Edearkar LED Underwater Fishing Light User Manual

Brand: Edearkar
Model: YYDY-12-1178

INTRODUCTION

The Edearkar LED Underwater Fishing Light is a compact and effective tool designed to attract fish in various water conditions. Its small size and automatic activation feature make it highly convenient for both fresh and saltwater fishing. These lights act as beacons, enhancing the visibility of your lure and attracting predatory fish from a greater distance. The durable construction ensures reliability even in deep-sea environments.

SETUP

The Edearkar LED Underwater Fishing Light is designed for ease of use with minimal setup required. It features an automatic activation system.

1. **Unpack:** Carefully remove the LED fishing lights from their packaging.
2. **Attachment:** Attach the LED light to your fishing line, lure, or rig using the integrated swivel. Ensure it is securely fastened to prevent loss during use.
3. **Activation:** The light will automatically activate when it comes into contact with water. No manual switching is

required.

Figure 2: Secure Swivel Attachment

The Edearkar LED Underwater Fishing Light is designed for simple and effective operation in various fishing conditions.

- **Automatic Operation:** The light automatically turns on when submerged in water and turns off when removed from water and dried. This feature conserves battery life.
- **Optimal Conditions:** These lights are highly effective in low light conditions, such as dark water, early morning, late evening, and deep water situations, where natural light is scarce.
- **Depth Performance:** The robust design allows the light to function effectively in water depths up to 1000 yards (approximately 914 meters), making it suitable for deep-sea fishing.
- **Battery Life:** Each light provides up to 350 hours of continuous operation in both salt and fresh water, ensuring long-lasting performance.

MAINTENANCE

Proper maintenance will ensure the longevity and optimal performance of your Edearkar LED Underwater Fishing Light.

- **Cleaning:** After each use, especially in saltwater, rinse the light with fresh water to remove any salt residue or debris.
- **Drying:** To deactivate the light and preserve battery life, ensure it is completely dry after use. Simply wipe off any water from the lure.
- **Storage:** Store the lights in a dry place away from direct sunlight and extreme temperatures.
- **Corrosion Resistance:** All components are made from anti-corrosion materials, making them suitable for both fresh and saltwater environments.

TROUBLESHOOTING

If you encounter any issues with your LED Underwater Fishing Light, refer to the following common troubleshooting tips:

Problem	Possible Cause	Solution
Light does not turn on when submerged.	Insufficient water contact or light is already activated.	Ensure the light is fully submerged. If it was recently used, ensure it was completely dried to reset the automatic switch.
Light does not turn off when removed from water.	Water residue on the activation points.	Thoroughly wipe the light dry, especially around the contact points, to ensure complete deactivation.
Light appears dim or flickers.	Battery nearing end of life.	The internal battery is not replaceable. Replace the unit if performance degrades significantly after extended use (beyond 350 hours).

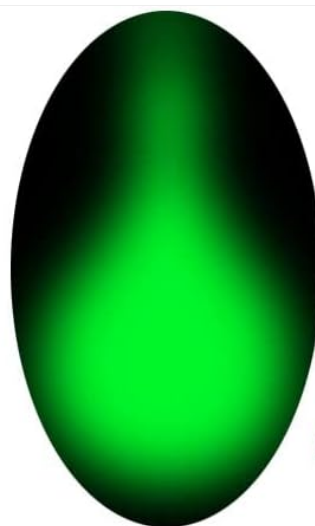

SPECIFICATIONS

Feature	Detail
Type	Fishing Lures Light
Dimensions (L x H)	15mm x 26mm (0.59" x 1.02")
Weight	2g (0.08 oz)
Material	Durable hard ABS plastic, anti-corrosion components
Features	Glowing, Waterproof, Anti-pressure, Automatic On/Off (water activated)
Pressure Resistance	Effective up to 1000 yards depth
Battery Life	Up to 350 hours
Application	Freshwater and Saltwater fishing, aquarium decoration
Color	Green Light (as per product color)

26mm/1.02inches

15mm/0.59inches
