AMKI Star + Aurora Projector User Manual

Model: 738088171533 | Brand: AMKI

INTRODUCTION

The AMKI Star + Aurora Projector is a versatile 2-in-1 device designed to transform any room into a captivating celestial experience. It combines Northern Lights aurora effects with a starry night sky projection, offering 15 distinct lighting modes. Beyond its visual capabilities, the projector features a built-in Bluetooth 5.0 speaker for audio playback and sound-activated light synchronization. It also includes a convenient timer function for automatic shut-off and is controlled via a multi-function remote. This product is ideal for creating a relaxing ambiance, enhancing home theater experiences, or adding a unique decorative touch to bedrooms, game rooms, and event spaces.

Video: An overview of the AMKI Star + Aurora Projector's features and unboxing. This video demonstrates the various lighting effects and shows the components included in the package.

SETUP

1. **Unpack:** Carefully remove all components from the packaging.
2. **Assemble:** Place the projector unit onto its designated base/stand.
3. **Power Connection:** Connect the provided USB power cable to the projector's power input port. For optimal performance and brightness, use a 5-volt, 2-amp USB wall charger (not included). Using a charger with lower amperage may result in reduced brightness, while a stronger charging block could potentially damage the unit.
4. **Placement:** Position the projector on a flat, stable surface. For best projection results, place it in a dark room, ideally projecting onto a light-colored ceiling or wall. The projection area can cover 20-80m² (215 ft² - 861 ft²).
5. **Remote Control:** Ensure the remote control has working batteries (not included).

OPERATING INSTRUCTIONS

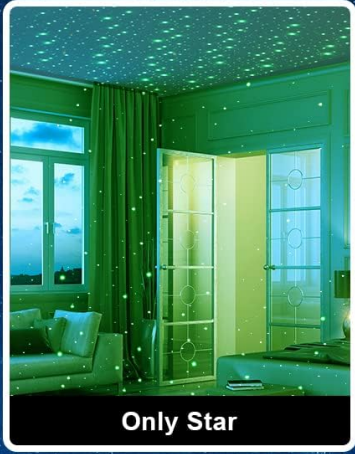

Power On/Off

Press the power button on the remote control or the main unit to turn the projector on or off.

Projection Modes

The projector offers a 2-in-1 lighting effect with Northern Lights aurora and LED stars. Use the remote control to switch between the following modes:

- **Only Star:** Projects only the starry night sky.
- **Only Galaxy:** Projects only the aurora/galaxy light.
- **Milky Way with Star:** Projects both the aurora/galaxy light and the starry night sky simultaneously.

Bluetooth Speaker Function

The projector features a built-in Bluetooth 5.0 speaker. To connect your device:

1. Ensure the projector is powered on.
2. Activate Bluetooth on your smartphone or other audio device.
3. Search for "AC6926" (or similar model name) in your device's Bluetooth settings.
4. Pair with the projector. Once connected, you can play music through the projector's speaker.

The lights can sync with the music, creating a dynamic visual and auditory experience.

Timer Function

Set the projector to automatically turn off after a specified duration:

- Press the "1H" button for 1 hour auto-off.
- Press the "2H" button for 2 hours auto-off.
- The projector will also automatically turn off after 4 hours of continuous use if no timer is set.

Image: The timer function highlighted, showing its applicability for various users like babies, kids, adults, and elderly for sleep or relaxation.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the projector. Do not use liquid cleaners or abrasive materials.
- **Lens Care:** Gently wipe the projection lens with a microfiber cloth to ensure clear projection. Avoid touching the lens directly with fingers.
- **Storage:** When not in use, store the projector in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Projector does not turn on.	No power, loose connection, faulty adapter.	Check power cable connection. Ensure USB adapter is working and meets 5V/2A requirements. Try a different power outlet.
Projection is dim or unclear.	Insufficient power, dirty lens, too much ambient light.	Use a 5V/2A USB power adapter. Clean the projection lens. Operate in a darker environment.
Bluetooth connection issues.	Device not in pairing mode, too far from projector, interference.	Ensure projector is on and Bluetooth is active. Move device closer to projector. Disconnect other Bluetooth devices. Restart both devices.
Remote control not working.	Dead batteries, obstruction, not pointed at sensor.	Replace batteries. Ensure no obstructions between remote and projector. Point remote directly at the projector's IR sensor.
Projection not covering desired area.	Incorrect placement, room size.	Adjust the projector's distance from the projection surface. Ensure the room size is within the 20-80m ² (215-861 ft ²) recommended range.

SPECIFICATIONS

Feature	Detail
Brand	AMKI
Model Number	738088171533
Color	Black
Shape	Round
Material	Safety plastic material
Light Source Type	LED
Power Source	Corded Electric
Item Weight	12.8 ounces
Voltage	240 Volts (Input, typically USB powered)
Wattage	10 Watts
Product Dimensions	5.2"L x 5.2"W x 4.92"H
Projection Area	20-80m ² (215 ft ² - 861 ft ²)
Bluetooth Version	5.0
Certifications	FCC, RoHS, CE

WARRANTY AND SUPPORT

This product is designed and manufactured to high-quality standards. While specific warranty details are not provided in the product information, the device is FCC, RoHS, and CE certified, ensuring compliance with safety and environmental standards.
