OPERATING INSTRUCTIONS

Adjusting the Backrest

The backrest of your tectake Cassis Wicker Lounger can be adjusted to 6 different positions to suit your comfort and the sun's angle. To adjust:

1. Gently lift the backrest to disengage it from its current position.
2. Move the backrest to the desired angle. The mechanism will click into place at each of the 6 predefined positions (0°, 20°, 30°, 40°, 50°, 60°).
3. Ensure the backrest is securely locked in position before leaning on it.

MAINTENANCE AND CARE

- **Cleaning the Wicker Frame:** Wipe the wicker frame with a damp cloth and a mild soap solution. Rinse with clean water and dry thoroughly. Avoid harsh chemicals or abrasive cleaners.
- **Cushion Care:** The cushion cover is made of 100% polyester and is removable. It can be cleaned according to its care label, typically spot cleaning or hand washing with mild detergent. Ensure the cushion is completely dry before storing to prevent mildew.
- **Weather Protection:** While suitable for outdoor use, prolonged exposure to extreme weather conditions (heavy rain, strong sun, frost) can affect the product's lifespan and color. We recommend using a protective cover when not in use or storing indoors during off-season.
- **Regular Inspection:** Periodically check all bolts and screws to ensure they remain tight. Tighten if necessary.
