshooting

For common issues such as activation problems or service inquiries, it is recommended to contact TracFone customer support directly. Ensure your phone is charged and has active service for proper functionality.
