24 Hour Crafts Unfinished Wood Pig Shape Craft Manual (24" x 1/4" Thick)

Model: 11042-001-24-0250-00

PRODUCT OVERVIEW

This manual provides instructions for the 24 Hour Crafts Unfinished Wood Pig Shape Craft. This product is a precisely cut pig-shaped piece of birch plywood, designed for various DIY crafting projects. It arrives sanded and ready for customization.

Image 1: The unfinished wood pig shape craft piece, showcasing its natural wood grain and smooth finish.

SETUP AND PREPARATION

Before beginning your craft project, ensure your workspace is clean, well-lit, and adequately ventilated. Gather all necessary crafting supplies, such as paints, stains, brushes, and protective coatings. The wood piece is sanded and ready for immediate use, but a light sanding with fine-grit sandpaper (220-grit or higher) can be performed for an even smoother finish, if desired.

- **Workspace:** Prepare a clean, dry, and well-ventilated area.
- **Materials:** Have all desired paints, stains, sealants, and tools ready.
- **Protection:** Consider using a drop cloth or newspaper to protect your work surface.

Usage Instructions

This unfinished wood pig shape is versatile for various craft applications. Its smooth surface is suitable for painting, staining, wood burning, decoupage, or applying other decorative elements.

1. **Cleaning:** Wipe the wood surface with a dry cloth to remove any dust or debris before applying finishes.
2. **Painting/Staining:** Apply your chosen paint or stain according to the product manufacturer's instructions. Multiple thin coats are often preferable to one thick coat for a smoother finish and to prevent warping. Allow adequate drying time between coats.
3. **Sealing:** Once decorated, apply a clear sealant or varnish to protect the finish and enhance durability. This is especially recommended if the item will be exposed to moisture or frequent handling.
4. **Adornments:** If adding embellishments like glitter, fabric, or other small items, use appropriate craft adhesive.

Maintenance and Care

To ensure the longevity of your finished craft piece, follow these care guidelines:

- **Cleaning:** For finished pieces, gently wipe with a dry or slightly damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store unfinished wood pieces in a dry environment away from extreme temperature fluctuations or high humidity to prevent warping or cracking.
- **Protection:** Keep finished items out of direct sunlight for prolonged periods to prevent fading of colors or finishes.

Troubleshooting

Issue	Possible Cause	Solution
Wood Warping	Exposure to excessive moisture or rapid temperature changes.	Store wood in a stable, dry environment. Apply finishes evenly to both sides to balance moisture absorption.
Rough Surface After Painting	Dust on surface, insufficient sanding, or thick paint application.	Ensure surface is clean before painting. Lightly sand between coats. Apply thinner coats of paint.
Splintering	Rough handling or natural wood characteristics.	Handle with care. A light sanding of edges can help.

Specifications

Brand: 24 Hour Crafts
Model Number: 11042-001-24-0250-00
Material: Birch Plywood

Shape: Pig

Dimensions: Approximately 24 inches (length/width, depending on orientation) x 1/4 inch (thickness)

Finish: Unfinished, sanded natural wood with lightly burned laser-cut edges.

