The frames are equipped with demo lenses for display purposes, which should be replaced with your prescription lenses.

3.1 Initial Inspection

Carefully remove the eyeglasses from their packaging. Inspect the frames for any visible damage or manufacturing defects. If you notice any issues, please contact your retailer immediately.

3.2 Lens Installation

Take your Oakley Airdrop OX8046 frames to a certified optician for professional installation of your prescription lenses. The optician will ensure proper fit and alignment within the frame.

3.3 Fitting

Once your prescription lenses are installed, your optician will adjust the frames to ensure a comfortable and secure fit. Oakley's Three-Point Fit system is designed to hold the lenses in precise optical alignment while eliminating pressure points common with frames that hook the ears.

4. Operating (Usage)

Wearing your Oakley Airdrop OX8046 eyeglasses is straightforward. Place the frames on your face, ensuring the nose pads rest comfortably on your nose bridge and the temples extend over your ears without causing discomfort. The lightweight O Matter material provides all-day comfort.

4.1 Everyday Use

These eyeglasses are designed for daily wear, providing clear vision and a stylish appearance. The durable construction makes them suitable for various activities, from professional settings to casual outings.

4.2 Lens Protection

While the frames are robust, always handle your eyeglasses with care to protect your prescription lenses from scratches or damage. Avoid placing them face down on hard surfaces.

5. Maintenance

Proper maintenance will extend the life and maintain the clarity of your Oakley Airdrop OX8046 eyeglasses.

5.1 Cleaning Instructions

To clean your eyeglasses:

1. Rinse the lenses and frames under lukewarm running water to remove any loose dirt or dust.
2. Apply a small drop of mild dish soap to each lens.
3. Gently rub the lenses and frame with your fingertips.
4. Rinse thoroughly to remove all soap residue.
5. Dry the lenses and frame with the included Oakley microfiber bag or a clean, soft, lint-free cloth. Do not use paper towels or rough materials, as they can scratch the lenses.

5.2 Storage

When not in use, store your eyeglasses in the provided microfiber pouch or a hard case to protect them from scratches and impacts. Avoid leaving them in direct sunlight or extreme temperatures, such as on a car dashboard, as this can damage the frame material.

5.3 Leash Use

Utilize the included Oakley eyewear leash to keep your eyeglasses secure around your neck when not actively wearing them, preventing accidental drops or loss.

6. Troubleshooting

This section addresses common concerns you might encounter with your eyeglasses.

6.1 Loose Screws

If the screws on the hinges become loose, gently tighten them with a small eyewear screwdriver. Avoid overtightening, which can strip the screws or damage the frame.

6.2 Frame Discomfort

If the frames feel uncomfortable or misaligned, it is recommended to visit your optician for professional adjustment. Attempting to bend or adjust the O Matter frame yourself may cause damage.

6.3 Lens Clarity Issues

If your lenses appear smudged or unclear after cleaning, ensure you are using a clean microfiber cloth and mild soap. Persistent issues may indicate lens damage or require professional cleaning by an optician.
