# Yaheetech Hammock with Stand User Manual

Model: YA-00113879

## INTRODUCTION

---

This manual provides essential information for the safe and effective use, assembly, and maintenance of your Yaheetech Hammock with Stand. Please read these instructions carefully before assembly and use to ensure proper operation and longevity of your product. This hammock set is designed for relaxation and comfort in various outdoor and indoor settings.

Figure 1: Complete Yaheetech Hammock with Stand, including the hammock fabric, metal frame, and two carrying bags.

## SAFETY INSTRUCTIONS

---

- **Weight Capacity:** Do not exceed the maximum weight capacity of 205 kg (approximately 450 lbs). This hammock is designed to comfortably accommodate 2 to 3 persons within this limit. Overloading can lead to structural failure and injury.
- **Stable Surface:** Always set up the hammock on a flat, stable, and level surface to prevent tipping. Ensure all feet are firmly on the ground.
- **Assembly:** Ensure all components are correctly assembled and securely fastened before use. Refer to the "Setup" section for detailed instructions.
- **Children and Pets:** Keep children and pets supervised around the hammock. Do not allow them to play unsupervised on or around the hammock.
- **Inspection:** Regularly inspect the hammock fabric, ropes, and metal frame for any signs of wear, damage, or

corrosion. Discontinue use if any damage is found and replace affected parts immediately.

- **Weather Conditions:** While the hammock is designed to be weather-resistant, prolonged exposure to extreme weather conditions (heavy rain, strong winds, direct sunlight) can reduce its lifespan. Store the hammock in its carrying bag during adverse weather or when not in use for extended periods.
- **Entry and Exit:** Enter and exit the hammock carefully. Avoid sudden movements or jumping into the hammock.
- **Foot Protection:** The stand features protective caps on each foot to enhance stability and prevent floor scratches. Ensure these caps are in place during use.

### PARTS LIST

Before assembly, verify that all parts are present and undamaged. If any parts are missing or damaged, please contact customer support.

Part	Description	Quantity
Hammock Fabric	Striped polyester-cotton blend fabric, 196 cm L x 147 cm W.	1
Metal Frame Components	Various metal tubes and connectors forming the hammock stand.	1 set
Adjustable Knobs	Knobs for securing the adjustable length of the frame.	Multiple
Protective Foot Caps	Plastic caps for the base of the stand to prevent scratches and enhance stability.	4
Hammock Storage Bag	Bag for storing the hammock fabric.	1
Frame Carrying Bag	Bag with handle for transporting the disassembled metal frame.	1

## SETUP INSTRUCTIONS

Assembly of the Yaheetech Hammock with Stand is designed to be straightforward and does not require special tools. Follow these steps:

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface. Verify all parts listed in the "Parts List" section are present.
2. **Assemble Base Frame:** Connect the horizontal base bars of the metal frame. Ensure the connections are secure and stable. The design allows for easy interlocking.
3. **Attach Upright Supports:** Insert the two curved upright support poles into the designated slots on the base frame. Ensure they are fully seated and stable.
4. **Connect Adjustable Bar:** Connect the adjustable horizontal bar between the two upright supports. This bar allows for length adjustment.
5. **Adjust Length:** Use the adjustable knobs on the horizontal bar to select your desired hammock length (294

cm, 304 cm, or 314 cm). Tighten the knobs firmly to secure the chosen length.

6. **Attach Hammock Fabric:** Hook the loops of the hammock fabric onto the metal hooks at the top of each upright support. Ensure the hammock is evenly stretched and securely attached.
7. **Final Check:** Before first use, gently test the hammock for stability and ensure all connections are tight and secure.

Figure 3: The adjustable length mechanism allows for three different lengths (294 cm, 304 cm, 314 cm) to suit various preferences and spaces.

## OPERATING INSTRUCTIONS

Using your Yaheetech Hammock is simple, but always prioritize safety and comfort:

- **Entering the Hammock:** Approach the hammock from the center. Sit down slowly, distributing your weight evenly. Avoid jumping or sudden movements.
- **Exiting the Hammock:** Shift your weight towards the edge, place your feet on the ground, and stand up slowly.
- **Adjusting Length:** If you wish to change the hammock's length, ensure no one is in the hammock. Loosen the adjustable knobs, slide the bar to the desired position (294 cm, 304 cm, or 314 cm), and firmly retighten the knobs.
- **Capacity:** The hammock is designed for 2 to 3 people, with a maximum weight capacity of 205 kg. Do not exceed this limit.
- **Versatile Use:** This hammock is suitable for both indoor and outdoor use. When used outdoors, consider

placing it in a shaded area for comfort and to prolong fabric life.

Figure 5: The hammock provides a comfortable and relaxing experience, suitable for various environments like beaches or gardens.

Figure 6: The hammock's design allows for comfortable use in indoor settings, providing a relaxing spot within your home.

## MAINTENANCE

---

Proper maintenance will extend the life and appearance of your hammock:

- **Cleaning Fabric:** The polyester-cotton blend fabric can be spot cleaned with mild soap and water. For deeper cleaning, the hammock fabric can be removed from the stand and hand washed. Allow it to air dry completely before reattaching or storing. Do not use harsh chemicals or bleach.
- **Cleaning Frame:** Wipe the metal frame with a damp cloth to remove dirt and dust. For stubborn grime, use a mild detergent. Dry thoroughly to prevent rust.
- **Storage:** When not in use, especially during off-season or prolonged periods, disassemble the hammock and store it in its provided carrying bags. Store in a cool, dry place away from direct sunlight and extreme temperatures.
- **Regular Inspection:** Periodically check all bolts, screws, and connections to ensure they are tight. Inspect the hammock fabric for tears, fraying, or weakening of the ropes. Inspect the metal frame for any signs of rust, bends, or cracks.

## TROUBLESHOOTING

Here are some common issues and their solutions:

Problem	Possible Cause	Solution
Hammock feels unstable or wobbly.	Uneven ground; loose connections; incorrect assembly.	Ensure the hammock is placed on a flat, level surface. Check all frame connections and tighten any loose knobs or bolts. Review "Setup Instructions" to confirm correct assembly.
Difficulty adjusting hammock length.	Knobs are too tight; mechanism is jammed.	Ensure the adjustable knobs are fully loosened. If jammed, gently wiggle the bar while attempting to adjust. Do not force.
Hammock fabric appears stretched or damaged.	Overloading; prolonged exposure to elements; normal wear and tear.	Ensure weight capacity is not exceeded. Store hammock when not in use to protect from elements. If significantly damaged, replace the hammock fabric.
Metal frame shows signs of rust.	Exposure to moisture; improper storage.	Clean and dry the frame thoroughly after exposure to moisture. Store in a dry environment. Light rust can be treated with rust remover and a protective coating.

## SPECIFICATIONS

Feature	Detail
Brand	Yaheetech
Model Number	YA-00113879
Color	Desert Stripe
Material	Metal, Polyester, Fabric (Polyester-Cotton Blend)
Overall Dimensions (L x W x H)	314 x 99 x 105.5 cm (approx. 3.14 x 0.99 x 1.05 meters)
