Model: 61349

Brand: Funko

1. PRODUCT OVERVIEW

This manual provides essential information for the care and display of your Funko POP! Star Wars: Visions 504 - Karre Glow in The Dark Special Edition collectible figure. This vinyl figure depicts Karre from the Star Wars: Visions series, featuring a unique glow-in-the-dark element.

Image: The Funko POP! Karre figure, featuring a stylized design with a dark helmet, red accents, and a lightsaber.

Key features include:

- High-quality vinyl construction.
- Glow-in-the-dark feature for specific elements.
- Designed for display and collection.

2. SETUP

Your Funko POP! figure comes pre-assembled and ready for display. No complex setup is required.

1. **Unboxing:** Carefully remove the figure from its packaging. Retain the packaging for future storage or if you prefer to display the figure in its original box.
2. **Placement:** Place the figure on a flat, stable surface away from direct sunlight, extreme temperatures, and high humidity. Ensure it is not in a location where it can be easily knocked over.
3. **Activating Glow Feature:** To activate the glow-in-the-dark effect, expose the figure to a bright light source (e.g., sunlight, fluorescent light, or UV light) for several minutes. The intensity and duration of the glow will depend on the light source and exposure time.

3. OPERATING (DISPLAY AND HANDLING)

This figure is designed for static display. While durable, proper handling ensures its longevity.

- **Handling:** Always handle the figure by its main body or base to avoid stressing smaller, more delicate parts like the lightsaber.
- **Display:** Position the figure in a visible location where its details and glow feature can be appreciated. Consider displaying it alongside other Star Wars collectibles.
- **Movement:** Avoid excessive movement or shaking of the figure, especially the bobblehead, to prevent wear and tear on the spring mechanism.

4. MAINTENANCE

Regular maintenance will help preserve the appearance of your figure.

- **Cleaning:** Dust the figure regularly with a soft, dry cloth or a soft-bristled brush. For stubborn dirt, lightly dampen a cloth with water and gently wipe the surface, then dry immediately. Avoid abrasive cleaners or harsh chemicals.
- **Storage:** If storing the figure, use its original packaging or a protective container to prevent dust accumulation and damage. Store in a cool, dry place.
- **Temperature Control:** Avoid prolonged exposure to high temperatures, as this can cause the vinyl material to soften and delicate parts, such as the lightsaber, to deform. Similarly, extreme cold can make the material brittle.
- **Glow Feature Care:** The glow-in-the-dark properties may diminish over time with continuous exposure to light. For best results, expose to light only when you wish to activate the glow.

5. TROUBLESHOOTING

Common issues and their solutions:

- **Figure Does Not Glow:** Ensure the figure has been exposed to a strong light source for an adequate period (e.g., 5-10 minutes under direct light). The glow is most visible in complete darkness.
- **Bent or Deformed Parts:** Small, flexible parts like the lightsaber may occasionally bend. Gentle application of warm air (e.g., from a hairdryer on a low setting, held at a safe distance) can sometimes allow for careful reshaping. Exercise extreme caution to avoid melting or further damage.
- **Loose Bobblehead:** If the bobblehead becomes loose, ensure the spring mechanism is properly seated. Avoid excessive force when moving the head.
