

FITUEYES DS210008WG

FITUEYES Floating TV Stand Shelves (Model DS210008WG) Instruction Manual

This manual provides essential information for the safe assembly, installation, and maintenance of your FITUEYES Floating TV Stand.

1. SAFETY INFORMATION

Important safety guidelines to ensure proper use and prevent accidents:

- Do not exceed the maximum weight capacity of 55 lbs (25 kg) for the top shelf and 33 lbs (15 kg) for the lower compartments. Overloading can cause the unit to fail.
- Ensure the shelf is securely wall-mounted according to the provided instructions. Improper installation can lead to instability, product damage, and potential injury.
- Always use appropriate tools and hardware for your specific wall type (e.g., concrete, wood studs). If unsure, consult a professional installer.

2. PRODUCT OVERVIEW

The FITUEYES Floating TV Stand (Model DS210008WG) is a wall-mounted media console designed to save floor space and organize your entertainment components. It features a two-tier design with three storage compartments and integrated wire management.

2.1. Dimensions and Weight Capacity

Understand the physical dimensions and load limits of your TV stand to ensure proper fit and safe usage.

Detailed diagram showing the dimensions of the floating TV stand: 39.4 inches (100.1 cm) length, 11.8 inches (30 cm) depth, and 6.9 inches (17.5 cm) height. Maximum weight capacity is 55 lbs (25 kg).

3. SETUP AND INSTALLATION

3.1. Assembly

The TV stand requires assembly. Follow the step-by-step instructions and diagrams included in the product packaging. Ensure all components are present before beginning assembly.

3.2. Wall Mounting

This unit is designed for wall mounting. Proper installation is crucial for stability and safety. Incorrect installation can lead to the unit falling.

- **Identify Wall Type:** Determine if your wall is concrete, drywall with wood studs, or another material. This will dictate the type of mounting hardware required.
- **Stud Alignment:** The pre-drilled mounting holes on the stand are typically 16 inches apart, which is suitable for standard wood stud spacing. If your wall studs are spaced differently (e.g., 24 inches), you may need to drill new holes in the TV stand to align with your studs for secure mounting. Always measure carefully before drilling.
- **Secure Fastening:** Use appropriate wall anchors and screws for your specific wall material. Ensure all fasteners are tightened securely.

4. OPERATING INSTRUCTIONS

4.1. Storage and Organization

The floating TV stand offers ample storage for various media components and accessories, helping to keep your entertainment area tidy.

- The two-tier design includes three generous compartments suitable for routers, set-top boxes, DVD players, CDs, remote controls, game consoles, and decorative items.
- Utilize the side storage areas for smaller items or media that you wish to keep easily accessible.

5. MAINTENANCE

To maintain the appearance and longevity of your FITUEYES Floating TV Stand, follow these simple care instructions:

- Wipe the surfaces with a dry cloth to remove dust and debris.
- The particle board construction with a double matte finish is designed to be robust and easy to clean.
- The material is waterproof, allowing for easy cleaning of spills, but avoid prolonged exposure to moisture to prevent damage.

6. TROUBLESHOOTING

This section addresses common concerns you might encounter during the use of your floating TV stand.

6.1. Instability After Installation

If the stand feels unstable or wobbly after installation:

- Re-check all mounting screws and ensure they are tightened securely into the wall studs or appropriate anchors.
- Verify that the wall material is suitable for the chosen mounting hardware.
- Ensure the total weight on the shelf does not exceed the specified capacity. Distribute weight evenly.

6.2. Misaligned Mounting Holes

If the pre-drilled holes on the stand do not align with your wall studs:

- It may be necessary to drill new holes in the TV stand to match your specific stud spacing (e.g., 24 inches). Always measure carefully and use appropriate drilling tools.

- If you are unsure about modifying the product or your wall, consult a professional installer to avoid damage or injury.

7. PRODUCT SPECIFICATIONS

Feature	Detail
Brand	FITUEYES
Model Number	DS210008WG
Color	White&oak
Size	40 inches
Material	Engineered Wood
Item Weight	9.16 Kilograms
Number of Shelves	2
Special Features	Floating, Wall Mounted, Waterproof