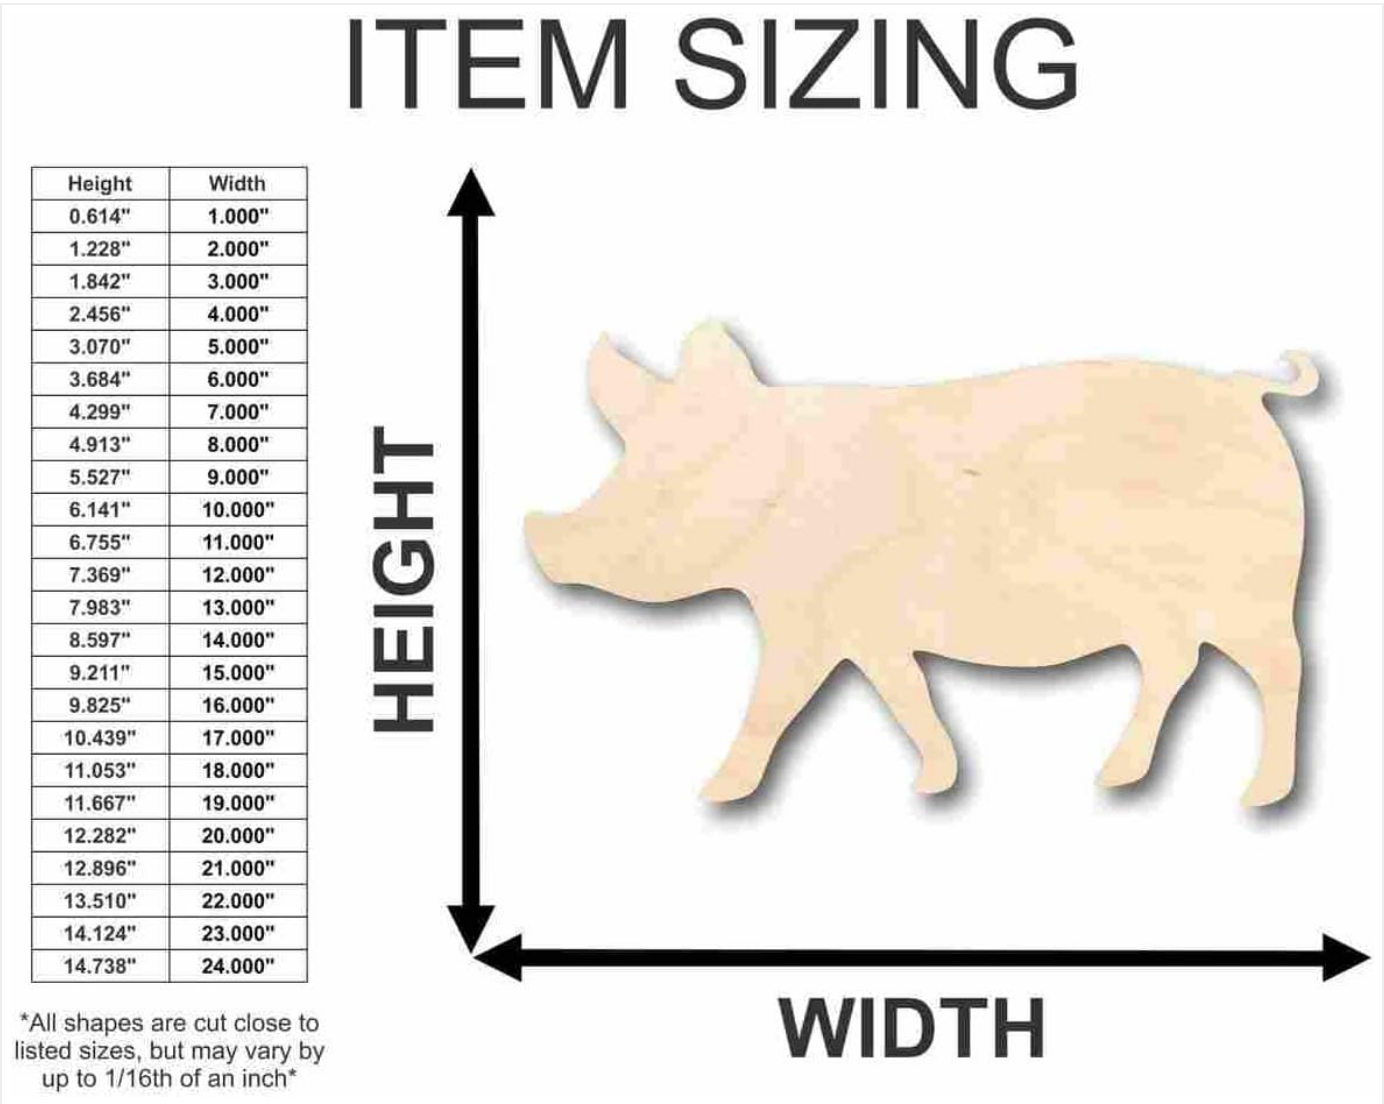

Image 2: Item sizing diagram illustrating how height and width measurements are applied to the pig shape, with a note about cut tolerance.
