Braun BC17G

Braun Classic Large Analogue Wall Clock User Manual

Model: BC17G

1. INTRODUCTION

Thank you for purchasing the Braun Classic Large Analogue Wall Clock. This manual provides essential information for the safe and efficient use of your new clock. Please read it thoroughly before installation and operation, and retain it for future reference.

2. SAFETY INFORMATION

- **Battery Safety:** Use only the specified battery type (1 x AA). Ensure correct polarity (+/-) when inserting batteries. Do not mix old and new batteries, or different types of batteries. Remove exhausted batteries promptly to prevent leakage and damage. Dispose of batteries according to local regulations.
- **Placement:** Avoid placing the clock in direct sunlight, near heat sources, or in areas with extreme temperature fluctuations, as this may affect accuracy and longevity.
- **Cleaning:** Do not use abrasive cleaners or solvents. Wipe with a soft, dry cloth.
- **Handling:** The clock features a semi-tempered glass lens. Handle with care to prevent breakage.

3. PACKAGE CONTENTS

Please check that all items are present and in good condition:

- 1 x Braun Classic Large Analogue Wall Clock (Model BC17G)
- 1 x User Manual

Note: 1 x AA battery is required for operation and is not included in the package.

4. SETUP

4.1 Battery Installation

1. Locate the battery compartment on the back of the clock.
2. Insert one (1) AA battery, ensuring the positive (+) and negative (-) terminals align correctly with the markings inside the compartment.
3. Close the battery compartment cover securely.

4.2 Setting the Time

1. On the back of the clock, locate the time setting knob/wheel.
2. Gently turn the knob/wheel in either direction to move the hour and minute hands to the correct time.
3. The silent sweep second hand will begin to move once the battery is correctly installed and the time is set.

4.3 Mounting the Clock

The Braun Wall Clock is designed for wall mounting. It features a keyhole slot on the back for easy hanging.

- Choose a suitable location on a wall, ensuring it is sturdy enough to support the clock's weight.
- Install a screw or hook into the wall, leaving a small portion protruding to engage with the keyhole slot.
- Carefully hang the clock onto the screw/hook, ensuring it is securely seated.

5. OPERATING INSTRUCTIONS

5.1 Silent Sweep Movement

The Braun Wall Clock features a silent sweeping second hand, providing a continuous, non-ticking motion. This ensures a quiet environment, ideal for bedrooms, offices, or any space where silence is preferred.

Quiet Movement.

Silent sweeping second hand with 'floating' effect (Non-tick).

5.2 Easy to Read Dial

The clock is designed with an easy-to-read dial layout, featuring contrasting hour and minute hands for clear legibility from a distance. The minimalist design ensures that time-telling is straightforward and efficient.

Easy to read dial.

Image: A close-up of the clock face, illustrating the clear and legible dial layout with distinct hour and minute markers, accompanied by a magnifying glass icon.

5.3 Quartz Movement

The clock utilizes a precise quartz movement to ensure accurate timekeeping. While highly accurate, minor deviations over long periods are normal for quartz clocks.

6. MAINTENANCE

6.1 Cleaning

To clean the clock, gently wipe the surface and the semi-tempered glass lens with a soft, dry, lint-free cloth. Do not use liquid cleaners, sprays, or abrasive materials, as these can damage the finish or the movement.

Shatter proof glass.

Semi-tempered glass.

6.2 Battery Replacement

When the clock stops or the second hand's movement becomes erratic, it is time to replace the battery. Follow the steps in Section 4.1 for battery installation. Ensure you use a fresh AA battery.

7. TROUBLESHOOTING

• Clock not running:

- Check if the battery is inserted correctly with the correct polarity.
- Replace the battery with a new AA battery.
- Ensure the time setting knob is not stuck or obstructed.

• Time inaccuracy:

- While quartz movements are highly accurate, minor time deviations (e.g., gaining or losing a minute per month) can occur. This is generally within acceptable limits for a quartz clock.
- Ensure the clock is not exposed to extreme temperatures or strong magnetic fields, which can affect accuracy.

8. SPECIFICATIONS

Brand	Braun
Model Number	BC17G
Color	Gray
Display Type	Analog
Special Feature	Silent Clock
Product Dimensions	11.81"W x 11.81"H (30cm x 30cm)
Power Source	Battery Powered
Material	Tempered Glass
Frame Material	Glass
Item Weight	0.035 ounces (approx. 1 gram)
Batteries Required	1 x AA (not included)
Mounting Type	Wall Mount
