

## Jon Renau Top Coverage

# Jon Renau SmartLace Topper Monofilament Hairpiece User Manual

Model: Top Coverage 18-inch Length

## 1. INTRODUCTION

---

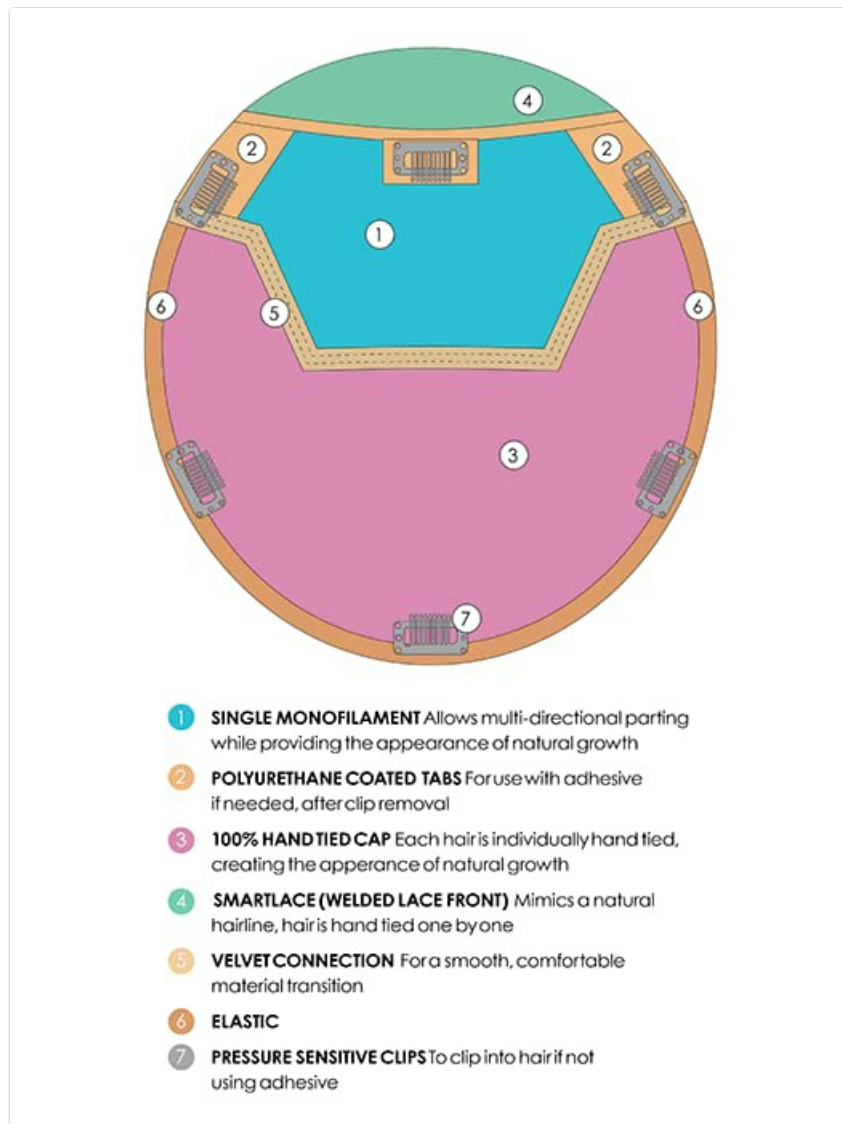

Welcome to the user manual for your Jon Renau SmartLace Topper Monofilament hairpiece. This guide provides essential information for the proper setup, use, and care of your hairpiece to ensure its longevity and your satisfaction. Please read these instructions carefully before initial use.

