

HOTO HOTO Cordless Hot Glue Gun

HOTO Cordless Hot Glue Gun and Glue Sticks User Manual

Model: HOTO Cordless Hot Glue Gun

1. PRODUCT OVERVIEW

The HOTO Cordless Hot Glue Gun is a versatile tool designed for various applications including crafting, artwork, home repairs, and decorating. It offers a cordless design for enhanced portability and ease of use. The accompanying HOTO hot glue sticks are made from safe, eco-friendly resin and are available in multiple colors.

2. SAFETY INSTRUCTIONS

- Always keep the hot glue gun away from children.
- Do not touch the nozzle or melted glue directly as they can cause burns.
- Ensure the work area is well-ventilated.
- Do not use the glue gun near flammable materials.
- Unplug or turn off the device when not in use or before cleaning.
- Only use HOTO-approved glue sticks to ensure optimal performance and safety.

3. SETUP

3.1 Charging the Device

The HOTO Cordless Hot Glue Gun features a high-capacity 2000mAh lithium battery and a universal Type-C charging interface. To charge, connect a compatible USB-C cable to the charging port located at the base of the handle. The device can provide continuous glue flow for up to 328 feet when fully charged.

Image 3.1: Charging port and battery specifications.

3.2 Inserting Glue Sticks

1. Ensure the glue gun is turned off.
2. Insert a HOTO mini-sized glue stick (0.27-inch diameter x 5-inch length) into the circular opening at

the rear of the glue gun.

3. Push the glue stick gently until it is seated properly.

4. OPERATING INSTRUCTIONS

4.1 Powering On and Preheating

1. Press and hold the power button located on the top of the glue gun.
2. The indicator light will begin flashing white, signifying that the device is preheating.
3. The glue gun warms up quickly, typically within 30 seconds. Once the light stops flashing and

remains solid white, the device is ready for use.

4.2 Applying Glue

To dispense glue, gently press the fan-shaped trigger. The highly thermally conductive brass nozzle ensures a stable and continuous flow of glue, making it suitable for precise applications.

Compact in Size, All in One Hand

A light press on the fan-shaped trigger bring the continuous glue-flow.

4.3 Intelligent Temperature Control and Auto Shut-off

The glue gun is equipped with an intelligent control chip and MCH system to maintain optimal heating temperature, preventing overheating and excessive glue melting. For safety and energy conservation, the device will automatically power off if it remains inactive for more than 5 minutes.

5. MAINTENANCE

- **Cleaning:** Ensure the glue gun is turned off and completely cooled before cleaning. Gently wipe the exterior with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Nozzle Care:** Avoid picking at dried glue on the nozzle when it is hot. Allow it to cool, then carefully remove any excess glue.
- **Storage:** Store the glue gun in a dry, cool place, away from direct sunlight and extreme temperatures. Always place the protective cap over the nozzle when storing to prevent accidental damage or drips.

6. TROUBLESHOOTING

- **Glue Gun Not Heating:**
 - Ensure the device is fully charged.
 - Verify the power button has been pressed and held until the indicator light is solid white.
 - **Glue Not Flowing:**
 - Check if a glue stick is properly inserted and fully advanced into the heating chamber.
 - Allow sufficient preheating time (approx. 30 seconds).
 - Ensure the trigger is being pressed firmly.
 - **Glue Dripping Excessively:**
 - The intelligent temperature control system is designed to minimize dripping. If dripping occurs, ensure the device is not left on for extended periods without use.
 - Always use the protective cap when the gun is not actively dispensing glue.
 - **Device Shuts Off Unexpectedly:**
 - This is a safety feature. The glue gun automatically powers off after 5 minutes of inactivity. Simply press the power button to restart.
-

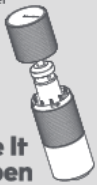

7. SPECIFICATIONS

- **Model:** HOTO Cordless Hot Glue Gun
 - **Manufacturer:** HOTO
 - **Battery:** 2000mAh Lithium-ion
 - **Charging Interface:** USB Type-C
 - **Preheating Time:** Approximately 30 seconds
 - **Glue Stick Diameter:** 0.27 inches (7mm)
 - **Automatic Shut-off:** After 5 minutes of inactivity
 - **Glue Stick Material:** Eco-friendly resin
