## SETUP (ASSEMBLY REQUIRED)

---

The HOMCOM Rolling Kitchen Island Cart requires assembly. Please ensure all components are present and undamaged before beginning. It is recommended to assemble the unit on a soft, clean surface to prevent scratches. Follow the step-by-step instructions provided in the packaging for proper construction. If you are missing any parts, please refer to the 'Support' section.

## OPERATING INSTRUCTIONS

---

The kitchen cart is designed for versatile use in your home. Utilize the three smooth-gliding drawers for storing smaller items like utensils or linens. The two slatted shelves are ideal for larger kitchenware, small appliances, or decorative items. The removable serving tray can be easily pulled out for serving food and drinks, then returned for compact storage. For mobility, simply unlock the two braked wheels and push the cart to your desired location. To secure the cart, engage the brakes on the two wheels.

## MAINTENANCE

---

To maintain the appearance and longevity of your HOMCOM Rolling Kitchen Island Cart, follow these care instructions:

- **Cleaning:** Wipe clean with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or scouring pads, as these can damage the finish.
- **Wood Top Care:** Ensure the rubber wood tabletop is kept dry after use to prevent water damage or warping.
- **General Care:** Periodically check all fasteners and tighten them if necessary to ensure stability.

## TROUBLESHOOTING

---

If you encounter issues with your kitchen cart, consider the following:

- **Assembly Difficulty:** If assembly seems complicated or instructions are unclear, double-check that all pieces are correctly identified and oriented according to the diagrams. Sometimes, a small misstep can affect subsequent steps. Ensure all screws are fully tightened but do not overtighten.

- **Drawers Not Sliding Smoothly:** Verify that the drawer slides are installed correctly and are free from obstructions. Ensure the cart is on a level surface. If the issue persists, check if the drawer components were assembled squarely.
- **Cart Instability:** Ensure all assembly fasteners are securely tightened. Check that the wheels are properly installed and that the brakes are engaged when the cart needs to remain stationary. Avoid exceeding the stated weight capacities.