## 2. PRODUCT FEATURES

---

The Jon Renau SmartLace Topper is designed to provide natural-looking volume and coverage. Key features include:

- **SmartLace (Welded Lace Front):** Mimics a natural hairline, with hair individually hand-tied for a seamless blend.
- **Single Monofilament Top:** The base is hand-knotted, creating the appearance of natural hair growth and allowing for multi-directional parting versatility. It is sheer to blend with various skin tones.
- **100% Hand-Tied Cap:** Each hair is individually hand-tied, contributing to the appearance of natural growth and movement.
- **Polyurethane Coated Tabs:** A polyurethane strip around the perimeter of the base contains pressure-sensitive clips. These clips can be removed if adhesive application is preferred.
- **Pressure Sensitive Clips:** For secure attachment to natural hair.
- **Velvet Connection:** Provides a smooth, comfortable material transition.

**Figure 1:** Diagram illustrating the construction of the Jon Renau SmartLace Topper base, highlighting the monofilament top, lace front, hand-tied cap, polyurethane tabs, and clips.

### 3. SETUP AND APPLICATION

Follow these steps for proper application of your hairpiece:

1. **Prepare Your Hair:** Ensure your natural hair is clean, dry, and styled as desired.
2. **Position the Topper:** Hold the topper with the lace front facing forward. Align the front edge of the topper with your natural hairline.
3. **Secure with Clips:** Open the pressure-sensitive clips on the underside of the topper. Gently slide the clips into your natural hair and press them closed to secure the topper in place. Ensure all clips are firmly attached for a secure fit.
4. **Adjust and Blend:** Once secured, gently adjust the topper to ensure it sits comfortably and blends seamlessly with your natural hair. You can use a wide-tooth comb or your fingers to blend the hairpiece with your own hair.
5. **Optional Adhesive Use:** If you prefer to use adhesive, carefully remove the pressure-sensitive clips from the polyurethane coated tabs. Apply a suitable wig adhesive to the tabs as per the adhesive product's instructions, then press the topper firmly onto your scalp.

## 4. OPERATING (WEARING AND STYLING)

---

Your Jon Renau SmartLace Topper is designed for versatile styling. Here are some guidelines:

- **Parting:** The monofilament top allows for multi-directional parting, enabling you to change your part as desired for different looks.
- **Styling:** As this is a synthetic hairpiece, it retains its style after washing. For minor adjustments, you can use a wide-tooth comb or your fingers. Avoid using heat styling tools unless the product is specifically labeled as heat-friendly synthetic.
- **Blending:** Ensure your natural hair is blended with the topper for a cohesive look. You can use hairspray or styling products designed for synthetic hair to help maintain the blend.

## 5. MAINTENANCE AND CARE

Proper care is crucial for maintaining the quality and lifespan of your synthetic hairpiece:

1. **Washing:** Gently detangle the hairpiece before washing. Use cold water and a shampoo specifically formulated for synthetic hair. Submerge the hairpiece and gently swirl, avoiding scrubbing. Rinse thoroughly.
2. **Conditioning:** Apply a synthetic hair conditioner, avoiding the base to prevent loosening of knots. Rinse thoroughly.
3. **Drying:** Gently blot with a towel to remove excess water. Do not wring or rub. Place the hairpiece on a wig stand or hang it to air dry completely. Do not use a blow dryer or other heat sources.
4. **Storage:** When not in use, store your hairpiece on a wig stand or in its original packaging to maintain its shape and prevent tangling.
5. **Brushing:** Use a wide-tooth comb or a wig brush designed for synthetic hair. Start from the ends and work your way up to the base to prevent damage.

## 6. TROUBLESHOOTING

If you encounter issues with your hairpiece, consider the following:

- **Tangling:** Synthetic hair can tangle over time. Regular gentle brushing and using a leave-in conditioner for synthetic hair can help. Avoid excessive friction.
- **Dullness:** If the hairpiece appears dull, it may be due to product buildup or lack of moisture. Wash with appropriate synthetic hair products and ensure thorough rinsing.
- **Slipping Clips:** Ensure the clips are fully open before inserting into your hair and fully closed once secured. If your natural hair is very fine, you may need to gently backcomb the hair where the clips attach for a firmer grip.

## 7. SPECIFICATIONS

Detailed specifications for the Jon Renau SmartLace Topper Monofilament hairpiece:

Feature	Detail
Model Name	Top Coverage SmartLace Topper Monofilament
Length	18 inches
