Oraimo OEB-E108D

Oraimo Free Pods Pro Headphone User Manual

Model: OEB-E108D

INTRODUCTION

The Oraimo Free Pods Pro are advanced wireless in-ear headphones designed for superior audio experience and convenience. Featuring Bluetooth V5.0 connectivity, these earbuds offer a stable connection and extended playtime. The charging case provides additional battery life, ensuring your music accompanies you throughout the day. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your Free Pods Pro.

SETUP

1. Initial Charging

Before first use, fully charge your Oraimo Free Pods Pro and their charging case. Connect the provided Type-C cable to the charging case and a power source. The indicator lights on the case will show the charging status.

- The headphone case design has 3 small bulbs, which indicate the current charging level of the case.
- Battery Capacity: Earbuds 70mAh, Case 510mAh.
- Case Input: Type-C.

2. Pairing with Your Device

The Free Pods Pro are designed for easy pairing. Follow these steps:

1. Ensure your device's Bluetooth is turned on.
2. Open the charging case. The earbuds will automatically power on and enter pairing mode.
3. On your device, search for "Oraimo Free Pods Pro" in the Bluetooth settings and select it to connect.
4. Once connected, a confirmation sound will play, and the earbuds will be ready for use.

For Android users, the Free Pods Pro support Google Fast Pairing, allowing for quick and seamless connection with compatible Android devices (Android 6.0 and above, with Google Play service enabled).

OPERATING INSTRUCTIONS

1. Active Noise Cancellation (ANC) and Transparency Mode

The Free Pods Pro feature Hybrid ANC for effective noise cancellation, allowing you to immerse yourself in your

audio. They also offer a Transparency mode for ambient awareness, letting you hear your surroundings without removing the earbuds.

2. HavyBass™ Dual EQ Sound Modes

Switch between HavyBass Mode and Normal Mode to tailor the sound effect to your preference. The 8mm drivers are designed to provide pristine and beautiful signature sound.

To switch modes, tap and hold the left earbud until you hear 4 beeps.

HavyBass™ Dual EQ

Premium oraimo Sound

You can switch between HavyBass Mode and Normal Mode to find the suitable sound effect you need in regards to different rhythms and beats. High-efficiency 8mm drivers made with composite diaphragm provide pristine and beautiful signature sound that can only be heard in oraimo FreePods Pro.

Tapez et maintenez sur l'oreillette gauche puis relâchez lorsque vous entendez 4 bips.

HavyBass ⇌ Normal Mode

3. Playtime

- Up to 13 hours of music playtime with ANC OFF.
- The case provides an additional 30 hours of playtime (ANC OFF).
- Up to 9 hours of music playtime with ANC ON.
- The case provides an additional 23 hours of playtime (ANC ON).

MAINTENANCE

1. Cleaning

Regularly clean your Free Pods Pro to ensure optimal performance and hygiene.

- Use a soft, dry, lint-free cloth to wipe the earbuds and charging case.
- For ear tips, remove them and clean with a mild soap solution if necessary, then rinse and dry thoroughly before reattaching.
- Do not use abrasive cleaners or immerse the earbuds or case in water.

2. Storage

Store your Free Pods Pro in their charging case when not in use to protect them and keep them charged.

3. Battery Care

To prolong battery life, avoid exposing the device to extreme temperatures. Charge the device regularly, even if not in frequent use.

TROUBLESHOOTING

If you encounter issues with your Oraimo Free Pods Pro, refer to the common solutions below.

1. Earbuds Not Pairing/Connecting

- Ensure both earbuds are in the charging case and have sufficient charge.
- Turn off and on your device's Bluetooth.
- Forget "Oraimo Free Pods Pro" from your device's Bluetooth list and attempt to pair again.
- Ensure the earbuds are properly seated in the case and the case lid is opened to initiate pairing mode.

2. One Earbud Not Charging or Working

- Check that the earbud is correctly placed in its charging slot in the case.
- Clean the charging contacts on both the earbud and inside the case with a dry cotton swab.
- Ensure the charging case itself is charged.

3. Low Volume or Poor Sound Quality

- Adjust the volume on both your connected device and the earbuds.
- Ensure the ear tips are clean and free of debris.
- Try different sized ear tips to ensure a proper seal in your ear canal.
- Check if the HavyBass™ Dual EQ mode is set to your preference.
